DEBRA J. HOUGHTALING
SARPY COUNTY CLERK

MINUTES OF MEETING OF BOARD OF TRUSTEES OF
SANITARY AND IMPROVEMENT DISTRICT NO. 158
OF SARPY COUNTY, NEBRASKA

The meeting of the Board of Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska was convened in public and open session at 4:00 p.m. on March 7, 2013 at 9915 South 148th Street, Omaha, Nebraska. Present were the following Trustees:, Larry Hammer, Patrick S. Lichter, Dale Marples, and Allen Marsh. Absent was the following Trustee: Paul R. Stoupa. Present by invitation were Ronald W. Hunter, attorney for the District; Kristi Weispfenning, his assistant; Dean Jaeger of Thompson, Dreessen & Dorner, Inc., engineers for the District; Diane Alderson of the Tiburon Pool; and Gerry Gutoski of Field R & D. Notice was given in advance thereof by publication in the Papillion Times on March 6, 2013, a copy of the Proof of Publication being attached to these Minutes. Notice of the meeting was given to all members of the Board of Trustees, a copy of their Acknowledgment of Receipt of Notice being attached to these minutes. Availability of the Agenda was communicated in the published Notice and in the Notice to the Trustees of the meeting. All proceedings of the Board were taken while the convened meeting was held open to the attendance of the public.

The Attorney for the District certifies that these Minutes were written and available for public inspection within ten (10) working days and prior to the next convened meeting of the Board of Trustees.

The Chairman called the meeting to order and called the roll.

The Chairman publicly stated to all in attendance that a current copy of the Nebraska Open Meetings Act was available for review and indicated the location of such copy in the room where the meeting was being held.

The Chairman stated the first order of business was an update regarding the pool. Ms. Alderson stated that some of the valves for the pool are scheduled to be replaced and the drain will be repaired at the same time.

At this point in the meeting, Ms. Alderson left the meeting.

The Chairman stated the next order of business was an update from Gerry Gutoski. Mr. Gutoski stated the northwest quadrant manholes have been flushed. He also stated there have been some issues with the lift station located near 180th Street and Cornhusker Road. Lift Station No. 2 has had minor issues with the three-phase power which are being repaired. Also, the lift station located in the middle of the golf course needs a generator which Mr. Gutoski is attempting to find.

The next item of discussion was regarding possible water restrictions. The Trustees agreed that beginning May 1 through September 1, watering will be restricted to odd/even.

The Chairman stated the next order of business was an update from the engineers. The first item of discussion was regarding Revised Report of Water Study. The Trustees reviewed various documents which were handed out by Mr. Jaeger. After a lengthy discussion, the Trustees agreed to lay over consideration of drilling an additional well or building a storage tank. The Trustees requested Mr. Jaeger to prepare a cost estimate for looping the current water system to be presented at the next meeting.

At this point in the meeting, Mr. Gutoski and Mr. Jaeger left the meeting.

The Chairman stated the next order of business was property owner questions or concerns. The Trustees discussed the issue with the sign located in the commercial area. It was agreed that Trustee Stoupa would work with the owners of the commercial area and a sign company to determine if a monumental sign could be erected.

The Chairman stated the next order of business was a proposal, dated February 27, 2013, from C & C Custom Cutting, LLC for mowing lots owned by the District. The charges were as follows: $18.00 per lot; finish trimming at a cost of $140.00; and additional mowing of open areas at a cost of $140.00. After a full and complete discussion, the following Resolution was proposed by Trustee Lichter and seconded by Trustee Hammer, to-wit:

> RESOLVED, that the Board of Trustees of SID 158 hereby approve and accept the proposal, dated February 27, 2013 from C & C Custom Cutting, LLC for mowing lots and open area of the District.

On the foregoing Resolution the following Trustees voted "aye": Trustees Hammer, Lichter, Marples, and Marsh. Voting "nay" thereon were the following: None. The Chairman then declared that said Resolution was duly carried and adopted.

The Chairman stated the next order of business was a proposal, dated February 12, 2013, from Clean Sweep Commercial, Inc. for street sweeping at a cost of $1,100.00. After a full and complete discussion, the following Resolution was proposed by Trustee Lichter and seconded by Trustee Hammer, to-wit:

> RESOLVED, that the Board of Trustees of SID 158 hereby approve and accept the proposal, dated February 12, 2013, from Clean Sweep Commercial, Inc., for street sweeping at a cost of $1,100.00, said street sweeping to be completed as soon after April 15, 2013 as possible.

On the foregoing Resolution the following Trustees voted "aye": Trustees Hammer, Lichter, Marples, and Marsh. Voting "nay" thereon were the following: None. The Chairman then declared that said Resolution was duly carried and adopted.

The Chairman stated the next order of business was a discussion regarding an invoice from Green Acres Lawn Care, Inc., in the amount of $94.00 for blowing out sprinklers in park. The Trustees agreed this invoice would be paid out of the General Fund of the District in the payment of bills.

