Re: X-Ray Machine Bids

I have reviewed the bids on the X-Ray Machine with you and Court Services. I feel that we should reject all of the bids. If we then go with New York State HIRE contract pricing it would be to our advantage. This contract offers us better pricing and we can obtain a better quality x-ray machine. In doing so we can obtain better maintenance service pricing for at least for five years after the warranty period expires.

If you have any questions please contact me at your convenience.

Respectfully

Capt. Dan Williamson

From: Beth Cunard
Re: Rejection of Bids for Security Screening X-Ray Machine

On July 30, 2009 the Purchasing Department received and opened eight (8) bids for the Security Screening X-Ray Machine for Court Services. The bids have been reviewed and it is recommended that all bids be rejected.

Sarpy County will purchase the Smiths Detection HI-SCAN 6040ds x-ray machine from the Hazardous Incident Response Equipment (HIRE) Contract, which is part of the National Association of State Procurement Officials. This Contract is similar to the Federal General Services Administration (GSA) contract. Nebraska State Statutes state that competitive bids are not required when purchasing items from cooperative purchase agreements. The HIRE contract is a cooperative purchase agreement. Furthermore, the x-ray machine on the contract is the same make and model as one bid at a lower price, due to reduced shipping costs.

If you have any questions, please feel free to call me at 593-4476.
