INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Sanitary and Improvement District No. 147  
of Sarpy County, Nebraska

We have audited the accompanying financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska (the District) as of and for the year ended June 30, 2013 and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated October 3, 2013 on our consideration of the Sanitary and Improvement District No. 147's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 18 through 20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

The District has not presented Management's Discussion and Analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be a part of, the basic financial statements.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2013

1. Summary of Significant Accounting Policies

This summary of significant accounting policies of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska (the District) is presented to assist in understanding the District's basic financial statements. The financial statements and notes are representations of the District's management who is responsible for their integrity and objectivity. These accounting policies have been consistently applied in the preparation of the financial statements.

District Activities

The District is organized as a political subdivision and governed under the State of Nebraska. The District has a tax base made up of a commercial development, conducting its activity in Sarpy County, Nebraska.

The Financial Reporting Entity

The Board of Trustees of the District has financial accountability and control over all the activities related to Sanitary and Improvement District No. 147. The Board of Trustees is elected by the property owners of the District and has decision-making authority, the authority to levy taxes, the power to designate management, and the ability to significantly influence operations. The Board also has primary financial accountability for fiscal matters of the District. The District is engaged in a single governmental program and is not included in any other governmental "reporting entity" as defined by the GASB pronouncements. In addition, there are no component units as defined by the Governmental Accounting Standards Board Statement 14, which are included in the District's reporting entity.

Basis of Presentation

The basic financial statements of the District include the government-wide and the fund financial statements.

Government-Wide Financial Statements:

The government-wide financial statements include the Statement of Net Assets and the Statement of Activities, which report financial information for all nonfiduciary activities of the District. Individual funds are not displayed, and internal activity between or within funds is eliminated.

The government-wide statement of net assets recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. Net assets are restricted when constraints placed on them are either externally imposed or are imposed by law through constitutional provisions or enabling legislature. Internally imposed designations of resources are not presented as restricted net assets. When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The government-wide statement of activities reflects the expenses of the District's governmental activities, offset by general revenues to determine the change in net assets for the year.

Basis of Presentation - Continued

Fund Financial Statements:

The fund financial statements provide additional and detailed information about the District. The emphasis of the fund financial statements is on the determination of financial position and changes in financial position rather than upon net income. The following is a description of the District's two governmental funds:

General Fund – This fund is the operating fund of the District. It is used to account for all financing resources, except those required to be accounted for in other funds.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

In the government-wide financial statements, the activities are accounted for using the economic resources measurement focus and the accrual basis of accounting. On an accrual basis, revenues are recognized when earned. Expenditures are recorded when liabilities are incurred, regardless of the timing of related cash flows.

In the fund financial statements, both funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, that is, when they become both measurable and available. Available means collectable within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recognized in the period the liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due.

Property tax revenues are recognized when susceptible to accrual. Revenues on special assessments and miscellaneous revenues are recognized as the amounts are collected. Investment earnings are recorded as earned since they are measurable and available.

Budgets and Budgetary Accounting

The District is required by Nebraska law to adopt an annual operating budget for all the funds over which the District controls. The budget is adopted using the cash basis of accounting, which differs significantly from accounting principles generally accepted in the United States of America. Under the cash basis of accounting, revenues and expenditures are recorded when cash is received or paid. Payment is deemed to have been made when warrants are issued. Budgetary comparisons presented for both the General Fund and Debt Service Fund in this report are on non-GAAP budgetary basis.

The District adheres to the following procedures in preparing and adopting the budget:

- a. On or before early September, the Board of Trustees proposes an operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Prior to September 20, the Board of Trustees formally approves the budget document following a public hearing, with notice given five days in advance.
- c. As of September 20, the budget document must be on file with the County Board and the Auditor of Public Accounts.
- d. Appropriations for the General Fund and the Debt Service Fund lapse at the end of the fiscal year.
- e. Expenditures and transfers cannot exceed appropriations at the fund level. When expenditures and transfers are required for functions that have not been budgeted, authorization to amend the budget and to incur the expenditures is permitted following a public hearing. No significant supplemental appropriations were made for the fiscal year ended June 30, 2013.
- f. A majority vote by the Board of Trustees may authorize transfer of budgeted amounts from the General Fund to the Debt Service Fund.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Taxes Receivable

Receivables for property taxes are due from property owners within the boundaries of the District located in Sarpy County, Nebraska.