The following are reporting items for the Trustees information and required no action: a letter, dated February 4, 2013, to Rich James depositing $12,293.41 in the Construction Fund and depositing $16,706.59 in the General Fund for proceeds of sale of Lot 118; a letter, dated February 4, 2013, to Rich James depositing $1,425.00 in the Construction Fund for water connection fees; a letter to Rich James, dated February 12, 2013, depositing $10,057.00 from Tiburon Pool in the General Fund; a letter, dated February 19, 2013, to Rich James depositing $28,651.90 in the Construction Fund and depositing $348.10 in the General Fund for proceeds of sale of Lot 66; a letter, dated February 27, 2013, to Rich James depositing $950.00 from Sarpy County Imprest Payables for water connection fees in the Construction Fund; a letter, dated February 27, 2013, to Rich James depositing $294.66 in the Service Fee Fund for Kum & Go water payment; and General Ledger balances from Sarpy County Treasurer as of January and February. 2013 and financial statements as of March 6, 2013.

The Chairman stated the next order of business was the consideration of the hereinafter described statements, bills and invoices. After a full and complete discussion, the following Resolutions were proposed by Trustee Hammer and seconded by Trustee Lichter, to-wit:

> BE IT RESOLVED, by the Board of Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska, that the Chairman and Clerk be and hereby are directed and authorized to execute and deliver General Fund Warrants Nos. 5960 through 5979 of the District, dated the date of this meeting, to the following payees and in the following amounts, said Warrants to be drawn on the General Fund of the District and to draw interest at the rate of seven percent (7%) per annum, to be redeemed no later than March 7, 2016, subject to extension of said maturity date by order of the District Court of Sarpy County, Nebraska, after notice is given as required by law, to-wit:
>

WARRANT NO. 5979 in the amount of $94.00 made payable to GREEN ACRES LAWN CARE, INC, per Statement dated 02/05/13, attached.

BE IT FURTHER RESOLVED by the Board of Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska, that both they and the district hereby find and determine and covenant, warrant and agree as follows: the improvements and/or facilities being financed or refinanced by the above Warrants are for essential governmental functions and are designed to serve members of the general public on an equal basis; all said improvements have from the time of their first acquisition and construction been owned, are owned and are to be owned by the District or another political

subdivision; to the extent special assessments have been or are to be levied for any of said improvements, such special assessments have been or are to be levied under Nebraska law as a matter of general application to all property specially benefited by said improvements in the District; the development of the land in the District is for residential or commercial use and the development of the land in the District for sale and occupation by the general public has proceeded and is proceeding with reasonable speed; other than any incidental use of said improvements by a developer during the initial period of development of said improvements, there have been, are and will be no persons with rights to use such improvements other than as members of the general public; none of the proceeds of said Bonds or any refinanced indebtedness have been or will be loaned to any private person or entity; the District hereby authorizes and directs the Chairperson or Clerk to file or cause to be filed, when due, an information reporting form pursuant to Section 149(e) of the Internal Revenue Code of 1986, as amended, pertaining to the above Warrants; and the District does not reasonably expect to sell or otherwise dispose of said improvements and/or facilities, in whole or in part, prior to the last maturity of the above Warrants.

BE IT FURTHER RESOLVED, by the Board of Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska, that the District hereby covenants, warrants and agrees as follows: (a) to take all actions necessary under current federal law to maintain the tax exempt status (as to taxpayers generally) of interest on the above Warrants; and (b) to the extent that it may lawfully do so, the District hereby designates the above Warrants as its "qualified tax exempt obligations" under Section 265(b)(3)(B)(I)(III) of the Internal Revenue Code of 1986 as amended and covenants and warrants that the District does not reasonably expect to issue Warrants or Bonds or other obligations aggregating in the principal amount of more than $5,000,000.00 during the calendar year in which the above Warrants are to be issued.

BE IT FURTHER RESOLVED, by the Board of Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska that this and the preceding Resolutions are hereby adopted as the Certificate with Respect to Arbitrage of the District hereby further certify, as of the date of the registration of the above Warrants with the County Treasurer of Sarpy

County, Nebraska, as follows:

1. No separate reserve or replacement fund has been or will be established with respect to the above Warrants. The District reasonably anticipates that monies in its Bond Fund reasonably attributable to the above Warrants in excess of the lesser of: (a) 10% of the net principal proceeds of the above Warrants, (b) the maximum annual debt service due on the above Warrants, or (c) 125% of average annual debt service due on the above Warrants will be expended for payment of principal of and interest on the above Warrants within 13 months after receipt of such monies. That amount which is currently held in the District's Bond Fund which exceeds the amount which is to be expended for payment of principal and interest on the above Warrants within 13 months after receipt of such monies, plus that amount arrived at pursuant to the immediately preceding sentence, will not be invested in any securities or any other investment obligations which bear a yield, as computed in accordance with the actuarial method, in excess of the yield of the above Warrants.

2. To the best of their knowledge, information and belief, the above expectations are reasonable.

3. The District has not been notified of any listing of it by the Internal Revenue Service as an issuer that may not certify its Bonds.

4. This Certificate is being passed, executed and delivered pursuant to Sections 1.148-2 (b)(2) of the Income Tax Regulations under the Internal Revenue Code of 1986, as amended.

