Re: SID No. 101 (Hanson Lake Subdivision)
2010 Drainage Improvements
OPCE Project No. 10090

Dear Mr. Wilson:

On behalf of SID No. 101, we are submitting one (1) set of plans and specifications covering the emergency reconstruction of the SID's drainage outlet structure along the Platte River.

The SID's drainage structure was damaged during the June 2010 flood of the Platte River. FEMA declared a disaster for this flood event and has authorized SID 101 to reconstruct the structure as an eligible project. Therefore the SID Board has adopted a Resolution of Necessity for the project so the work can be advertised, bid, and constructed.

On behalf of SID 101, we are requesting formal approval of Sarpy County for this work.

Please let me know if you have any questions.

Thank you.