Capital Assets and Depreciation

Capital assets of the District, which primarily include infrastructure assets, are recorded at historical cost. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The estimated useful lives for significant capital assets are as follows:

Paving and sewer systems	25 – 40 years
Underground power and water systems	25 – 30 years
Improvements	25 – 30 years

Amortization

Bond issue costs are amortized over the terms of the bonds, using the interest method of amortization.

Net Assets/Fund Equity

The government-wide fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- Invested in capital assets, net of related debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and outstanding balance of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted net assets – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets – This category represents net assets of the District not restricted for any project or other purpose.

Fund equity – In the governmental fund financial statements, fund balances are classified as follows:

- Nonspendable – Amounts which cannot be spent because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantor or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Net Assets/Fund Equity - Continued

- Committed – Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the District through ordinance or resolution approved prior to year end. Committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same action it employed to commit those amounts.
- Assigned – Amounts the District intends to use for specific purposes.
- Unassigned – All amounts not included in other classifications.

2. Budget Basis of Accounting

Nebraska budgetary procedures require the preparation of budgets on a cash basis, rather than on the modified accrual basis of accounting used in the preparation of the accompanying financial statements. Accordingly, required budget comparisons for both the General Fund and the Debt Service Fund are presented on a non-GAAP budgetary basis in the accompanying financial statements of the District. The adjustments necessary to reconcile the differences between the two methods of accounting are summarized as follows:

	Fund		
	General	Debt Service	Total
Excess of receipts over disbursements on a budgetary basis	\$ 5,864	\$ 42,231	\$ 48,095
Change in property tax revenue from recognition on a cash basis	3,488	(5,069)	(1,581)
Change in accounts payable from recognition on a cash basis	(14,636)	-	(14,636)
Excess of revenues over expenditures on a modified accrual (GAAP) basis	\$ (5,284)	\$ 37,162	\$ 31,878

3. Deposits and Investments

Deposits

The District's deposits are insured or collateralized with securities held by an agent of the District in the District's name. All deposits are maintained by the Sarpy County Treasurer and are considered to be held by the District. As of June 30, 2013, The District's total deposits were \$100,847.

3. Deposits and Investments - Continued

Investments

The District is allowed to invest funds as permitted by Nebraska Statute 77-2341 and generally include U.S. government obligations, certificates of deposit, and time deposits. During the year ended June 30, 2013, the District held no investments.

Deposit risks include:

- Custodial Credit Risk – for deposits, custodial credit risk is the risk that in the event of the failure of a bank or other counterparty, the District will not be able to recover the value of its deposits or collateral securities in the possession of a third party.
- Credit Risk – for deposits, credit risk is the risk that a bank or other counterparty defaults on its own principal and/or interest payments owed to the District.
- Interest Rate Risk – for deposits, interest rate risk is the risk that the value of deposits will decrease as a result of a rise in interest rates.

4. Registered Warrants Payable

Warrants are issued for payment of liabilities. These warrants bear interest at the rate of 7% and 8% per annum from the date registered with the County Treasurer. General Fund warrants are due and payable no later than three years from the date of issuance. Debt Service Fund warrants are due and payable no later than five years from the date of issuance.

A summary of changes in registered warrants outstanding is as follows:

	<u>June 30, 2012</u>	<u>Issued</u>	<u>Retired</u>	<u>June 30, 2013</u>
General Fund	\$ 157,062	\$ 85,318	\$ 84,874	\$ 157,506
Debt Service Fund	-	-	-	-
	<u>\$ 157,062</u>	<u>\$ 85,318</u>	<u>\$ 84,874</u>	<u>\$ 157,506</u>

Interest expense on registered warrants for the General fund and Bond fund amounted to \$11,480 and \$0 for the year ended June 30, 2013.

7. Bond Issue Costs

Costs incurred by the District relating to issuing or refunding bonds payable are capitalized and amortized over the life of the bond issue. Amortization expense is computed using the interest method, which is computed by multiplying the bond issue costs by the ratio in which the numerator is the face value of the bond issue outstanding during the year, and the denominator is the summation of the face value of the bond issue outstanding for all years of the bond issue. Amortization expense for the year ended June 30, 2013 amounted to \$6,608.

