WHEREAS, County is desirous of contracting for Systems Furniture for the Sarpy County Law Enforcement Center; and,

WHEREAS, the Vendor has been awarded this Agreement as a result of the bid made by Vendor in response to the Specifications and Request for Proposals prepared by County;

NOW, THEREFORE, for and in consideration of the declarations and mutual promises and covenants contained herein, the County and Vendor agree as follows:

I. DUTIES OF VENDOR:

- A. Services to be rendered by Vendor under this Agreement shall be all those services necessary and proper for the installation and materials for Systems Furniture in conformity with each and every term, condition, specification, and requirement of the Bid Specifications and the Bid submitted by the Vendor.
- B. All provisions of each document and item referred to in Paragraph A above shall be strictly complied with the same as if rewritten herein, and in the event of conflict among the provisions of said documents, the provisions most favorable to the County shall govern.
- C. Prior to the commencement of any work, Vendor will place on file with the Sarpy County Clerk, the required certificates of insurance, if applicable.
- D. The Vendor agrees to comply with the residency verification requirements of Neb. Rev. Stat. §4-108 through §4-114. The Vendor is required and hereby agrees to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska. A federal immigration verification system means the electronic verification of the work authorization program authorized by the Illegal Immigration Reform and immigrant Responsibility Act of 1996, 8 U.S.C. 1324a, known as the E-Verify Program, or an equivalent federal program designated by the United States Department of Homeland Security or other federal agency authorized to verify the work eligibility status of a newly hired employee.

If the Vendor is an individual or sole proprietorship, the following applies:

- 1. The Vendor must complete the United States Citizenship Attestation Form, available on the Department of Administrative Services website at

www.das.state.ne.us.

- E. Vendor will submit an invoice to County for work completed based on the amounts specified in Vendor's bid. Such invoices shall be submitted to:

Beth Cunard
Sarpy County Purchasing
1210 Golden Gate Drive
Papillion, NE 68046

- F. The County and Vendor hereto specifically acknowledge, stipulate and agree that each and every term of the Bid Specifications and the Vendor's bid constitutes an essential term of this Agreement, and that, therefore, any violation of any term, condition, provision, or requirement constitutes a material breach hereunder, for which County shall have every right under the law to terminate this Agreement, and obtain any and all relief necessary.

II. DUTIES OF COUNTY:

In return for full, faithful and diligent rendering of services set forth above, County agrees to pay to Vendor the amount specified in Vendor's bid upon submission of the required invoice and satisfactory completion of all required work.

III. BREACH:

Should Vendor breach, violate, or abrogate any term, condition, clause or provision of this agreement, the County shall notify Vendor in writing that such an action has occurred. If satisfactory provision does not occur within ten (10) days from such written notice, the County may, at its option, terminate this agreement and obtain an alternate provider to provide all required materials. This provision shall not preclude the pursuit of other remedies for breach of contract as allowed by law.

SAVINGS CLAUSE:

This Agreement shall be interpreted, construed and enforced under the laws of the State of Nebraska. It is understood and agreed by the County and Vendor hereto that if any part, term, condition, or provision of this Agreement is held to be illegal or in conflict with any law of the State of Nebraska or of the United States, the validity of the remaining parts, terms, conditions, or provisions shall not be affected, and the rights and obligations of the County and Vendor shall be construed and enforced as if the Agreement did not contain the particular part, term, condition, or provision held to be invalid.

Sarpy County LEC Systems bid

December 9, 2010

Exceptions/Clarifications/Comments

- 1.) For the purposes of cost savings to the county, and to lower the risk of damage of the product due to double-handling, the installation bid reflects shipping to the site, offloading and installing.
- 2.) In keeping with the bid documents, we have drawn two 8' workstations along the wall shared by office #1230 in Investigations. However, the workstations, as shown on our drawing, will extend past the wall and into the aisleway. There will be a cost savings if these workstations are reduced to 7'6" each. Also, in this case, wall-mounting, instead of panel mounting the workstations will result in further cost savings.
- 3.) Information regarding accessories available, and their cost, can be found under the Product Literature tab.

ABOUT AOI

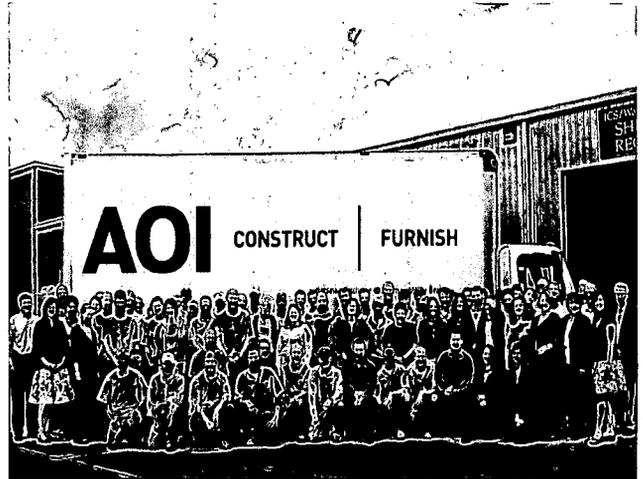

HISTORY

The AOI Furniture Group has been providing furniture installation and move services to major corporations in Nebraska and a 14 state area for 25 years. In 1998, we were invited to become a Herman Miller dealer for the Lincoln and Omaha areas. In response to this call and our clients' needs, we have assembled a highly qualified and experienced team of sales, design and project management professionals to lead us in this initiative.

Well capitalized and financially stable, the company maintains a steady growth in size and clients, all without advertising. With over \$50 million in revenue, most projects are repeat business or by referral from a long list of clients which include many of the country's largest and most prestigious corporations. AOI is a Sarpy County business and a member of the Sarpy County Chamber of Commerce.

AOI's GOAL

It is AOI's goal to deliver the best quality services in the industry. Our organization is committed to rapid response customer service and process improvement. We seek a true win-win partnership, which satisfies the expectations and needs of each partner. We are about building long term relationships.

"We provide a team comprised of individuals possessing integrity, character, dedication and a belief in doing the right things for the right reasons, the right way. Our goal is not just to work on this project, but at the "end of the day", to be your supplier of choice. When, at the completion of the project, you can say that we made your job easy – we've accomplished our objective."

Mick Jensen, Owner

"CAN-DO" PHILOSOPHY

We have leveraged our 25 years of installation and move experience to incorporate a "can-do" philosophy and total project approach, dedicated to providing our clients with the highest quality service in the industry. To affirm our commitment to our two major markets we established showrooms in both Lincoln and Omaha. This provides our clients with personal service centers to meet existing and

future furniture needs. Through this and our team, Sarpy County is assured that all phases of its project will be handled with the priority, detail and expertise required to exceed expectations.

QUALIFIED SERVICE PROVIDER

Our resume of providing certified services to corporate clients is illustrated in our selection by Herman Miller as a member of its **Affiliated Dealer Network**, one of 58 dealers nationwide to be so recognized. Based on our exemplary service record, we are also the **ServiceNet™ Qualified Service Provider** for Nebraska, having met the rigorous service standards set forth by Herman Miller.

Our combined, cumulative experience in project management, installation and customer service provides the experience and expertise to ensure your projects success!

ABOUT AOI (continued)

WORKING TOGETHER

QUALIFIED SERVICE PROVIDER (continued)

Though this recognition sets us apart from other dealers, a more important measurement of our commitment to quality service are the long-term relationships with other corporations such as West Corporation, Lincoln Financial Group, Wells Fargo, First National Bank, Union Pacific, ConAgra and Mutual of Omaha.

INSTALLATION PERSONNEL

Our project approach includes installation personnel input in the earliest stages of planning to circumvent logistics and scheduling problems later on. A lead installer will be selected to oversee all aspects of Sarpy County Law Enforcement Center's installation, planning and facilitation. Our field installers have the experience and autonomy required to solve problems as they arise and they will exercise judgment in the best interest of Sarpy County.

