Subject: Fw: About wells

Hi All - Brian Hinkle called back today (after two more callls to him) and we discussed the acquifers around here. We are to the north of the Platte River Acquifer and to the east of the Ogallala Acquifer, both of which have very good water quality. We are over the Dakota Acquifer (which actually covers up to the Arctic Circle and west to New Mexico, according to Brian.) It is mostly used for irrigation in that part of Eastern Nebraska not over the Ogallala Acquifer as the water quality is considered poor. The Dakota is deeper than the Ogallala Acquifer, which is another reason for the Ogallala to be accessed first if you are over it.

Brian said he was not an expert on the Dakota Acquifer but that in two weeks there was going to be a meeting of Eastern Nebraska NRDs to discuss water usage, well drilling, permitting, etc., which he was going to attend. He would have more information after that as he was going to find out more about the Dakota Acquifer.

I also asked him which acquifer the golf course accessed for their water. He didn't know offhand but would find out.

Right now there are no restrictions on the permitting of wells drilling into the Dakota Acquifer.

He reiterated that the NRDs do the permitting of well drilling but that the state registers the wells.

Will talk to him more after the meeting.

Please don't forward this email.

Subject: About wells

Hi All - Called the State of Nebraska Department of Natural Resources this AM and found out the following:

1. They don't approve permits for drilling wells. It is done at the Natural Resource District level.

2. There are 23 NRDs across the state of Nebraska. Apparently there is no coordination between these districts as to how many wells are permitted into the Dakota Acquifer.

3. Our NRD is the Papio Missouri River NRD (which I believe is located over in Chalco.)

4. I called over there to get an idea of how valid the Dakota Acquifer is and was referred to a Brian Hinkle. I got on his voicemail and he will (I hope) call me back. Will let you know when I find out more info, especially the coordination between NRDs as to how many wells can be drilled into the Dakota Acquifer.

5. The map I saw didn't show a really large acquifer, and the description of it said it had poor water quality, but that was for Iowa.

Re: Water Estimate for Ballena (Tiburon South)

Dear Mr. Jaeger,

It was a pleasure to talk with you concerning the water request to serve the Ballena subdivision. As discussed, we have estimated the cost to provide District water service to this subdivision. The estimated cost includes pioneering main contributions, main extensions, water meters, and capital facility charges (CFC). A detail schedule of costs is attached.

This estimate is an opinion of probable cost, and based on a 2013 installation. Ballena will be required to pay the estimated project costs prior to the District releasing the main extensions to the contractor. Upon completion of the project, the estimated costs will be adjusted to actual pricing.

We understand that Ballena has 118 residential services with each home served by a Watts PRV and a 5/8" Neptune meter with 3/4" spuds. The apartment complex is served by five - 2" Badger meters. The PRVs and Badger meters meet our minimum specifications. However the Neptune meter's radio frequency system is not compatible with our existing electronic receiver transmitter (ERT). Therefore the District will require the replacement of all Neptune meters. The minimum meter size is normally 3/4", but to minimize impact on existing plumbing, the District will install 5/8" meter with compatible ERT. Capital facilities charges will be based on the normal installation of a 3/4" meter.

The District requires stop box access to operate all distribution valves and homeowner service valves. The service stop box is owned by homeowner, and is located below grade. To meet District policy the homeowner's plumber must locate and raise all service stop boxes to grade elevation. The District will verify stop box location at the time the meter is installed.

The District is not interested in owning the water well and abandonment costs are excluded from this estimate. We have initiated our best effort for estimating the number of meters, type of materials and system flow design and condition. Additional costs may be incurred if we subsequently discover new information. My direct phone number is (402) 504-7209.

Best Regards,

Dave DeBoer

Hi Lee - I'd like to see a question as to why our meters don't meet MUD standards. Also, does the house on Lot 66 meet covenants? Tim

Subject: House on Lot 66

Hi All - I spoke to Larry Hagewood today and we discussed the house on Lot 66 and the covenants.

To recap the covenants, a two-story house must have 2000 SF above the basement level with 1200 SF on the main level.

This is a two-story house but it has 1000 SF on the main level and 1200 SF on the second level, hence the concern of some residents that it doesn't meet covenants. However, both Larry and Rick thought that it was OK to approve this design inasmuch as it had a total of 2200 SF, which is a total of 200 SF more than the required 2000 SF. Plus, the cost will be around $300,000, which is in the neighborhood of the other houses in our subdivision.

He also mentioned that our covenants are 24 years old and run out in October. (Maybe Kristi can check that before the meeting.) They would like to see the covenants renewed, and also that he and Rick stay on as the AR Committee until the villas are completed. Further reading of the covenants indicates that the AR Committee has considerable leeway on approving designs that do not completely meet the covenants.

More about the villas - they are still working with the builder to get these villas in.

I told Larry that I would bring this information to the SID Trustees at tomorrow's meeting.

Tim

Hi again.....still waiting to hear back from you, but the latest.....as you know SID 192/you just issued a warrant for $78.90 to One-Call Concepts, who I believe is the company that has taken over the contract from Great Plains One-Call. But, I'm not sure if this $78.90 is 'part' of the $161.34 still owed GP or if this is a brand new amount (first) billed by O-C Concepts. And, don't know how GP O-C and O-C Concepts are handling that 'last' invoices (any balance due) since the transition of these companies but I'm sure they still want any amount owed them and as soon as possible.

So, would you please look into this and get back to me as soon as you can.

Thanks.

Hey Kristi.....just following up to my earlier email below cuz haven't heard anything back from you. But first, yes it is S192 that owes (or did) $15.84 to Great Plains. Now just got an update from a Jill (who's last day at GP was yesterday) who was following up on outstanding invoices and is saying the 'still owe' GP. They still owe $161.34

Jill has turned directed me to contact a Pat Dukes to wrap up any outstanding invoices, but what can you tell me about this 'balance due' GP?

Let me know so we can get this taken care of asap.

Thanks.