On the foregoing Resolutions the following Trustees voted "aye": Trustees Hammer, Lichter, Marples, and Marsh. Voting "nay" thereon were the following: None. The Chairman then declared that said Resolutions were duly carried and adopted.

There being no further business to come before the meeting, the same was thereupon adjourned.

ALLEN J. MARSH, Chairman

DALE MARPLES, Trustee

ACKNOWLEDGMENT OF RECEIPT
OF
NOTICE OF MEETING

THE UNDERSIGNED Trustees of Sanitary and Improvement District No. 158 of Sarpy County, Nebraska, hereby acknowledge receipt of advance notice of a meeting of the Board of Trustees of said District, and the Agenda for such meeting held at 4:00 p.m. on March 7, 2013 at 9915 South 148th Street, Omaha, Nebraska.

DATED this 7th day of March, 2013.

ALLEN J. MARSH, Chairman

DALE MARPLES, Trustee

LARRY HAMMER, Trustee

PATRICK S. LICHTER, Clerk

PAUL R. STOUPA, Trustee

CERTIFICATE

The undersigned hereby certify that they are the Chairman and Clerk of Sanitary and Improvement District Number 158 of Sarpy County, Nebraska, (the "District") and hereby further certify as follows:

1. Annexed to this certificate is a true and correct transcript of the proceedings of the Board of Trustees of the District relating to a meeting of said District held on the date and at the time reflected in the meeting minutes contained in said foregoing transcript (the "Meeting"). All of the proceedings of the District and of the Board of Trustees thereof which are set out in the annexed and foregoing transcript have been fully recorded in the journal of proceedings of the District and the undersigned District Clerk has carefully compared the annexed and foregoing transcript with said journal and with the records and files of the District which are in such Clerk's official custody and said transcript is a full, true and complete copy of said journal, records and files which are set out therein.

2. Advance notice for the Meeting was given by publication as set forth in the affidavit of publication contained in the foregoing transcript and was given to the Clerk of the municipality or county within whose zoning jurisdiction the District is located at least seven days prior to the date of the Meeting. Advance notice for the Meeting, including notice of agenda subjects, was given to all members of the Board of Trustees. All news media requesting notification of meetings of said body were provided with advance notice of the times and places of such meetings and the subjects to be discussed.

3. All of the subjects addressed at the Meeting were contained in the agenda for the Meeting, which agenda was kept continually current and readily available for public inspection at the address listed in the meeting notice for the Meeting and a copy of which is attached to this Certificate; such subjects were contained in said agenda for at least 24 hours prior to the Meeting and each agenda item was sufficiently descriptive to give the public reasonable notice of the matters to be considered at the Meeting.

4. A current copy of the Nebraska Open Meetings Act was available and accessible to members of the public, posted during the Meeting in the room in which such Meeting was held and all in attendance at the Meeting were informed that such copy of the Nebraska Open Meetings Act was available for review and were informed of the location of such copy in the room in which such Meeting was being held. At least one copy of all resolutions and other reproducible written materials, for which actions are shown in said proceedings, was made available for examination and copying by members of the public at the Meeting.

5. The minutes of the Meeting were in written form and available for public inspection within ten (10) working days after the Meeting or prior to the next convened meeting, whichever occurred earlier, at the office of the District; within thirty (30) days after the date of the Meeting, a copy of the minutes of the Meeting was sent to the Clerk of the municipality or county within whose zoning jurisdiction the District is located.

6. No litigation is now pending or threatened to restrain or enjoin the District from

the issuance and delivery of any warrants or other obligations issued by the District or the levy and collection of tax or other revenues or relating to any of the improvements for which any such warrants or other obligations were or are issued nor in any manner questioning the proceedings and authority under which any such warrants or other obligations were or are issued or affecting the validity thereof; neither the corporate existence or boundaries of the District nor the title of its present officers to their respective offices is being contested; no authority or proceedings for the issuance of any warrants or other obligations by the District have been repealed, revoked or rescinded as of the date hereof. All actions taken by the Board of Trustees referred to in said transcript were taken at a public meeting while open to the attendance of the public.

IN WITNESS WHEREOF, we have hereunto affixed our official signatures this 7th day of March, 2013.

Chairman

Clerk

Subject: 2013 Drought Planning information

All,

"Unfortunately (the drought is) not over and we're definitely starting 2013 in a different status than what we entered 2012" stated Michael Hayes, director of the National Drought Mitigation Center based at UNL. With that in mind and facts at hand from the summer of 2012, I am providing herewith some information that may help the Tiburon trustees deal with water conservation ordinances. To start with, it should be noted that during our 1,000,000 gallon a day pumping periods last year, all of our five area wells were under severe draw-down conditions. Wells 3, 4 and 5 were starting to exhibit some "silting" issues that displayed lower aesthetic qualities in our water supply. I would appreciate if the Trustees of both Tiburon and Tiburon South would review the attached documents that address water usage management during drought conditions. A definitive set of staged drought plans/ordinances should be the expected output for publication in the area's late spring newsletter.