Our installation personnel are AOI employees. In addition to our regular team of installers, we have the benefit of our own carpenters and apprentices who each have furniture installation experience. When schedules necessitate additional forces, the crew we bring in is our own, with a vested interest in the success of the project.

25 YEAR RELATIONSHIP

AOI's 25-year relationship with Herman Miller and the depth of experience and commitment within our project management and installation teams offers Sarpy County Law Enforcement Center a complete, capable and focused approach and implementation on this project. Our commitment to the project and to the process is without equal.

ADDITIONAL SERVICES:

Sales

AOI is the exclusive Herman Miller Dealership for Nebraska. In addition to our Herman Miller line we represent 200 other product lines from various manufacturers.

Our seasoned and responsive sales representatives act as a single point of contact for your company, simplifying communication and expediting the buying process. Their role at AOI is twofold: to work closely with you in order to deliver the right solutions for your company and to service you after the sale. As expert project managers they are invaluable when it comes to facilitating the entire process.

Asset Inventory Management

AOI offers a comprehensive long term storage and asset management program that protects your furniture investment by helping you achieve better asset utilization, elimination of obsolete inventory, reduction of inventory and lower storage space costs.

By utilizing a software package designed by Herman Miller specifically for asset control. AIM (Asset Inventory Management) helps our customers with strategic asset planning, asset procurement, optimization of asset utilization, and determining asset relocation, replacement, or disposal.

Service

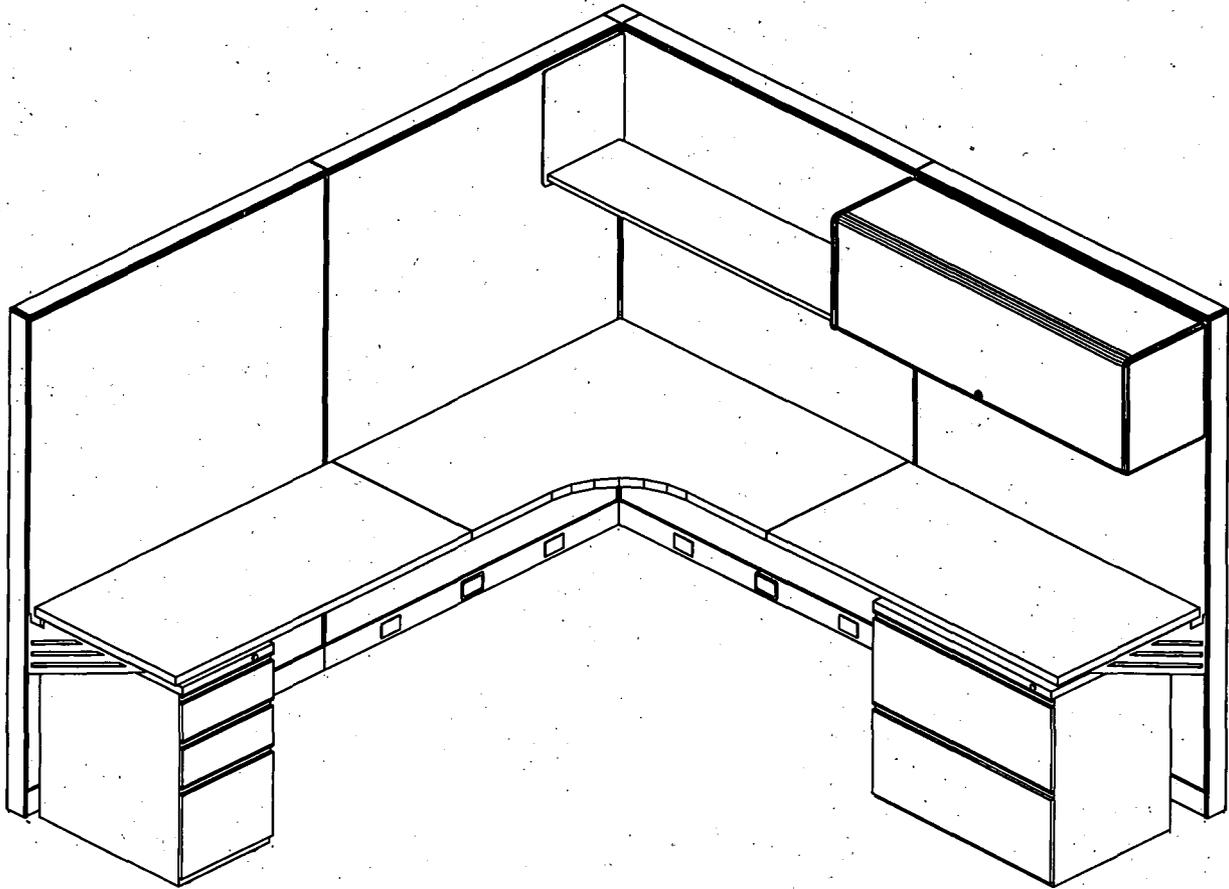

Should the need ever arise, AOI will service your products directly with our fulltime, in-house service and repair team. With Herman Miller's unmatched warranty future service expense is eliminated. Rapid response and the best warranty in the industry means less employee disruption and the lowest total cost of ownership for your company.

Warehousing

With over 18,000 combined square feet of warehouse space, AOI is ready to receive new product or professionally store your excess assets. We also provide AOI employees to manage your existing products within your existing facility. Our employees can report to your warehouse daily or simply manage your in/out activities, which ever is most efficient for your organization.

Leasing

For some companies leasing is one of the most cost-effective strategies for acquiring a complete office interior. In order to make your acquisition easy to afford and your allocations easier to manage, our AOI account managers can work with you and our leasing agents to custom-tailor a lease to cover your furniture purchases or the entire cost of your office equipment, services and interiors.

Choices for Expression

A thin profile and clean lines give Vivo a progressive look that complements its precise alignment and fit. Choices, such as furniture-style glides and touches of veneer, bring a fresh, refined appearance to the office.

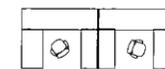

In these offices, the traditional appearance of veneer combines with the progressive look of furniture-style glides.

This arrangement features fabric tiles in Savannah/Pearl; trim, sliding door units, and Tu lateral file fronts with Q pull in Light Brown Walnut veneer; lateral file case, sliding door unit cases, work surfaces, supports, and lateral file cases in White; Aeron chairs with Zinc Pellicle.

