Section 3: Proposed Project

1. **Project Period:** (funds available July 1, 2011 – June 30, 2012)
From: July 1, 2011 To: June 30, 2012

Is the project only for the purchase of equipment? Yes No

If yes, only complete Category E – Equipment budget sheet and narrative providing detailed justification for the equipment needed. If no, complete the following questions.

2. **Is the proposed program a model, best-practice, evidence based, or promising practice program?**
 Yes No

What evidence exists that the proposed program is evidence based and/effective?
Allowing Teen Court Team members to attend training supports a best practice as defined by the National Association of Youth Courts. Training sessions assist with data collection, recruiting volunteers, promoting the program, effective case management, creative sanctions, and other aspects of the program operation.

In accordance with the Bureau of Justice Assistance's "Defining Drug Courts: Ten Key Components", continuing interdisciplinary education promotes effective drug court planning, implementation, and operations. This is key component number nine. There are many new developments and strategies designed that will enhance the services provided to youth in drug court.

Drug testing is one of the ten key components of drug court. It is component number five that states "abstinence is monitored by frequent alcohol or other drug testing". This comes from Defining Drug Courts: The Key Components, Bureau of Justice Assistance Drug Court Resource Series (1997 & 2004).

3. **Is this project an enhancement?** Yes No

If yes, please explain.

The funding secured through this grant request will help Sarpy County to enhance services currently being provided. Sarpy County operates several programs that either divert youth from formal court processing, or provide an alternative to residential placements. As part of this priority, Sarpy County will focus on the continuation of existing programs as well as enhancement. Efforts to enhance programs will include securing funding that enables them to offer services to a changing and growing youth population. Additionally, training will allow the teams to implement new strategies to help deal with substance abuse and mental health issues that are becoming more prevalent with youth today. This funding will assist in the enhancement of services provided by Juvenile Intake and Juvenile Drug Court which operate to serve the youth of Sarpy County. Funding will allow team members to attend training and assist the Juvenile Drug Court with drug testing participants in order to hold youth accountable and keep youth in compliance with their program requirements.

4. **Is this project an expansion?** Yes No

If yes, please explain.

5. **How many youth will be served:** 250

6. Explain how the program or activities will benefit current juvenile services within the county.

Training enables the team to implement new strategies to help deal with substance abuse and mental health issues. Training for Teen Court staff will support Priority Two of the 2009-2011 Comprehensive Juvenile Services Plan – *Enhance Existing Programs and Services for Juvenile Offenders*, specifically Juvenile Intake Program Teen Court. Staff training has consistently been passed over to allow available funding to cover operational costs. Continuing education/training for the Coordinator is crucial to the success of the Program.

Training for Juvenile Drug Court team members supports Priority Two of the 2009-2011 Comprehensive Juvenile Services Plan – *Enhance Existing Programs and Services for Juvenile Offenders*, specifically the Juvenile Drug Treatment Court (JDTC). Sarpy County has operated the JDTC since 2000 and staff training has been passed over to allow available funding to cover operational costs. Continuing education/training for the Team members is crucial to the success of the Program. Training benefits each and every youth that comes through the drug court program.

Continuing education and training allows team members to bring back new, innovative ideas and competencies to share with staff. An ever-changing youth population requires staff that can accommodate with appropriate strategies, outlined and explained by experts in the field. Continuing education and training are key components for effective and successful programs.

Securing funds from this grant will allow Sarpy County to continue drug testing juveniles participating in Drug Treatment Court. Drug testing is a deterrent from continued drug use; therefore frequent and random drug testing of youth involved in the Juvenile Drug Treatment Court forces participants to make appropriate choices if they wish to complete their program contract.

Providing drug testing for participants in the Sarpy County Juvenile Drug Treatment Court supports priority two of the 2009-2011 Comprehensive Juvenile Services Plan – *Enhance Existing Programs and Services for Juvenile Offenders* Sarpy County currently operates several programs that either divert youth from formal court processing, or provide an alternative to residential placements.

7. Provide a brief description of the program or activities the project will provide.

In 2011 there will be 25 teen court nights conducted. An estimated 300 duplicated teen volunteers will assist with Teen Court by either being a jury member, prosecutor or defense attorney. An estimated 100 Diversion clients will appear in court to have consequences given to them for the offense they committed. Teen Court is available to juveniles who are cited for offenses such as shoplifting, criminal mischief, theft, MIP, mutual assault and trespassing. Participation in Teen Court is on a voluntary basis for minors who admit responsibility for the offense and choose to go before their peers to receive the consequences of their actions. The juveniles who successfully complete Teen Court do not have a conviction on their record.

When teen offenders have their peers determine the consequences for their first offense, they are less likely to break the law again. The recidivism rate for our Teen Court varies between 7% and 8%. If the same offenders were handled in the legal system by adults, the recidivism rate would be 30%. Funding will allow a team member to attend the annual training and conference. The annual conference and strategic training will provide information to the Teen Court Coordinator on how to continue to provide a successful Teen Court Program.

Funds from this request will also allow staff from the Juvenile Drug Treatment Court team to attend continuing education and training. The benefit of having individuals from the drug court team attend the national conference will be an enhancement of knowledge, skills and competencies they will bring back to the team. This information will enable the team to develop new ways of accomplishing goals and to better serve the Juvenile Drug Treatment Court population. This conference offers skill building workshops and individual sessions in the area of drug courts. These sessions offer a wide range of information from substance abuse to dealing with co-occurring disorders in youth. This training is four days.

Funding secured will allow the Juvenile Drug Treatment Court team to purchase drug testing supplies. The Sarpy County Juvenile Drug Treatment Court provides drug testing to all youth involved in the program. Drug testing will be done on a random basis for the duration of involvement in Drug Court. Juveniles being drug tested will range from ages 14 to 18, male and female, and youth of all races that have been accepted into the Sarpy County Juvenile Drug Treatment Court. The 1,500 drug tests will allow the Juvenile Drug Court staff to perform drug testing on all juveniles in the Drug Court for a one year period. Drug testing holds youth accountable and responsible for their actions. Drug testing is a deterrent from continued drug use; therefore frequent and random drug testing of youth involved in the Juvenile Drug Treatment Court forces participants to make appropriate choices if they wish to complete their program contract.
