Our review indicates that the plans and specifications for the referenced sediment basin work will, if followed, provide a removal in accordance with the minimum standards and regulations set forth in the Zoning and Subdivision regulations adopted on April 13, 2010 by the Sarpy County Board of Commissioners.

The plans will be filed as a permanent record of the project by this office. If the Board members wish to personally review the subject plans and specifications, we will be pleased to furnish them upon request.

It is therefore recommended that the referenced plans be approved as submitted to this department.