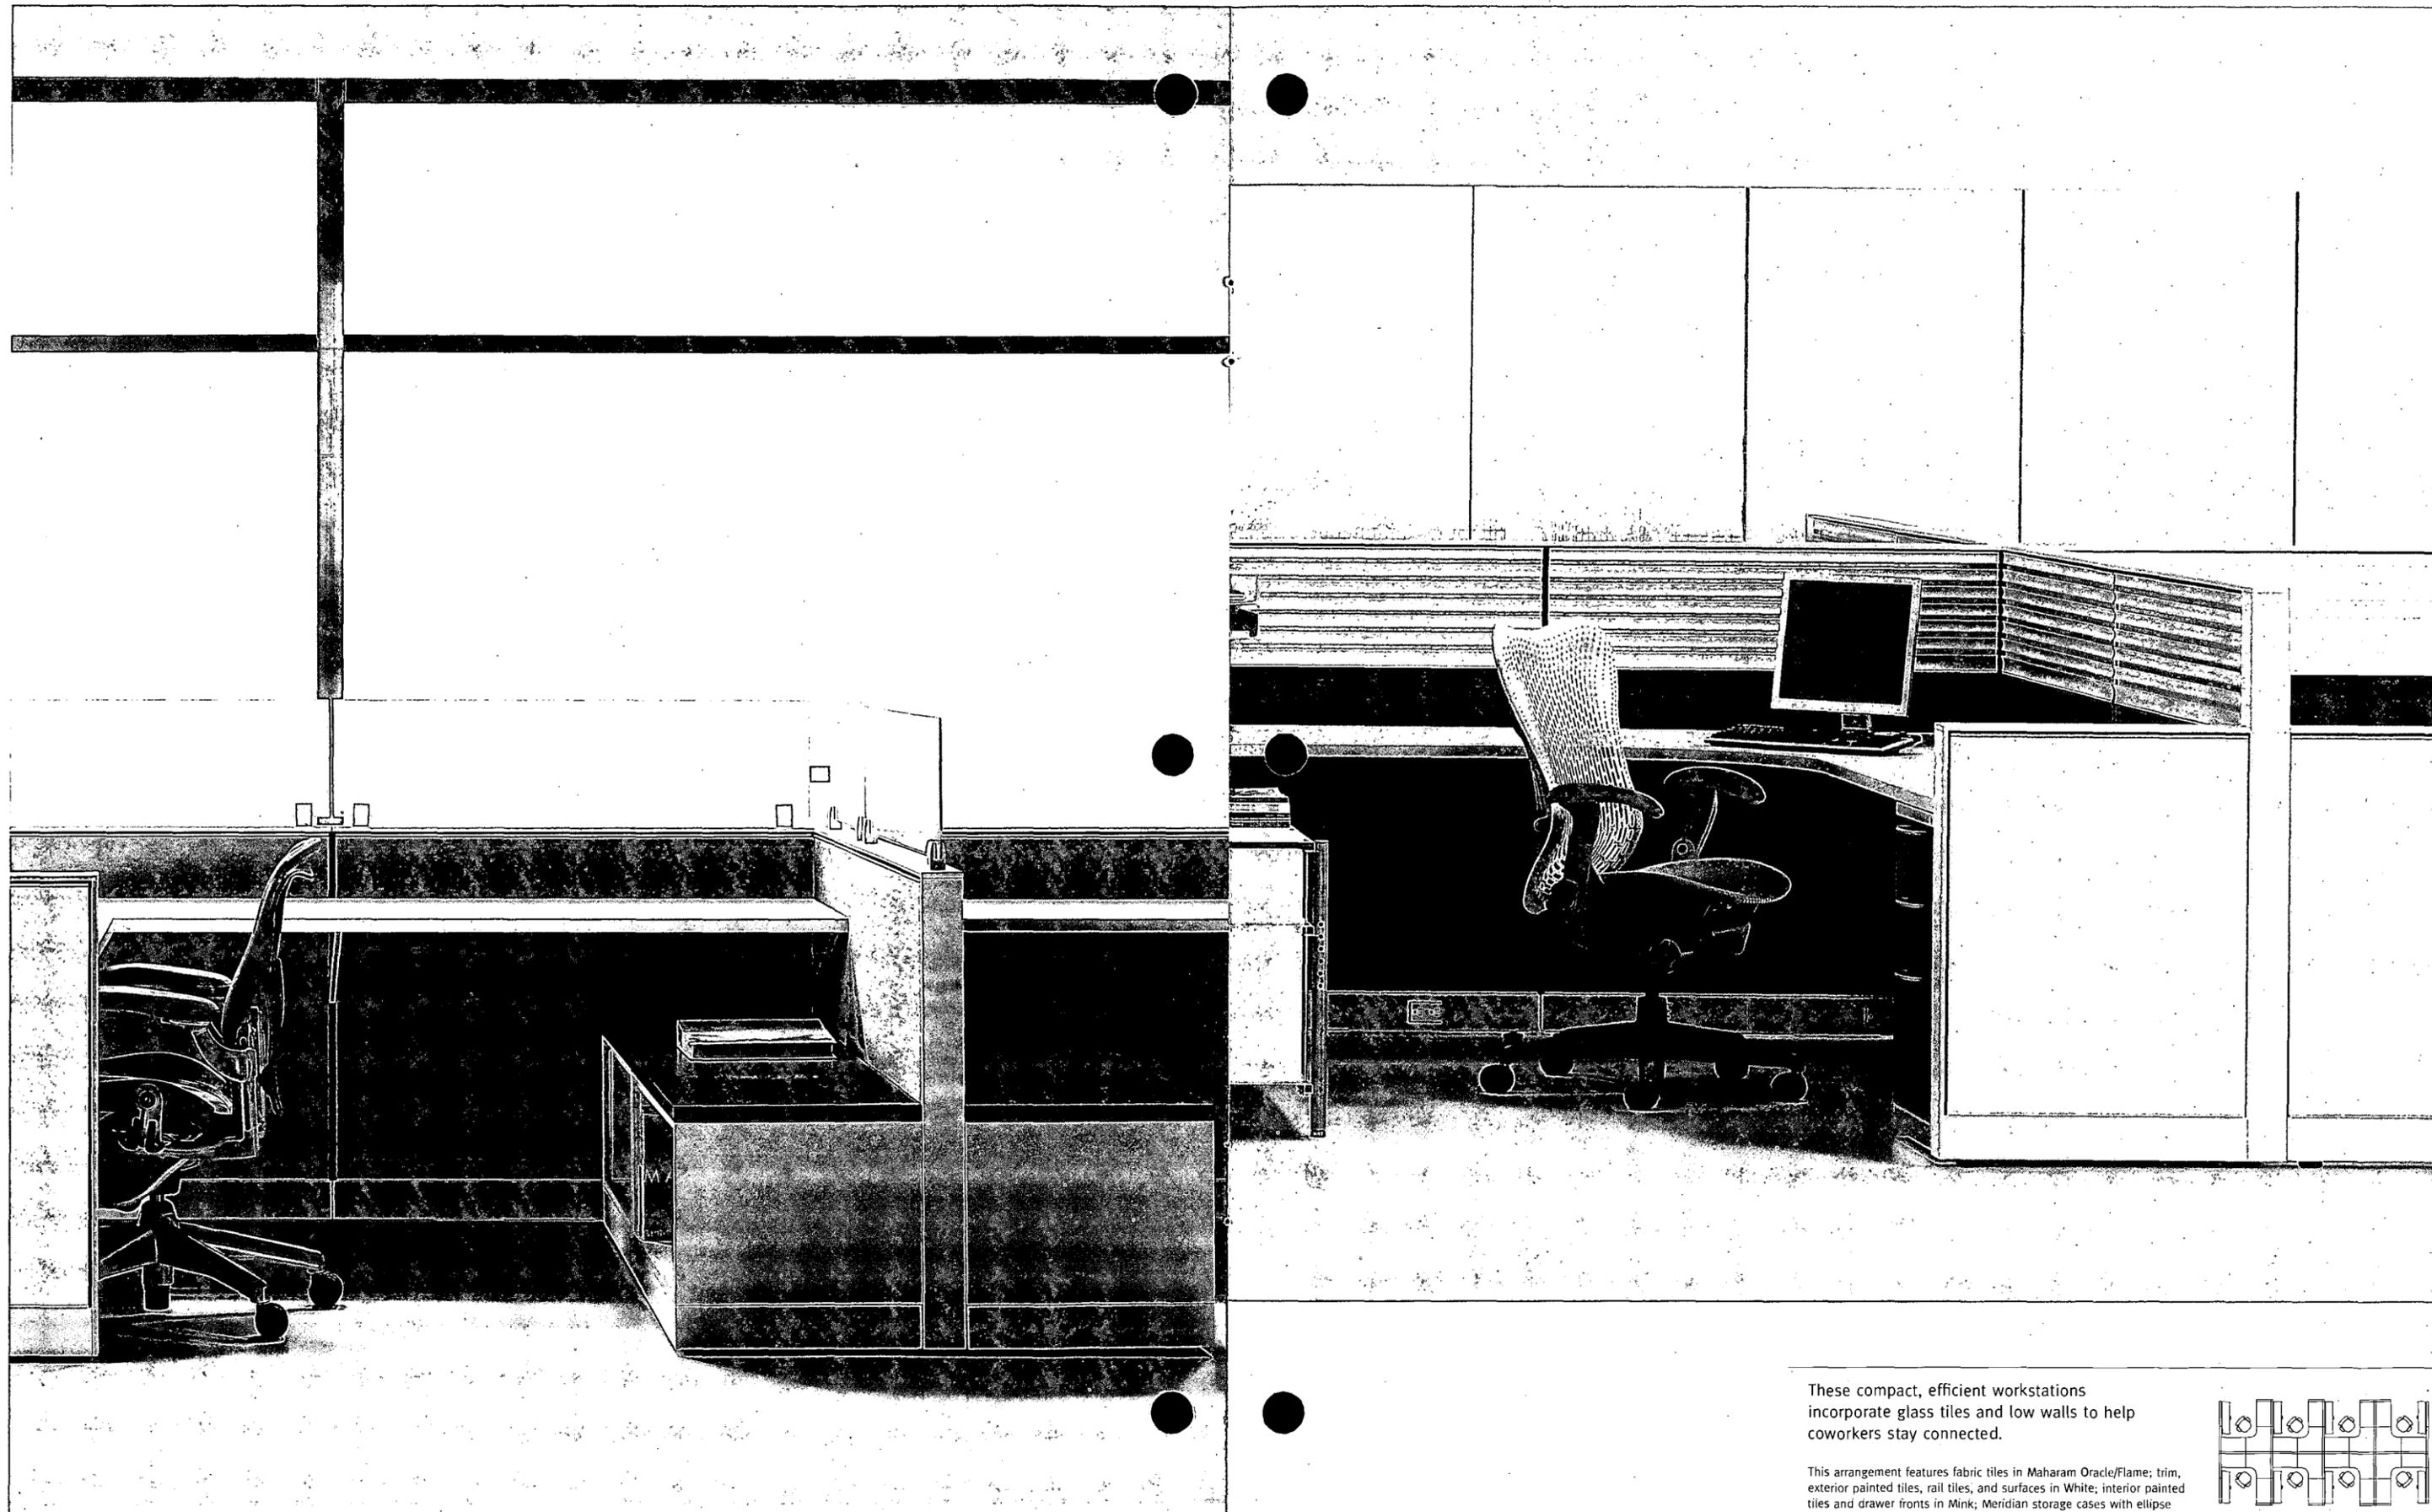

Support for Change

Vivo performs and adapts. When it's time for change, either micro or macro, Vivo makes it easy, and right. As a result, workers get just what they need—now and when needs change.

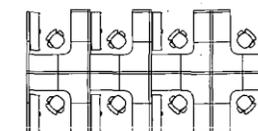

The upmount screens in these workstations add visual interest by maintaining open views and letting in light.