I will continue gathering more drought information from assisting agencies. I'm really looking for a set of simple, straightforward plans that have a conservative bent, but do not turn the area into a scrub desert. I also believe that the golf course has to be included in this water management plan. Finally, it is best that we address a plan that fits our needs than to have an outside governing agent dictate them to us.

Thank you,
Gerry Gutoski
Tiburon Water Operations

"It's what you learn after you know it all that counts."

City of Lincoln recommendations

Voluntary water conservation

» Odd-numbered houses water outdoors on Tuesdays, Thursdays and Saturdays. Even-numbered houses water on Wednesdays, Fridays and Sundays. No outdoor watering on Mondays.
» Reduce outdoor watering by 20 percent. Example: Reduce automatic sprinkler time per zone from 15 minutes to 12 minutes.
» Water only two days a week if possible.
» Hand water needy portions of your landscape. Keep a closer eye on items planted within the past year.
» Wean established landscapes. Start by watering three days a week before reducing further.
» Thicken mulch by 2 to 3 inches to suffocate weeds and slow evaporation.
» Consider water bags for newly planted trees and shrubs.
»Use soaker or drip irrigation systems. Keep hoses covered with mulch to reduce evaporation.

Mandatory restrictions (if enacted)

» No-cost city permits required to water newly planted grass and to operate underground lawn sprinklers, water-cooled air conditioners and private wells.
» Washing cars and other vehicles restricted to designated-day schedule.
» Restricted watering for golf courses.
» No refilling of operating ornamental fountains and waterfalls.
» No washing sidewalks and driveways.
» No adding water to swimming pools. Only small wading pools for children and pets can be filled.

PRE-DROUGHT STRATEGIES AND DROUGHT RESPONSES

SECTION 4: DROUGHT RESPONSES

"Pre-drought strategies" are longer-term actions, implemented before a drought, for the purposes of preparedness, mitigation, monitoring, and conservation. "Drought responses" are shorter-term actions, implemented during a drought, according to the level of drought severity.

Section 4A: MUNICIPAL AND INDUSTRIAL -- DROUGHT RESPONSES

1. **Outdoor Watering Reduction Schedule:**

- Outdoor watering other than those exempted activities is to occur only on scheduled days
- Prior to onset of declared drought conditions, outdoor water use can occur during any hours on the scheduled days.
- During declared drought conditions, outdoor water use will only be allowed during scheduled hours on the scheduled days.

"Scheduled days are defined as follows":

- Odd-numbered addresses may water on Tuesdays, Thursdays, and Sundays.
- Even-numbered or unnumbered addresses may water on Mondays, Wednesdays, and Saturdays.

"Scheduled weekend day is defined as follows":

- Odd-numbered addresses may water on Sundays.
- Even-numbered or unnumbered addresses may water on Saturdays.

Schedule for Outdoor Water Use during Declared Drought Response Levels:

Declared Drought Responses: Level One:

Water on scheduled days - 12 midnight to 10 a.m - and - 4 p.m. to 12 midnight.

Declared Drought Response: Level Two:

Water on scheduled days - 12 midnight to 10 a.m.

Declared Drought Response: Level Three:

Water on scheduled weekend day - 12 midnight to 10 a.m.

Declared Drought Response: Level Four:

Complete outdoor water use ban

1a. Landscape Irrigation – Established Landscapes

Residential, commercial, industrial, governmental, and recreational landscapes:

° Established Landscapes using small capacity wells not requiring EPD water withdrawal permits for groundwater use are exempt from the above schedule.

° EPD will grant exemptions from the above schedule for use of recycled treated wastewater as determined on a case-by-case basis by EPD.

- Irrigation of personal food gardens is exempt from restrictions.
- Irrigation of landscapes (turf, ornamentals, annuals, and containerized plants) follows declared drought response levels schedule (above).

1b. Landscape Irrigation – Newly Installed Landscapes (in place less than 30 days)

Residential, commercial, industrial, governmental, and recreational landscapes

- Irrigation of landscapes (turf, ornamentals, annuals, and containerized plants) allowed any day of the week, during allowed hours for the level in effect, for a period of 30 days following installation. After this 30-day period, irrigation of newly installed landscapes follows schedule for established landscapes.
- For landscapes installed by licensed professionals, please see commercial exemptions below.

1c. Golf Courses

- Irrigation of fairways shall follow landscape irrigation schedules above, for unnumbered addresses.
    - Golf course using small capacity wells not requiring EPD water withdrawal permits for groundwater use are exempt from the above schedule
    - EPD will grant exemptions from the above schedule for use of recycled treated wastewater as determined on a case-by-case basis by EPD.
- Irrigation of greens and tees are exempt from restrictions.

1d. Other Restricted Outdoor Water Uses

Follow Basic schedule for Levels One and Two: Listed Activities are prohibited for Levels Three and Four.

