INDEPENDENT AUDITORS' REPORT

Board of Trustees
Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the index.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 15 through 16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Information Required by Section 31-740, Reissue Revised Statute of Nebraska, 1998 on page 17 and District Trustees and Related Bonds on page 18 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information on pages 17 and 18 has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2013, on our consideration of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

1. Summary of Significant Accounting Policies

The accounting policies of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the District's significant policies.

Reporting Entity

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska (the District), was formed on February 8, 2006, is a governmental subdivision authorized under the statutes of the State of Nebraska. The District operates under an elected Board of Trustees which governs all activities related to streets, utility systems, and other public improvements within the jurisdiction of the District. The accompanying basic financial statements present the District's primary government unit and no component units because the District does not have any component units.

The District has implemented GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASB Statement No. 34), GASB Statement 37, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus* which provides additional guidance for the implementation of GASB Statement 34, and GASB Statement No. 38, *Certain Financial Statement Disclosures* which changes note disclosure requirements for governmental entities.

The District implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which provides additional guidance on fund balance classifications and clarifies existing guidance on governmental fund type definitions. GASB No. 54 requires the District to identify amounts that are considered nonspendable and provides for additional classification of spendable amounts as restricted, committed, assigned, and unassigned based on the relative strength of the constraints that control how specific amounts can be spent.

On July 1, 2012, the District implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* which introduced and defined deferred outflows of resources as a consumption of net assets and deferred inflows of resources as an acquisition of net assets, by the government that are applicable to a future period. On July 1, 2012, the District also implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* which establishes accounting and financial reporting standards that reclassify or recognize certain items that were previously reported as assets and liabilities as deferred outflows or inflows or current outflows or inflows of resources.

Notes to Basic Financial Statements

Basic Financial Statements

The District Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities and Changes in Net Position. These statements present summaries of Governmental Activities. These statements are presented on an *economic resources measurement focus* and the *accrual basis of accounting*. Accordingly, the accompanying Statement of Net Position presents all of the assets and deferred inflows over liabilities and deferred outflows. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. Governmental activities include programs supported primarily by taxes, special assessments and other intergovernmental revenues. The District has no fiduciary activities or business type activities that rely, to a significant extent, on fees and charges for support.

The basic financial statements provide reports on the financial condition and results of operations for the District. The District reports the two major governmental funds' financial condition and results of operations in separate columns.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires the District's Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Fund Accounting

The District used funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District only used governmental funds.

Governmental Funds

Governmental funds are those through which most general governmental functions of the District are financed. These funds are accounted for using the *current financial resources measurement focus*. Under this measurement focus, only current assets and liabilities are included on the balance sheets, and the operating statements present sources and uses of available financial resources during a given period. The following major governmental funds are used by the District:

- General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

- Debt Service Fund

The debt service fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs anticipated to be settled during the next fiscal year.

Basis of Accounting

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within thirty-one days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Net Position/Fund Balances

The governmental funds report up to five categories of fund balances as described below:

- Nonspendable Fund Balance

Nonspendable fund balances consist of amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The District had no nonspendable fund balance as of June 30, 2013.

- Restricted Fund Balance

Restricted fund balances consists of amounts that are constrained by creditors, grantors, contributors or laws and regulations of other governments, or limitations that are imposed by law through constitutional provisions or enabling legislation.

- Committed Fund Balance

Committed fund balances consist of amounts that are only to be used for specific purposes pursuant to constraints imposed by the highest level of decision making, which is the Board of Trustees. These amounts cannot be used for any other purpose unless the government removes the restrictions through resolution. The District had no committed fund balance as of June 30, 2013.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

- **Assigned Fund Balance**

Assigned fund balances consist of amounts that are constrained by the government intended to be used for a specific purpose but are neither restricted nor committed. The authority for making the assignment is not required to be the government's highest decision making authority and the nature of the actions necessary to remove or modify the assignment is not as prescriptive as it is with regards to committed fund balances. The District had no assigned fund balance as of June 30, 2013.

- **Unassigned Fund Balance**

Unassigned fund balances consist of the residual classification for the general fund.

The net position of the District is classified as follows:

- **Invested in Capital Assets, Net of Related Debt**

This category consists of capital assets net of accumulated depreciation and reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets as well as deferred outflows or inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

- **Restricted**

This category consists of noncapital assets that must be used for a particular purpose, as specified by creditors, grantors, contributors or laws and regulations external to the District. The District's restricted net position presents amounts restricted for the repayment of principal and interest on long-term debt and related costs.