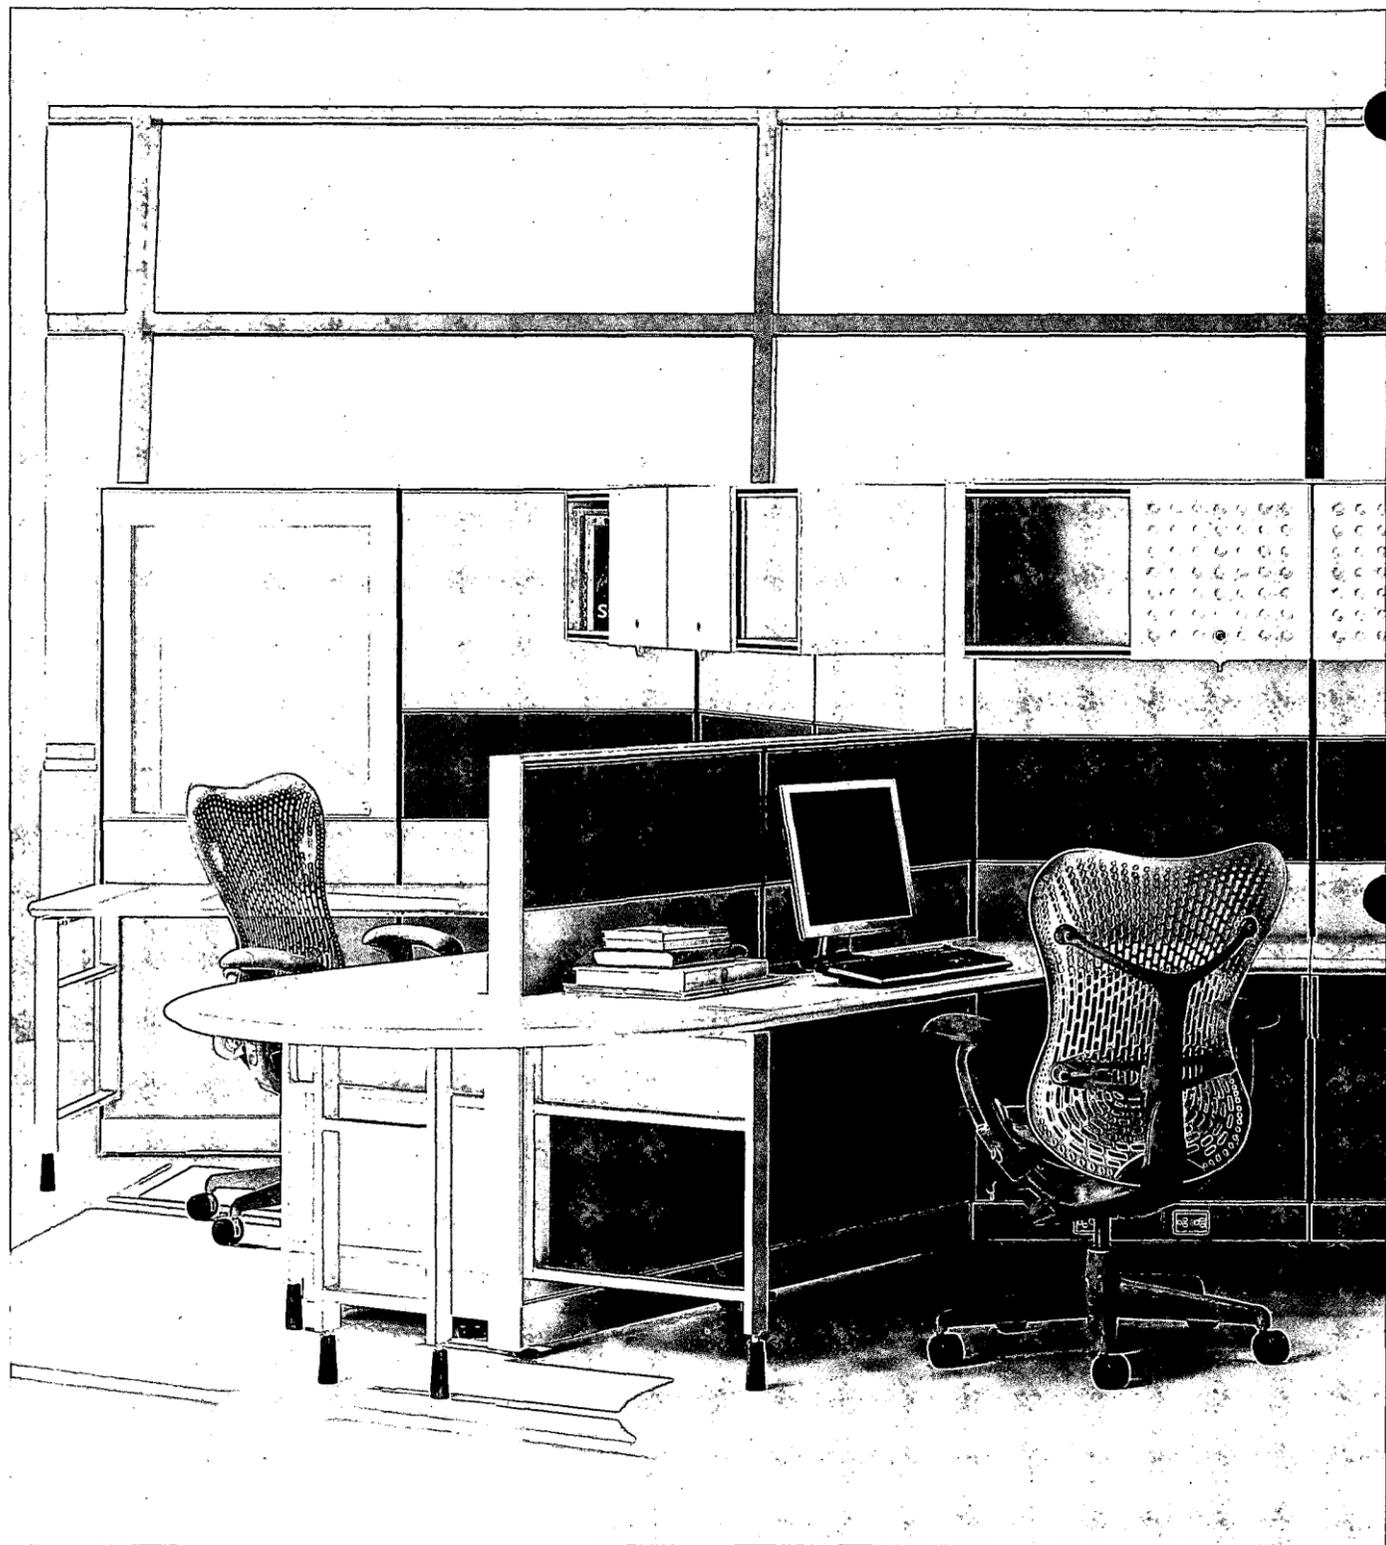

This arrangement features interior fabric tiles in Savannah/Moss, exterior fabric tiles in Savannah/Pearl; trim, work surfaces, Tu pedestals with W pull, and Meridian storage cases in White; storage case tops in Aged Cherry veneer; upmount screen in Opal Glaze glass; Aeron chairs with Zinc Pellicle.

These compact, efficient workstations incorporate glass tiles and low walls to help coworkers stay connected.