8. Tax Levy

Property taxes are levied in August and become due on December 31. The first half payment is due March 31 and becomes delinquent April 1 of the following year, and the second half payment is due July 31 and becomes delinquent August 1 of the following year. The County Treasurer bills and collects all property taxes for the District. If the taxes remain delinquent after February of the following year, the County places a lien on the property.

BUDGETARY COMPARISON SCHEDULES  
FOR THE YEAR ENDED JUNE 30, 2013

1. Budgetary Accounting

The District prepares its budget for the Governmental Funds on the cash basis of accounting. The basis is consistent with the basis of accounting used in presenting the basic financial statements. Under this method of accounting, all unexpended appropriations lapse at the end of the budget year.

The term "Budgetary Fund Balance" used in these supplementary schedules is synonymous with the terms "Fund Balance - Cash Basis" used in the basic financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED  
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees  
Sanitary and Improvement District No. 147  
of Sarpy County, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska (the District) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 3, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we have identified certain deficiencies in internal control, as described below, that we consider to be material weaknesses.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described below to be material weaknesses.

1. Comment: In conjunction with the audit of the financial statements, it was necessary to propose material adjustments for the financial statement to be in conformity with accounting principles generally accepted in the United States of America, specifically the conversion to the accrual method.

Recommendation: We recommend that the Board read, review, discuss and approve the auditing journal entries to make the accrual financial statements be in conformity with accounting principles generally accepted in the United States of America.

Board response: The Board will review the proposed adjustments at one of the Board meetings.

2. Comment: The Auditing Standards Board (ASB) recently issued guidance to auditors related to an entity's internal controls over financial reporting. Many small organizations rely on their auditor to generate the annual financial statements including footnotes. Statement of Auditing Standard No. 115 emphasizes that the auditor cannot be part of the system of internal control over financial reporting. In our judgment, the Board's trustee charged with governance, in the course of his assigned duties, lacks the capable skills to prepare the financial statements and related footnotes in accordance with generally accepted accounting principles (GAAP) and to correct any misstatements if present.

Recommendation: In our judgment, those charged with governance need to understand the importance of this communication. However, due to the lack of resources available to the Board to correct this material weakness in financial reporting, we recommend the Board mitigate this weakness by having a heightened awareness of all transactions being reported.

Board response: The Board of Trustees realizes the importance of the financial statements and heightened its awareness of all transactions being reported.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

During the year ended June 30, 2013, the actual expenditures in the general and bond funds did not exceed the amount budgeted.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the Board of Trustees  
Sanitary and Improvement District No. 147  
of Sarpy County, Nebraska

Dear Chairman,

Internal Control Matters

In planning and performing our audit of the financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska as of and for the year ended June 30, 2013, in accordance with auditing standards generally accepted in the United States of America, we considered Sanitary and Improvement District No. 147 of Sarpy County, Nebraska's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board of Trustee's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board of Trustee's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the following deficiencies to be material weaknesses in Sanitary and Improvement District No. 147 of Sarpy County, Nebraska's internal control.

1. Comment: In conjunction with the audit of the financial statements, it was necessary to propose material adjustments for the financial statement to be in conformity with accounting principles generally accepted in the United States of America, specifically the conversion to the accrual method.

Recommendation: We recommend that the Board read, review, discuss and approve the auditing journal entries to make the accrual financial statements be in conformity with accounting principles generally accepted in the United States of America.

Board response: The Board will review the proposed adjustments at one of the Board meetings.

2. Comment: The Auditing Standards Board (ASB) recently issued guidance to auditors related to an entity's internal controls over financial reporting. Many small organizations rely on their auditor to generate the annual financial statements including footnotes. Statement of Auditing Standard No. 115 emphasizes that the auditor cannot be part of the system of internal control over financial reporting. In our judgment, the Board's trustee charged with governance, in the course of his assigned duties, lacks the capable skills to prepare the financial statements and related footnotes in accordance with generally accepted accounting principles (GAAP) and to correct any misstatements if present.

Recommendation: In our judgment, those charged with governance need to understand the importance of this communication. However, due to the lack of resources available to the Board to correct this material weakness in financial reporting, we recommend the Board mitigate this weakness by having a heightened awareness of all transactions being reported.

Board response: The Board of Trustees realizes the importance of the financial statements and heightened its awareness of all transactions being reported.

This communication is intended solely for the information and use of the Board of Trustees and management of Sanitary and Improvement District No. 147 of Sarpy County, Nebraska and the Nebraska Auditor of Public Accounts and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