- **Unrestricted**

This category consists of remaining net assets that do not meet the definitions of net position invested in capital assets, net of related debt or restricted net position as described above.

The District first applies restricted resources when an expense/expenditure is incurred for a purpose for which both restricted and unrestricted resources are available.

Budgets and Budgetary Accounting

The District is required to adopt an annual operating budget for all the funds over which the District controls. The budget is adopted using a cash basis of accounting which differs significantly from generally accepted accounting principles. Under the cash basis of accounting, revenues and expenditures are recorded when cash is received or paid, respectively. Payment is deemed to have been made when warrants are issued.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) In September of each year, the District submits a proposed operating budget for all funds to the real estate owners of the District.
- (2) Notice of place and time of public hearings must be published prior to the public hearings.
- (3) Public hearings are conducted to obtain taxpayer comment.
- (4) After publication and hearing, the budget is legally adopted by majority vote of the Board. The District is required to file a copy of the adopted budget with the County Clerk and the Nebraska Auditor of Public Accounts in accordance with the Nebraska Budget Act.
- (5) The budget is adopted on a per-fund basis and budgetary control is exercised at the fund level.
- (6) The Board of Trustees may authorize supplemental appropriations during the year. (No such appropriations were made during the year ended June 30, 2013.)

Investments

The District is allowed to invest funds as permitted by Nebraska Statute 77-2341, R.R.S., 1990, and allowable investments generally include U.S. government obligations, certificates of deposit, and time deposits. The District's investments during the year ended June 30, 2013, consisted of U.S. Treasury bills.

All investment activities are conducted through the Sarpy County Treasurer. Treasury bills are bought and held in safekeeping by the County Treasurer in the District's name.

Investments are stated at fair value.

Property Taxes

Property tax revenues are recognized when a legal and enforceable claim is assessed against the property. Delinquent taxes are considered fully collectible; therefore, no allowance for uncollectible taxes is provided.

Special Assessments

Revenue on special assessments is recognized when the specials are assessed. Special assessments are considered fully collectible; therefore no allowance for uncollectible assessments are provided.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

Capital Assets

Capital assets are stated at cost in accordance with construction contracts and other costs applicable thereto. Interest accrued on warrants issued for the construction of improvements is capitalized during the period of construction. The costs of improvements disposed and the related accumulated depreciation are eliminated from the accounts in the year of disposal. Gains or losses from property disposals are recognized in the year of disposal. Depreciation is computed using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Storm and Sanitary Sewer Systems	50
Street Improvements	20
Park Improvements	15

Deferred Revenue

The District reports unearned deferred revenue in the Statement of Net Position. Deferred and unearned revenue arises when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In general, monies received within thirty-one days after year-end are considered to have been for prior year services.

Costs of Utilities

These costs include the cost of systems for which the District does not obtain title such as electrical systems (OPPD), water distribution systems (MUD) and/or gas distribution systems (MUD). These costs are expensed as incurred.

Credit Risk

The District's credit risk relates to receivables for property taxes and special assessments which are due from property owners within the boundaries of the District and cash on deposit with the Sarpy County Treasurer. The District's investments are exposed to various risks, such as interest rate, market and credit risk.

Bond Issue Costs

The District has adopted the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Accordingly, effective July 1, 2012, all bond issue costs are recognized as an expense in the period incurred. The unamortized portion of previously capitalized bond issue costs totaling \$138,969 is included in bond issue cost expense for the year ended June 30, 2013.

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

Notes to Basic Financial Statements

June 30, 2013

Subsequent Events

Subsequent events are events or transactions that occur after the Governmental Funds Balance Sheet/Statement of Net Position date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through November 15, 2013, noting no items requiring disclosure.

2. **Property Taxes**

Property taxes are levied in September and attached as an enforceable lien on the assessed property as of December 31. The first half payment becomes delinquent April 1 of the following year, and the second half payment becomes delinquent August 1 of the following year. The Sarpy County Treasurer bills and collects all property taxes for the District.

For 2012-2013 the District levied taxes at the rate of \$0.90 (\$.31 in the general fund and \$.59 in the debt service fund) per \$100 based on a value of \$31,385,425.

3. **Special Assessments Receivable**

Special assessments in the amount of \$3,260,697 were levied against certain properties within the District in connection with the construction of improvements. The assessments are due in ten annual installments and bear interest at 7.50% per annum until delinquent and 9.50% per annum thereafter until paid.