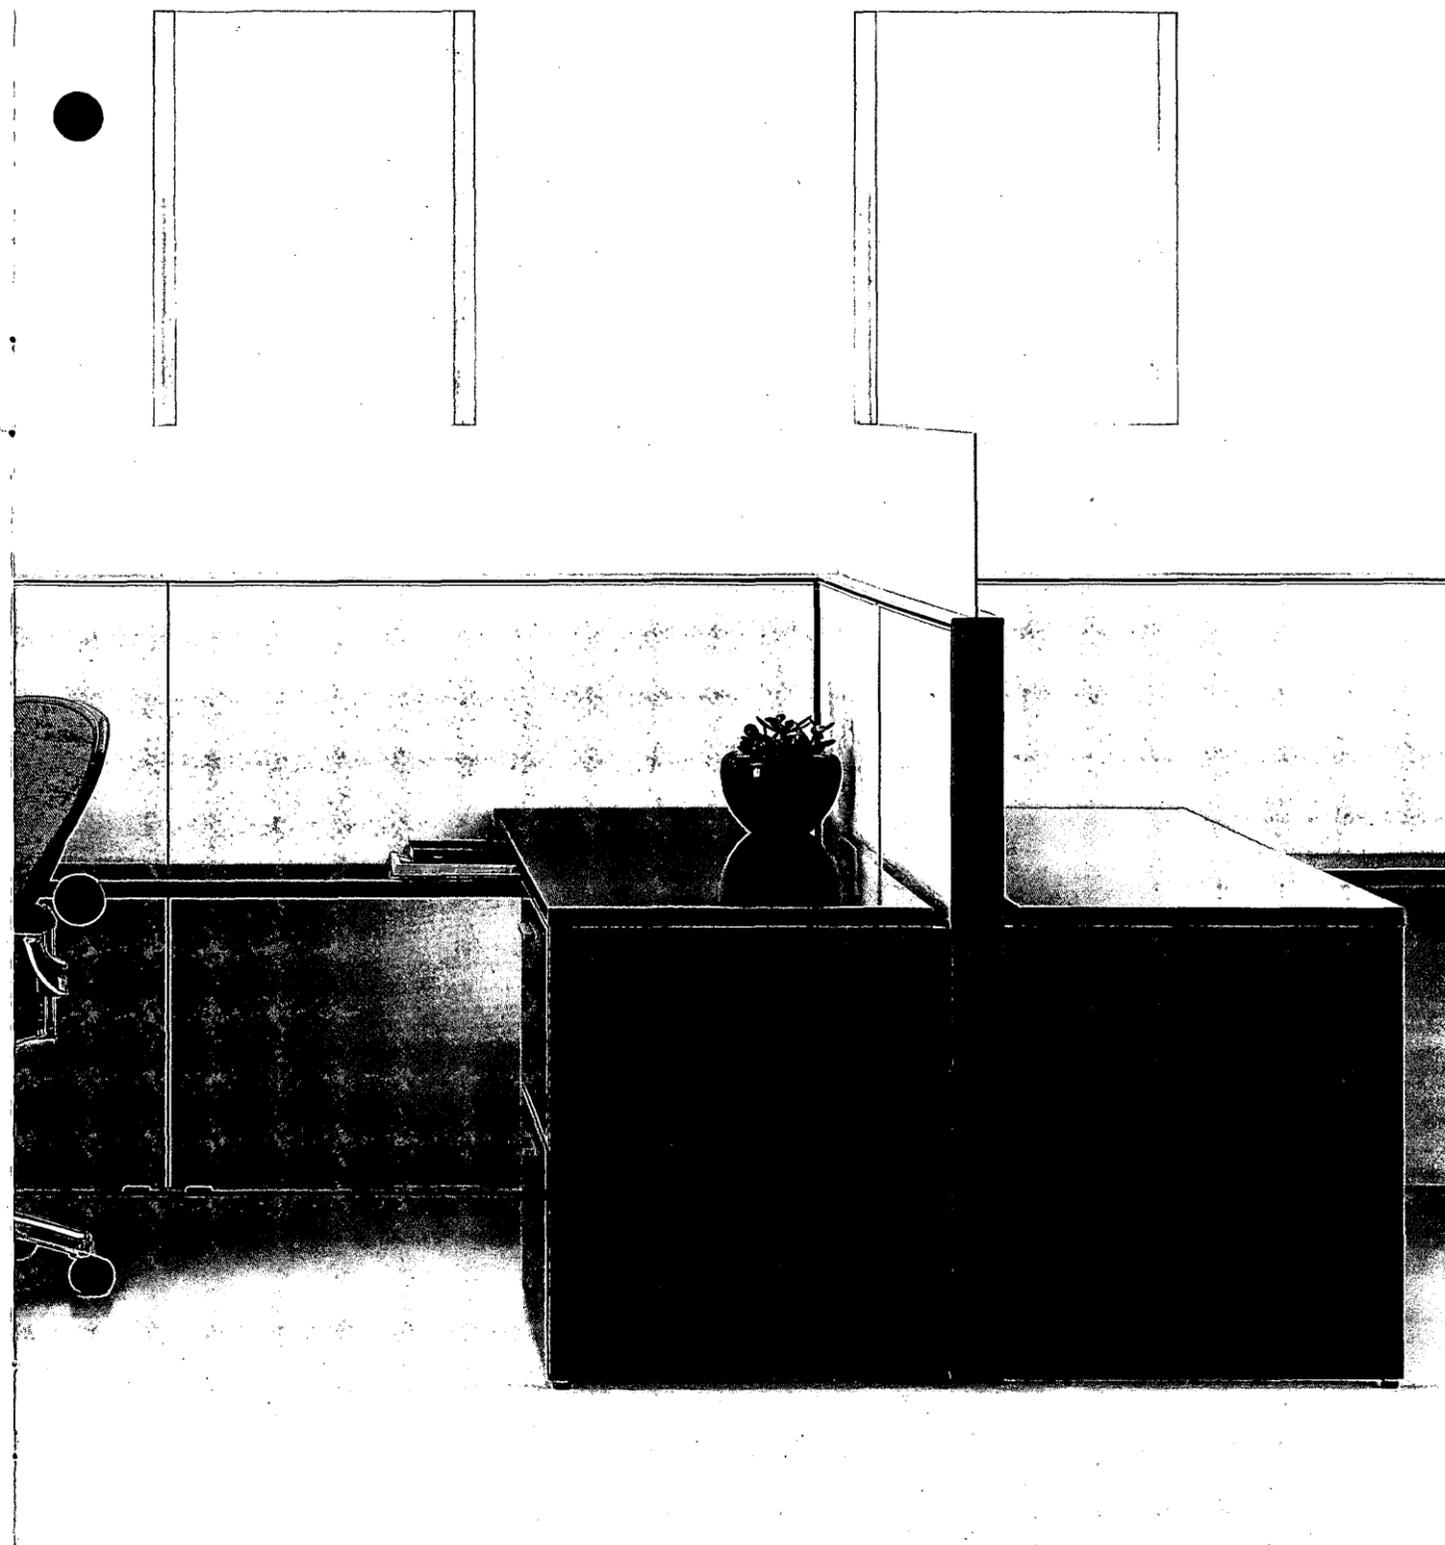

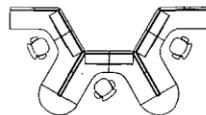

This arrangement features fabric tiles in Maharam Oracle/Flame; trim, exterior painted tiles, rail tiles, and surfaces in White; interior painted tiles and drawer fronts in Mink; Meridian storage cases with ellipse pull in White; Mirra chairs with AirWeave seats and backs in Alpine.

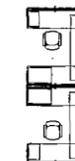

The inviting, 120-degree angle of these work areas creates efficient spaces with an open feel.

