INDEPENDENT AUDITORS' REPORT

Board of Trustees
Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

We have audited the accompanying financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the index. These financial statements are the responsibility of the District's Trustees. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Trustees, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska, as of June 30, 2012, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The budgetary comparison information on pages 14 through 15 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The District's management has elected to omit management's discussion and analysis from the basic financial statements. The management's discussion and analysis information is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Information Required by Section 31-740, Reissue Revised Statute of Nebraska, 1998 on page 16 and District Trustees and Related Bonds on page 17 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information on pages 16 and 17 has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 15, 2012, on our consideration of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

As described in Note 2 to the financial statements, the financial statements have been restated for an error related to revenue recognition of special assessments.

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2012

1. Summary of Significant Accounting Policies

The accounting policies of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the District's significant policies.

Reporting Entity

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska (the District), was formed on April 4, 2005, is a governmental subdivision authorized under the statutes of the State of Nebraska. The District operates under an elected Board of Trustees, which governs all activities related to streets, utility systems, and other public improvements within the jurisdiction of the District. The accompanying basic financial statements present the District's primary government unit and no component units because the District does not have any component units.

The District has implemented GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASB Statement No. 34), GASB Statement 37, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus* which provides additional guidance for the implementation of GASB Statement No. 34, and GASB Statement No. 38, *Certain Financial Statement Disclosures* which changes note disclosure requirements for governmental entities.

The District implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which provides additional guidance on fund balance classifications and clarifies existing guidance on governmental fund type definitions. GASB No. 54 requires the District to identify amounts that are considered nonspendable and provides for additional classification of spendable amounts as restricted, committed, assigned, and unassigned based on the relative strength of the constraints that control how specific amounts can be spent.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide fund financial statements to the extent they do not conflict or contradict guidance of the GASB.

Basic Financial Statements

The District Government-Wide Financial Statements include a Statement of Net Assets and a Statement of Activities and Changes in Net Assets. These statements present summaries of Governmental Activities. These statements are presented on an *economic resources measurement focus* and the *accrual basis of accounting*. Accordingly, all of the District's assets and liabilities, including capital assets as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Governmental activities include programs supported primarily by taxes, special assessments and other intergovernmental revenues. The District has no business type activities that rely, to a significant extent, on fees and charges for support.

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2012

The basic financial statements provide reports on the financial condition and results of operations for the District. The District reports the two major governmental funds' financial condition and results of operations in separate columns.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the District's Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Fund Accounting

The District used funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District only used governmental funds. The following governmental funds are used by the District.

Governmental Funds

Governmental funds are those through which most general governmental functions of the District are financed. These funds are accounted for using the current financial resources measurement focus. Under this measurement focus, only current assets and liabilities are included on the balance sheets, and the operating statements present sources and uses of available financial resources during a given period. The following major governmental funds are used by the District:

- General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

- Debt Service Fund

The debt service fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs anticipated to be settled during the next fiscal year.

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2012

Basis of Accounting

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within thirty-one days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Budgets and Budgetary Accounting

The District is required to adopt an annual operating budget for all the funds over which the District controls. The budget is adopted using a cash basis of accounting which differs significantly from generally accepted accounting principles. Under the cash basis of accounting, revenues and expenditures are recorded when cash is received or paid, respectively. Payment is deemed to have been made when warrants are issued.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) In September of each year, the District submits a proposed operating budget for all funds to the real estate owners of the District.
- (2) Notice of place and time of public hearings must be published prior to the public hearings.
- (3) Public hearings are conducted to obtain taxpayer comment.
- (4) After publication and hearing, the budget is legally adopted by majority vote of the Board. The District is required to file a copy of the adopted budget with the County Clerk and the Nebraska Auditor of Public Accounts in accordance with the Nebraska Budget Act.
- (5) The budget is adopted on a per-fund basis and budgetary control is exercised at the fund level.
- (6) The Board of Trustees may authorize supplemental appropriations during the year. (No such appropriations were made during the fiscal year ended June 30, 2012.)

Investments

The District is allowed to invest funds as permitted by Nebraska Statute 77-2341, R.R.S., 1990, and allowable investments generally include U.S. government obligations, certificates of deposit, and time deposits. The District's investments during the year ended June 30, 2012, consisted of U.S. Treasury bills.

All investment activities are conducted through the County Treasurer. Treasury bills are bought and held in safekeeping by the County Treasurer in the District's name.

Investments are stated at fair value.

Notes to Basic Financial Statements

June 30, 2012

Property Taxes

Property tax revenues are recognized when a legal and enforceable claim is assessed against the property. Delinquent taxes are considered fully collectible; therefore, no allowance for uncollectible taxes is provided.

Special Assessments

Revenue on special assessments are recognized when the specials are assessed. Special assessments are considered fully collectible; therefore, no allowance for uncollectible assessments are provided.