4. **Capital Assets**

Capital assets at June 30, 2013, consist of the following:

	Costs at June 30, 2012	Additions	Deletions	Costs at June 30, 2013
Sanitary Sewer System	\$ 3,361,685	\$ -	\$ -	\$ 3,361,685

5. Warrants Payable

Warrants registered with Sarpy County accrue interest from the date of registration to the date they are called for payment.

General fund warrants are due 3 years from the date of issuance. Debt service fund warrants are due 5 years from the date of issuance.

In March 2012, the District received permission from the local court to extend the maturity dates of approximately \$3,605,000 in debt service fund warrants for an additional three years from their original maturity dates.

The following is a summary of warrant transactions during the year ended June 30, 2013:

	General Fund	Debt Service Fund
Balance, June 30, 2012	\$ -	\$ 3,857,437

8. Commitments and Contingencies

The District has entered into various contracts and agreements related to the construction of streets, utility systems and other public improvements as well as general maintenance and other operating expenses related to the District. These contracts and agreements will be completed in the future. All expenditures are initially funded by the issuance of warrants. Warrants mature as follows; General Fund warrants mature within 3 years of issuance and Debt Service Fund warrants mature in 5 years. Maturities of warrants payable are primarily funded by the issuance of bonds payable and cash flow generated from special assessments and annual property tax levies. Special assessments and sewer connection fees are levied on a per lot basis. The generation of property taxes is depended upon the growth of the valuation base as lots are developed. In addition, the District's ability to issue bonds is dependent upon an acceptable level of valuation of the District. The District's ability to fund its obligations in the future is contingent upon the success of future lot sales and the development within the District.

Warrant Maturity Date Extensions

In previous years, the District had difficulties paying warrant principal and interest as warrants mature due to the lack of property valuation and special assessment collection. In March 2012, the District received permission from the local court to extend the maturity dates of approximately \$3,605,000 in debt service fund warrants for an additional three years from their original maturity dates.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees

Sanitary and Improvement District No. 276 of Sarpy County, Nebraska

We have audited the accompanying financial statements of the governmental activities and each major fund of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska, as of and for the year ended June 30, 2013, which collectively comprise Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's basic financial statements and have issued our report thereon dated November 15, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above. However, as summarized below, we identified a deficiency in internal control over financial reporting that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sanitary and Improvement District No. 276 of Sarpy County, Nebraska's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* summarized below.

Findings and Responses

Significant Deficiency Identified:

Criteria

Internal controls should be in place that provide reasonable assurance of the District's ability to report financial information reliably in accordance with accounting principles generally accepted in the United States of America.

Condition

The District's management does not have the ability to prepare its financial statements and related footnotes in conformity with accounting principles generally accepted in the United States of America.

Cause

The District has a limited number of administrative personnel available to prepare the financial statements and related footnotes in accordance with accounting principles generally accepted in the United States of America.

Effect

The District cannot on its own, comply with regulatory requirements to prepare annual financial statements in accordance with accounting principles generally accepted in the United States of America.

Recommendation

We recommend the District have a heightened awareness of the required oversight and monitoring of the transactions being reported.

Response

Management has determined it would not be cost-beneficial to establish a system of internal controls that would allow the District to prepare its own financial statements. Accordingly, the District engaged the audit firm to assist in the preparation of the statements in accordance with accounting principles generally accepted in the United States of America. The Board of Trustees will oversee and monitor the transactions being reported.

Instances of Noncompliance Identified:

Criteria

Internal controls should be in place that monitor the District's activities for consistency with budgeted amounts.

Condition

The District exceeded budgeted expenditures/expenses by approximately \$43,600.

Cause

Due to unanticipated events that occurred subsequent to the adoption of the budget, the District exceeded the budgeted amount of expenditures/expenses.

Effect

The District did not amend the budget to account for the exceeded expenditures/expenses.

Recommendation

We recommend the Board of Trustees monitor the District's activities for consistency with budgeted amounts.

Response

The District's activities were not consistent with budgeted amounts due to unanticipated circumstances.
The Board of Trustees will monitor the District's activities in order to effectively budget in the future.

We did not audit and, accordingly, we express no opinion on the District's responses to the findings identified above.

This report is intended solely for the information and use of the Board of Trustees, management, the Nebraska Auditor of Public Accounts and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.