- Filling installed swimming pools (except when necessary for health care or structural integrity)
- Washing vehicles, such as cars, boats, trailers, motorbikes, airplanes, golf carts
- Washing buildings or structures (except for immediate fire protection)
- Non-commercial fund-raisers, such as car washes
- Using water for ornamental purposes, such as fountains, reflecting pools, and waterfalls (Except when necessary to support aquatic life)

Basic schedule for Level One: Prohibited for Levels Two, Three, and Four.

- Washing hard surfaces, such as streets, gutters, sidewalks, driveways (Except when necessary for public health and safety)

Prohibited during all Levels

- Using hydrants for any purpose other than firefighting, public health, safety, or flushing.

2: Commercial Uses Exempt from State-Mandated Outdoor Water Use Restrictions

- Professional licensed landscapers, golf course contractors, and sports turf landscapers: during installation and 30 days following installation only. Professional landscapers must be licensed for commercial exemptions to apply.
- Irrigation contractors: during installation and as needed for proper maintenance and adjustments only
- Sod producers
- Ornamental growers
- Fruit and vegetable growers
- Retail garden centers
- Hydro-seeding
- Power-washing
- Construction sites (e.g., to re-implement vegetation after earth moving)
- Producers of food and fiber
- Car washes
- Other activities essential to daily business

Prudent water management will be expected of all commercial uses.
Note that some of these state allowed exemptions may be curtailed in drought response levels 3&4 by locally imposed restrictions

3: Local and Regional Options:

In the event of an emergency at the local water supply provider or government level, contact EPD and GEMA for assistance as appropriate.

In addition to the mandated requirements outlined above, local and regional authorities retain the option of going beyond the State's minimum provisions and specifying additional pre-drought strategies or drought responses within their jurisdiction. Action items to consider at the local/regional level include, but are not limited to, the following: developing system integration and interconnection to reduce drought vulnerability, placing additional water use restrictions on specific commercial uses, and placing additional restrictions on outdoor watering.

Water conservation and drought mitigation strategies should include conservation pricing. Local governments and water supply providers are strongly encouraged to evaluate a number of conservation pricing options and select the one that most readily satisfies their goals for water conservation. DNR's Water Conservation Manager, EPD and P2AD, as well as DCA, ARC and the RDC's can provide assistance in this effort.

- Non-conservation pricing: Defined, as decreasing or flat pricing as quantity used increases - should be eliminated.

Chairman and Board of Trustees
Sanitary and Improvement District No. 158
of Sarpy County, Nebraska
c/o Mr. Ron W. Hunter, Attorney
11605 Arbor Street, Suite 104
Omaha, NE 68144

RE: Revised Report of Water Study
SID 158 / SID 192 Sarpy County
(Tiburon and Ballena Subdivisions)
TD2 File No. 1592-108.3

Board Members:

We have completed our evaluation of the water supply and distribution system serving SID 158 and SID 192. In general, the majority of the service area lacks adequate fire protection as the water supply and distribution system is currently configured. The distribution system of SID 158 is configured with numerous water mains in long cul de sacs, with single points of feed, which contribute to the lack of adequate fire protection. The distribution system of SID 192 is well looped and interconnected, however, lacks adequate supply and storage. A draft of our study results is presented as follows for discussion.

Water System Study
for
SID 158 / SID 192 Sarpy County
(Tiburon and Ballena Subdivisions)

1. Description of Project:

   SID 158 and SID 192 Sarpy County operate an interconnected public water system that consists of 5 ground water source wells with a hydropneumatic tank at each well site. The water distribution system is a mix of 6 inch and 8 inch pipes. Four of the wells are connected to the SID 158 system. The fifth well is connected to the SID 192 system. The two systems are connected at Well No. 2 on the west and 168th Street and Clubhouse Drive on the east. A pressure control / check is installed at each connection point. The control valves allow SID 158 to supply water to SID 192 to supplement the water supplied by the SID 192 Well No. 3. The control valves are also set to allow SID 192 to supply water to SID 158 in the event of extreme demand such as a fire.

   This study is prepared to evaluate the ability of the existing water system to provide domestic and fire flows to the customers and to make recommendations as to location and size of an elevated water storage reservoir and water main improvements to provide adequate domestic service and fire flows to both districts at full built out. The water customers include 590 existing single family residential units, a 120 unit apartment complex, golf course clubhouse complex, and a 13-lot commercial area with 3 existing commercial buildings. There are an estimated 104 undeveloped single family units at this time. The golf course irrigation system is supplied by private irrigation wells and is not connected to the public water system.

2. Existing Water System Demands:

Water pumped information from Field R & D, the water system operator, was analyzed. The average day demand using 2011 data is 332,333 gallons per day (231 gpm). The maximum day demand of 1,154,000 gallons (801 gpm) occurred on July 24, 2012. Observations made during a site visit on July 18, 2012 during the maximum hour time period indicated a system pumping rate of 1,500 gpm.

3. Estimated Future Water System Demands:

The water system has an estimated 714 existing users with a total of 114 additional users at full build out. This represents a 16% increase in users, thus the existing water system demands will be increased by approximately 16% to obtain the estimated future water system demands .