Capital Assets

Capital assets are stated at cost in accordance with construction contracts and other costs applicable thereto. Interest accrued on warrants issued for the construction of improvements is capitalized during the period of construction. Capital assets are classified as construction in progress until construction is complete or special assessments are levied. No depreciation expense is reported for capital assets classified as construction in progress. The costs of improvements disposed and the related accumulated depreciation are eliminated from the accounts in the year of disposal. Gains or losses from property disposals are recognized in the year of disposal. Depreciation is computed using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Sanitary and Storm Sewer Systems	50
Street Improvements	20
Park Improvements	15

Deferred Revenue

The District reports unearned deferred revenue in the Governmental Fund Balance Sheet/Statement of Net Assets. Deferred and unearned revenue arises when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In general, monies received within thirty-one days after year-end are considered to have been for prior years services.

Costs of Utilities

These costs include the cost of systems for which the District does not obtain title such as electrical systems (OPPD), water distribution systems (MUD) and/or gas distribution systems (MUD). These costs are expensed as incurred.

Credit Risk

The District's credit risk relates to receivables for property taxes which are due from property owners within the boundaries of the District and cash on deposit with the Sarpy County Treasurer. The District's investments are exposed to various risks, such as interest rate, market and credit risk.

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2012

Subsequent Events

Subsequent events are events or transactions that occur after the Governmental Funds Balance Sheet/Statement of Net Assets date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through December 15, 2012. See Note 10 for description of subsequent events.

2. Prior Period Adjustment

County information received in the prior year related to a replat of the subdivision resulted in the recognition of \$465,886 in special assessment revenue. The replat did not increase the amount of special assessments to be collected, accordingly, the debt service fund balance and the District's net assets have been appropriately restated.

3. Property Taxes

Property taxes are levied in September and attached as an enforceable lien on the assessed property as of December 31. The first half payment becomes delinquent April 1 of the following year, and the second half payment becomes delinquent August 1 of the following year. The Sarpy County Treasurer bills and collects all property taxes for the District.

For 2011 - 2012, the District levied taxes at the rate of \$0.88 (\$.40 in the general fund and \$.48 in the debt service fund) per \$100 based on a property valuation of \$118,969,451.

4. Special Assessments Receivable

Special assessments in the amount cumulative of \$10,062,594 were levied against certain properties within the District in connection with the construction of improvements. The assessments are due in ten annual installments and bear interest at 7.50% per annum until delinquent and 9.50% per annum thereafter until paid.

9. Commitments and Contingencies

The District has entered into various contracts and agreements related to the construction of streets, utility systems and other public improvements as well as general maintenance and other operating expenses related to the District. These contracts and agreements will be completed in the future. All expenditures are initially funded by the issuance of warrants. Warrants mature as follows; General Fund warrants mature within 3 years of issuance and Debt Service Fund warrants mature in 5 years. Maturities of warrants payable are primarily funded by the issuance of bonds payable and cash flow generated from special assessments and annual property tax levies. Special assessments and sewer connection fees are levied on a per lot basis. The generation of property taxes is dependent upon the growth of the valuation base as lots are developed. In addition, the District's ability to issue bonds is dependent upon an acceptable level of valuation for the District. The District's ability to fund its obligations in the future is contingent upon the success of future lot sales and the development within the District.

10. Subsequent Events

On October 1, 2012, the District issued general obligation bonds totaling \$4,550,000. The bonds are due serially beginning October 1, 2013, through October 1, 2032. Interest is payable semi-annually on this issue at 1.35% to 4.15% per annum.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees

Sanitary and Improvement District No. 264 of Sarpy County, Nebraska

We have audited the accompanying financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska, as of and for the year ended June 30, 2012, which collectively comprise Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's basic financial statements and have issued our report thereon dated December 15, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above. However, as summarized below, we identified a deficiency in internal control over financial reporting that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sanitary and Improvement District No. 264 of Sarpy County, Nebraska's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed certain instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* summarized below.

Findings and Responses

Significant Deficiency Identified:

Condition

The District's management does not have the ability to prepare its financial statements and related footnotes in conformity with accounting standards generally accepted in the United States of America.

Criteria

Internal controls should be in place that provide reasonable assurance of the District's ability to report financial information reliably in accordance with generally accepted accounting principles.

Effect

The District cannot on its own, comply with regulatory requirements to prepare annual financial statements in accordance with generally accepted accounting principles.

Response

Management has determined it would not be cost-beneficial to establish a system of internal controls that would allow the District to prepare its own financial statements. Accordingly, the District engaged the audit firm to assist in the preparation of the statements in accordance with generally accepted accounting principles.

Instances of Noncompliance Identified:

Condition

The District exceeded budgeted expenditures/disbursements by approximately \$69,700.

Criteria

Internal controls should be in place that monitor the District's activities for consistency with budgeted amounts.

Effect

The District did not amend the budget to account for exceeded expenditures/disbursements.

Response

The District's activities were not consistent with budgeted amounts due to unanticipated circumstances. The Board of Trustees will monitor the District's activities in order to effectively budget in the future.

We did not audit and, accordingly, we express no opinion on the District's responses to the findings identified above.

This report is intended solely for the information and use of the Board of Trustees, management, the Nebraska Auditor of Public Accounts and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.