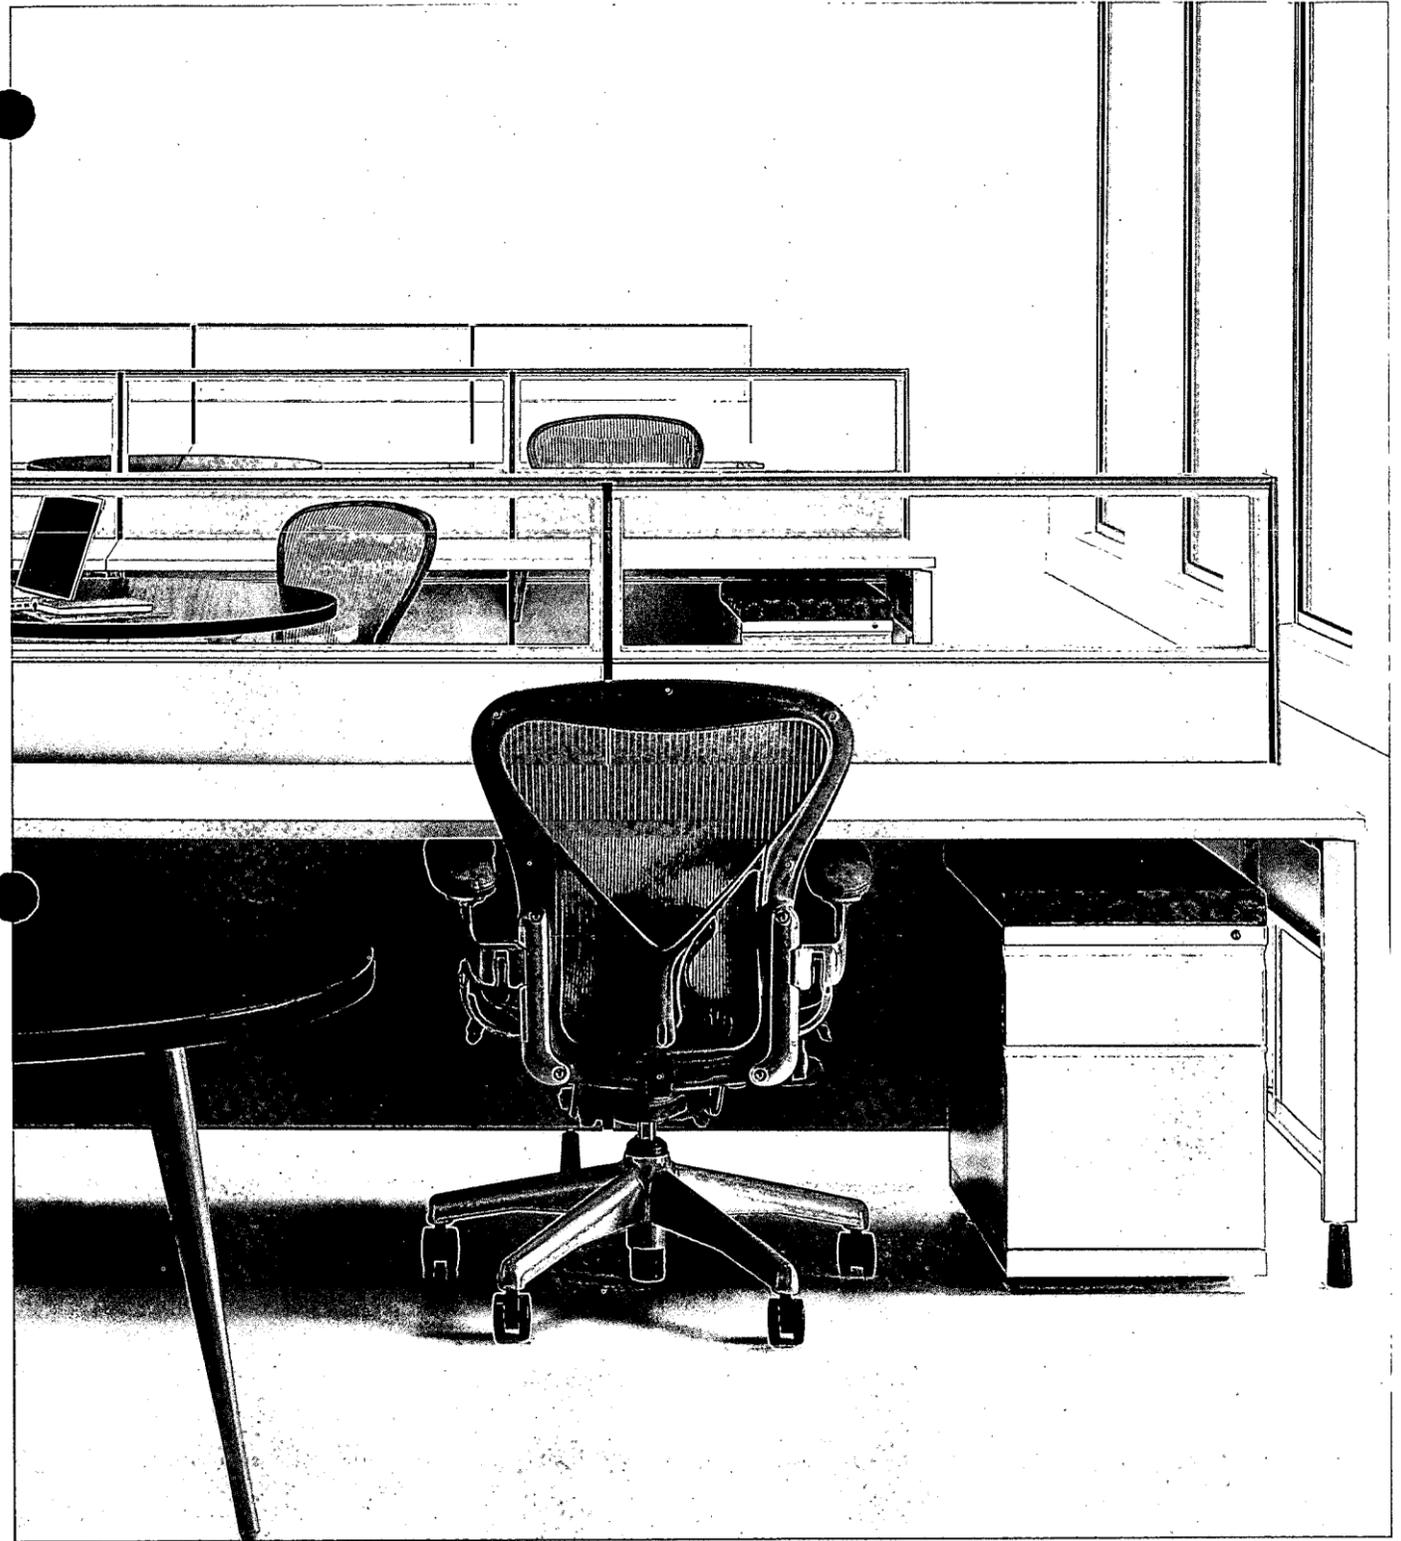

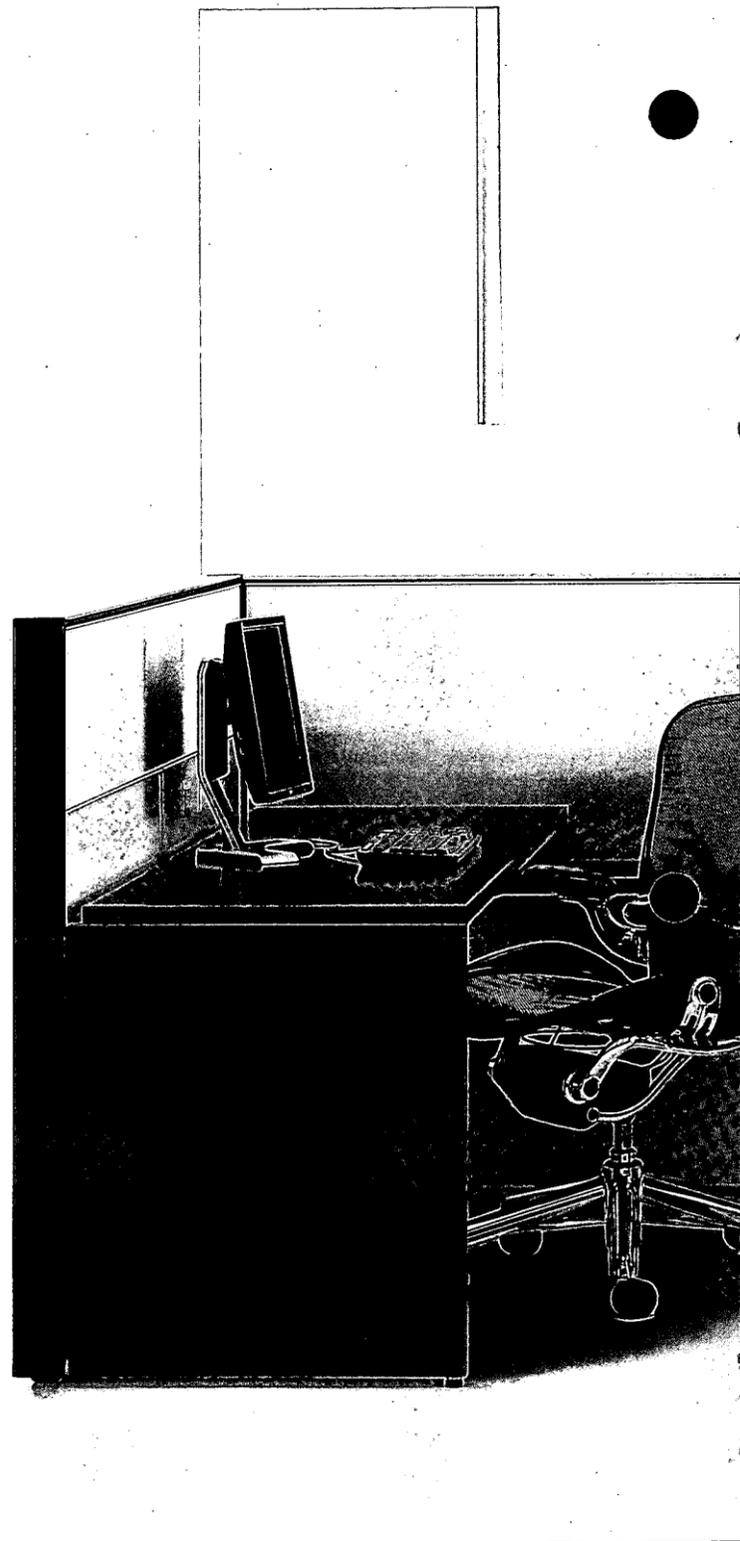

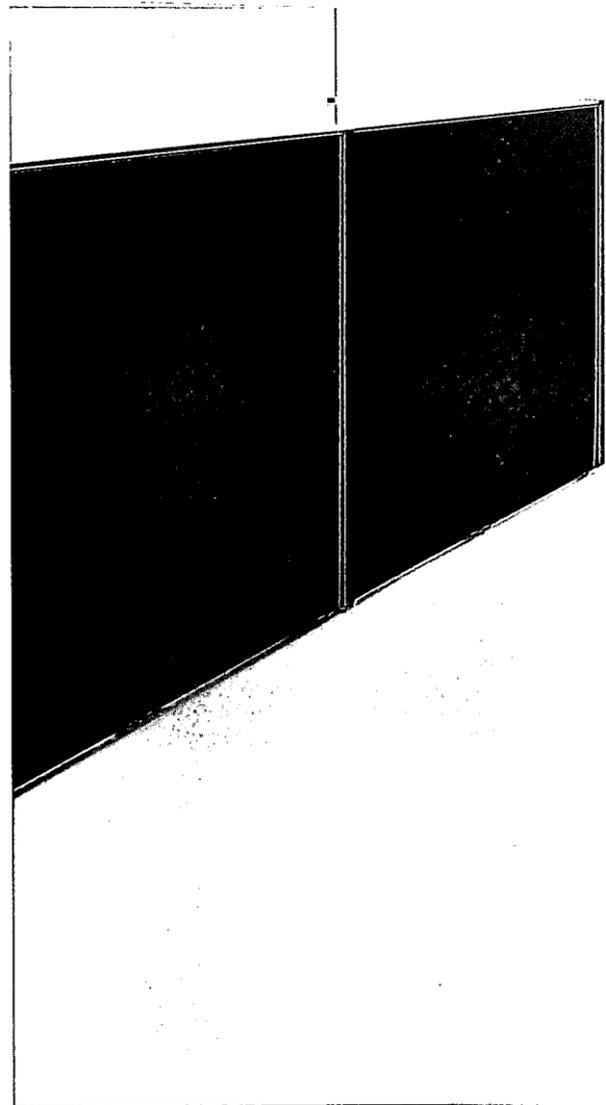

This arrangement features fabric tiles in Resonance/Sugar and accent fabric tiles in Resonance/Bud; trim, supports, sliding door storage unit with debossed doors, open support inserts, contoured edge surfaces, and Tu mobile pedestal in White; Mirra chairs with AirWeave seats and backs in Alpine.