	Existing (gpm)	Estimated Future (gpm)
Average Day	230	268
Maximum Day	800	925
Maximum Hour	1,500	1,736
Maximum Day + Fire	2,550	2,680

Study Parameters

Minimum Residual Pressure at Hydrants	20 psi
Needed Fire Flow – Single Family Residential (Assumed Wood Shingles)	1,500 gpm
Needed Fire Flow – Single Family Residential (Assumed Composite Shingles)	1,000 gpm
Needed Fire Flow – Multi-Family Residential (Tiburon So. Apartments)*	770 gpm
Needed Fire Flow – Tiburon Clubhouse*	700 gpm
Needed Fire Flow – Commercial (Tiburon Village)**	1,750 gpm

* Served with Fire Sprinkler System
** Existing Buildings not served with Fire Sprinkler System

4. Evaluation of Existing System to Provide Fire Flows

The existing water supply system is not capable of providing required fire flows for 2 hours without supplemental storage for nearly all of the structures. The Tiburon Golf Course Clubhouse and the Tiburon View Apartments are equipped with fire sprinklers that have been sized based on available flows from the existing water system. The existing pumping capacity with all wells operating is between 1,500 and 1,600 gpm, however, current maximum day plus fire flow is 2.550 gpm.

The existing water distribution systems consists of 6" and 8" diameter pipes that are not significantly looped to provide water flow from two directions. The computer model indicates that more than half of the water system service area does not have sufficient water main capacity to provide maximum day, plus fire flows.

The SID 158 system is primarily served with 6" water mains and has numerous dead-end water mains which contribute to the lack of adequate flows. The lack of looping of water mains within SID 158 is due to numerous long cul-de-sacs.

The SID 192 system is adequately looped with an 8" water main in Oakmont Drive, 173rd Street, and Fairway Drive. Service within SID 192 is limited by supply from Well No 3 and the amount of water supplied by SID 158.

An electronic model of the SID 158 / SID 192 Water System was developed and 3 scenarios were simulated. The 3 scenarios modeled are Current Conditions, Proposed Looped Condition, and Looped Conditions with New Well. The results of each scenario are presented on plan sheets showing the system layout with areas shaded that are not capable of providing fire flows.

5. Distribution System Improvement Recommendations

Plan Sheet 2 of 3 shows pipe loops with expected fire flow availability within various areas of the distribution system. It is apparent the looping of the system will improve available fire flows, however, the majority of the area will not meet the 1,500 gpm needed flow rate. Plan Sheet 3 of 3 adds a well to the system near the Tiburon Pool. The well was assumed to have a capacity similar to the existing wells (300 to 400 gpm). Combined with the looped system, the water system is capable of providing maximum day plus fire flows to a majority of the distribution. The routes for these loops are shown to be between existing residences, across the golf course, thus easements will be required along with extensive restoration of disturbed areas. Routes in the public right-of-way of Cornhusker road and 180th Street will require permit from the Sarpy County Public Works Department.

A brief description of each recommended improvements is as follows:

SID 158 System

Loop 1: Connect the water main near Well No 4 to the dead end water main in Camelback Avenue near 180th Street with an 8" water main.

Loop 2: Connect the dead end 6" water main in Sawgrass Circle to the dead end 6" water main in 175th Circle (north of Cornhusker Road) with a connection to the water main in Prestwick Avenue with 8" water main.

Loop 3: Parallel the existing 6" water main in Cornhusker Road with an 8" water main from Well No. 5 to 168th Avenue with connection to 175th Circle, 173rd Circle, and 172nd Circle

Loop 4: Connect the water main in 176th Street (near Ventana Circle) to the water main in to 175th Circle (south of Cornhusker Road) and Rivera Drive (north end of Gated Community) with an 8" water main.

Loop 5: Connect the dead end 6" water main north of the Tiburon Clubhouse to the 6" water main in 168th Street at the Clubhouse Drive with an 8" water main.

Loop 6: Connect the 8" water main at 178th Street and Cornhusker Road with the 6" water main in 179th Street cul de sac north of Cornhusker Road with an 8" Water Main.

Loop 7: Connect the dead end 6" water main in 173rd Circle with the 6" water main in 172nd Circle north of the Tiburon Pool.

New Elevated Storage Tower: Construct a 200,000 gallon elevated storage tower located at 180th and Camelback Avenue. Tower construction is assumed to include all Site Work, which includes (but is not limited to) piping, grading, electrical, and roadway work.

New Well: Construct a 300 to 400 gpm capacity well near the Tiburon Pool. The well construction is assumed to include construction of a test well, permanent well, well house, and standby power.

SID 192 System

No improvements required or recommend with this study.

6. Opinion of Cost

An Opinion of Cost was developed for the improvements modeled in the study. A quantity take-off was made for each of the Loops and the New Well. The Opinion of Project Costs has been developed for each of the improvements as described above. A Soft Cost value of 30% was added to Construction Costs which includes allowances for engineering, legal, administrative, and financial costs assuming a bond will issued to pay the Project Cost.