These workstations reflect the arrangement of a traditional office, with primary and secondary surfaces and a bridge that joins them.

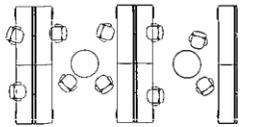

This arrangement features fabric tiles in Savannah/Pearl; trim in White; exterior tiles, trim, surfaces, and Intent™ lateral file fronts with K pull in Light Brown Walnut veneer; frame top screens in Opal Glaze; Aeron chair with Pellicle Waves Carbon.

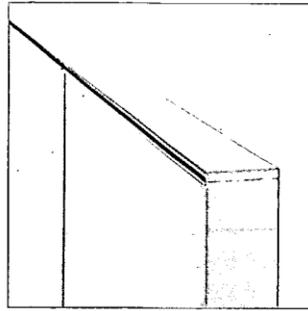

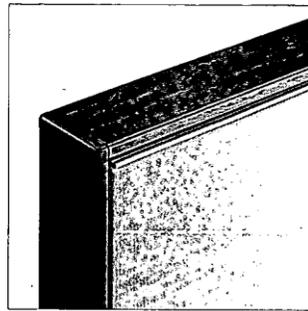

These spaces, with their low walls, furniture-style glides, and open returns, show how Vivo can support linear planning.

Make plans to stay at a Hyatt and chances are you'll speak with a call center agent in the company's Omaha reservation center. Home to some 600 agents, the facility fields calls from guests seeking comfort, style, and premium appointments.

Until a recent renovation, however, the reservation center itself lacked those attributes, appointed as it was in a style best characterized as dark, dated, and dreary. And with no other Hyatt hotel in Omaha, many agents had no other frame of reference for the Hyatt brand.

"We feel our building should convey the Hyatt brand to our associates," says Chris Hale, vice president of call centers for Hyatt Hotels and Resorts. "But after 18 years of being in the same facility, it was time for a little refreshing."

Upping the urgency was Omaha's evolution into a call center capital. With plenty of nearby call centers competing for hard-to-find agents, Hyatt could ill afford to let its people grow disenchanting with their work environment.

"Retention and morale were right near the top of Hyatt's wish list," says Janet Schawang, an account manager with AOI Corporation, a Herman Miller dealer in Omaha. "They wanted to create a space that would be inviting to employees."

And while you're at it, Hyatt requested, let's aim for more natural light, less clutter, and better collaboration areas, too.

MULTIPLE SYSTEMS

Hyatt and AOI had worked together for a few years, long enough for the hotelier to buy hundreds of Aeron chairs for its Omaha reservation center. The highly adjustable Aeron was the best option, Hyatt reasoned, because skimping on comfort was a poor one. After all, agents with sore backs can hardly be expected to exhibit a perennially positive attitude.

Now, however, Hyatt was interested in something more—a complete remodel. Hyatt stressed that it didn't necessarily need to find the one systems workstation that would be

satisfactory for all applications within its two-story reservation center. Instead, it wanted the best system for each job—and if that meant ending up with multiple products, so be it.

And so it was. The workhorse of Hyatt's redesigned space is Vivo interiors, an economical frame-and-tile system that's used for all call center stations on the second floor, as well as several private offices on the first.

To improve acoustical privacy, the frames on the call center stations are a bit taller than they had been before the remodel. Even so, the call center feels roomier than ever because translucent tiles rim the top of each Vivo workstation, allowing in light from perimeter windows.

AOI planners brightened the space even more by placing two dozen supervisors in Resolve stations adjacent to the windows. Built from poles with screens attached at 120 degrees, Resolve produces open, inviting workstations that encourage interaction and allow light to flow through. Hyatt even reinforced its brand image among call center agents by printing the Hyatt logo on Resolve screens.

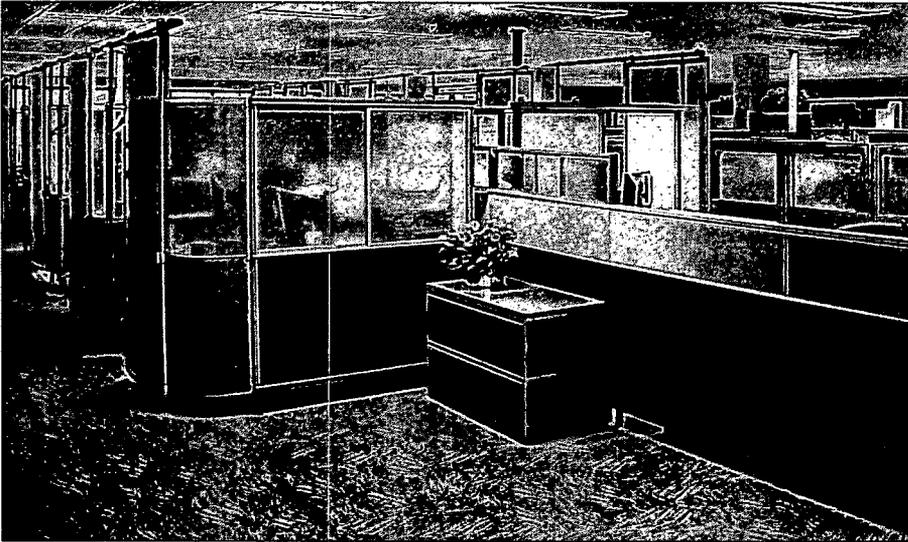

Elsewhere on the call center floor, a large Ethospace frame-and-tile system serves as a command center for monitoring call volume and supporting agents. Meanwhile, on the administrative floor below, supervisors who had toiled in fixed-wall offices are now more accessible in My Studio Environments, a compact wall-based system that allows workers to control their privacy.

OF COLLABORATION AND CLUTTER

Hyatt supplemented its Aeron seating with Celle work chairs in conference rooms and Caper side chairs in My Studio workstations. Private offices use Sleek executive chairs from First Office, a Herman Miller alliance partner.

Bretford, another alliance partner, supplied the tables for Hyatt's conference rooms, while informal meeting areas have Kotatsu work tables. Part of Herman Miller's Intersect portfolio, the low-slung Kotatsu table supports collaboration with an integrated shelf for meeting materials.

Further supporting collaborative comfort is Mod Pod lounge seating from alliance partner Brandrud. Consisting of plush modular units that can be linked in myriad ways, Mod Pod is used in waiting areas, private offices, and casual meeting rooms.

And that problem with clutter? AOI solved it by specifying custom Meridian lockers and pedestals through Herman Miller's Easy Options capability. Interspersed throughout the call center floor, each storage locker has six lockable compartments. Meanwhile, the pedestals at each Vivo workstation have two lockable drawers, so employees on back-to-back shifts can each have their own.

Agents are issued one key that opens both their locker and pedestal drawer. Result: Personal items stay secure, while the call center stays tidy.

All in all, the preponderance of Herman Miller and alliance product makes the Hyatt reservation center something of a furniture showroom—and most definitely a recruiting showcase.

“When we show prospective associates around, it’s clear that the caliber of our workplace is something they consider when deciding whether to work here,” Mr. Hale says. “Even though we’ve been in this building for nearly two decades, our redesigned space helps us compete effectively with brand new call centers.”

Exceptions/Clarifications/Comments

- 1.) For the purposes of cost savings to the county, and to lower the risk of damage of the product due to double-handling, the installation bid reflects shipping to the site, offloading and installing.
- 2.) In keeping with the bid documents, we have drawn two 8' workstations along the wall shared by office #1230 in Investigations. However, the workstations, as shown on our drawing, will extend past the wall and into the aisleway. There will be a cost savings if these workstations are reduced to 7'6" each. Also, in this case, wall-mounting, instead of panel mounting the workstations will result in further cost savings.
- 3.) Information regarding accessories available, and their cost, can be found under the Product Literature tab.