Loop No. 1

Construction Cost:	
Construct 8" Water Main (Open Trench) 520 l.f. @ $40.00 =	$20,800
(Includes valves, hydrants & appurtenances)	
Soft Costs	6,200
Loop No. 1 Project Cost	**$27,000**

Loop No. 2

Construction Cost:	
Construct 8" Water Main (Open Trench) 1,995 l.f. @ $40.00 =	$ 79,800
Construct 8" Water Main (Directional Bore) 375 l.f. @ $100.00 =	37,500
(Includes valves, hydrants & appurtenances)	
Soft Costs	$ 35,200
Loop No. 2 Project Cost	**$152,500**

Loop No. 3

Construction Cost:	
Construct 8" Water Main (Open Trench) 3,080 l.f. @ $40.00 =	$123,200
(includes valves, hydrants & appurtenances)	
Soft Costs	$ 37,000
Loop No. 3 Project Cost	**$160,200**

Loop No. 4

Construction Cost:	
Construct 8" Water Main (Directional Bore) 1,550 l.f. @ $100.00 =	$155,000
(includes valves, hydrants & appurtenances)	
Soft Costs	$ 46,500
Loop No. 4 Project Cost	**$201,500**

Loop No. 5

Construction Cost:	
Construct 8" Water Main (Open Trench) 625 l.f. @ $40.00 =	$ 25,000
Construct 8" Water Main (Directional Bore) 630 l.f. @ $100.00 =	63,000
(includes valves, hydrants & appurtenances)	
Soft Costs	$ 26,400
Loop No. 5 Project Cost	**$114,400**

Loop No. 6

Construction Cost:	
Construct 8" Water Main (Open Trench) 500 l.f. @ $40.00 =	$ 20,000
(includes valves, hydrants & appurtenances)	
Soft Costs	6,000
Loop No. 6 Project Cost	**$ 26,000**

Loop No. 7

Construction Cost:	
Construct 8" Water Main (Directional Bore) 805 l.f. @ $100.00 =	$ 80,500
(includes valves, hydrants & appurtenances)	
Soft Costs	24,100
Loop No. 7 Project Cost	**$ 104,600**

New Elevated Storage Tank

Construction Cost:	
Construct 200,000 Gallon 130 feet HWL Pedi-sphere (includes Site Work – piping, grading, electrical, roadway)	= $ 810,000
Soft Costs	243,000
New Elevated Storage Tank Project Cost	**$ 1,053,000**

New Well

Well, Well House, Pump, and Standby Power	= $ 300,000
Soft Costs	100,000
Total New Well Project Cost	**$400,000**
TOTAL OPINION OF PROBABLE COST OF ALL IMPROVEMENTS	**$2,239,200**

If there are any questions, please contact us.

Subject: 2013 Mowing Season Quote for Unsold Tiburon Lots

Gentlemen,

As cold as it is today, it's almost hard to believe that Spring is just around the corner. I've attached the quote for 2013 Season with a couple of minor tweaks compared to last year. The lot price went up $0.25 and the hand trimming and extra time for mowing around the boarder trees each went down $10.00. If you have any special wishes or things you would like me to do differently please let me know as I only want to have satisfied customers.

Thanks, Tom Demro

Proposal

Mr. Ronald Hunter
11605 Arbor Street #104
Omaha, NE 68144

Date	Proposal #
2/12/2013	1506

Job Name: # 158 - Tiburon

We are pleased to submit this proposal for sweeping all street, curb lines and intersections within your Sanitary and Improvement District.

Legal Off-Site disposal of all swept material shall be the responsibility of Clean Sweep Commercial.

Sweeping will be performed at your convenience and will be scheduled after Clean Sweep Commercial receives a signed copy of this proposal.

The Price will be.....$1100.00

This proposal will only include sand clean-up and will not include heavy mud build-up or any areas that include tractor use.

A Certificate of Insurance will be issued by Clean Sweep Commercial prior to sweeping (upon request)

Sincerely,

Clean Sweep Commercial Inc.

Please return a signed copy of this proposal by Fax or Mail

Re: Lot 118, Tiburon Subdivision

Dear Mr. James:

On January 7, 2013, SID 158 sold Lot 118, Tiburon, one of the 73 lots acquired by SID 158 by a deed in lieu of foreclosure. Enclosed is a check in the amount of $29,000.00 from Nebraska Title Company, Escrow Agent. Please deposit $12,293.41 in the Construction Fund of the District deposit $16,706.59 in the General Fund of the District for the proceeds from the sale of Lot 118.

If you should have any questions, please contact me.

Sincerely Yours,

REMARKS See reverse side of report for description of acronyms and data qualifiers. For inquiries on result interpretation call: (402) 471-6435.

ACRONYMS

MCL = Maximum Contaminant Level – The concentration of the analyte which has been determined by the EPA to put the public health at risk. Concentrations below this level are considered acceptable.
<RL = Less than Reporting Limit. The lowest amount of the analyte that can be accurately reported by the method used.
NG = Not Given. The information was not supplied by the collector on the request form or the information was not readable.
ND or NT = Not determined or not tested.

DATA QUALIFIERS

A = The value given is an average value; determined by analyzing aliquots of the same sample two or more times
B = The results are based upon colony counts outside the acceptable range. Fecal coliform results require that the plate count be in the range of 20-60. Fecal strep results require that the plate count be in the range of 20-100 colonies.
C = The result given is a calculated value; it was not determined by direct analysis.
E = Indication of possible interference.
F = The sample was received in improper condition (container, temperature, preservative, sample container broken, paperwork discrepancies, air bubbles, insufficient volume, excess turbidity, chlorine smell, etc.)
H = The sample was beyond the maximum holding time when received by the laboratory. It was therefore, not analyzed.
J = The associated numerical value is an estimated quantity.
K = The actual value is less than the value given.
L = The actual value is greater than the value given.
M = The analysis was inconclusive due to matrix interferences. The sample needs to be recollected.
Q = The sample was beyond the maximum holding time prior to analysis.
R = The sample was delivered to the lab, but due to laboratory accident, it was unable to be analyzed.
S = Not all of the associated quality control criteria were met for this analyte.

TOTAL COLIFORM TERMINOLOGY (DRINKING WATER)

SDWIS T/E Coli - Routine Sample – Required monitoring samples, which are sent to each PWS System monthly or quarterly.
Initial Repeat – The method used for Initial Repeats, EPA 9223B-QT, provides the number of organisms in colony forming units (CFU) instead of presence or absence.

OR – ORIGINAL – This repeat sample must be taken from the sampling tap where the original positive sample was.
DN – DOWNSTREAM – This repeat sample must be collected within 5 service connections downstream of the original positive sample.
UP – UPSTREAM – This repeat sample must be collected within 5 service connections upstream of the original positive sample.
OT – OTHER SITE – This water sample will serve as an initial repeat sample and a triggered sample. For systems required to conduct triggered monitoring under the Ground Water Rule, this kit is to be used to collect a sample from a source well and serves as one required TG sample. TG (Triggered) sample to be collected from a source well (or a representative sample point if prior approval has been received) for systems required to conduct triggered monitoring under the Ground Water Rule. If more than one well is being used by the system, additional sampling should be done using the designated sample kits and submission forms as "TG" (triggered sample). If system is not required to do triggered sampling under the Ground Water Rule, this repeat sample must be collected within 5 service connections upstream or downstream of the original total coliform positive sample site.

Additional Routine – For public water supply systems which collect less than five routine samples a month, the system must collect a total of five routine samples the month following a routine positive total coliform sample.
Special – These samples are non-compliance samples and may be used to determine the presence of total coliform after a pressure loss, repairs, or routine maintenance.
Units – cfu/100ml – Colony Forming Units per milliliters – A unit of bacteria that will form one colony in 100 milliliters of sample.
Excessive Age – The sample was received at least 30 hours after it was collected. This test was not performed.
Insufficient Amount – The amount of samples the lab received was less than the 100 ml required to perform the test.
Improper Container – The container used to collect the sample was inappropriate for the test required.
Damage – Something damaged the sample before it could be tested. The bottle may have been broken or sample contaminated.
Insufficient Sample Information – The sample collector failed to include the laboratory request form with the sample, date of samples on the request form or the collector may have put the same lab number on multiple samples.
Excess Chlorine Interference – The results can not be determined due to excess chlorine in the sample.
Total Coliform Present – The test detected the presence of total coliform. The sample **does not** meet bacteriological standards.
Total Coliform Absent – The test did not detect the presence of any total coliform. The sample **meets** bacteriological standards.
E. Coli Present – The test detected the presence of E. Coli in the sample. The sample **does not** meet bacteriological standards.
E. Coli Absent – The test did not detect the presence of any E. Coli in the sample. The sample **meets** bacteriological standards.
0 – The test did not detect the presence of any Total Coliform or E. Coli in the sample. The sample **meets** bacteriological standards.
Any Number over 0 – The test detected Total Coliform or E. Coli present in the sample. The number indicated the total number of colony forming units present in 100 ml of the sample. The sample **does not** meet bacteriological standards.
MPN-Most Probable Number. An index of the number of bacteria that, more probably than any other number, would give the results shown by the lab examination; it is not an actual enumeration.

Re: PWS — NE3120787 - SARPY CO SID 158 - TIBURON GOLF COURSE – SARPY County – Emergency Plan of Operations (Emergency Response Plan)

Dear Mr. GUTOSKI:

This letter is to acknowledge receipt of your Emergency Plan of Operations. Based upon review of the document, it meets all requirements outlined in Title 179 NAC 22-004 item 6.

The Department thanks you for the time you spent preparing this document and for submitting it to the Department. If any changes are made to the plan following periodic reviews, please submit them to me for inclusion into the document we have on file.

Just as a reminder the Emergency Plan of Operations needs to be updated every three years, and the Emergency Phone Contact List needs to be updated annually with copies of both provided to the Department. All of this is outlined in Title 179 NAC 22-004 item 6.

If you have any questions concerning this letter or need assistance in the future, please feel free to contact me at 402/471-1007 or kristin.luebbe@nebraska.gov.

Sincerely,

Kristin L Luebbe
