YES

NO

Our community has an approved current Three Year *Comprehensive Juvenile Services Plan* on file with the Nebraska Crime Commission.

List begin and end date of plan:

January 2009 – December 31, 2011

List the 3-5 priorities in the plan:

1. Improve system operation and coordination.
2. Enhance existing programs and services for juvenile offenders.
3. Expand continuum of services and sanctions.
4. Establish new programs for youth involved in the Sarpy County Juvenile Justice System.
5. Continue existing programs to ensure proper service to Sarpy County youth and their families.

12. Federal Performance Measures:

Describe the federal performance measures targeted by this application and methods of data collection. *[Limit 1 page]*

Federal Performance measures are intended to measure and assess the progress of programs toward their established goals. As part of Sarpy County's Juvenile Justice programming, the Reporting Center, Juvenile Intake/Diversion and Juvenile Drug Treatment Court adopted outcome and output measures and rely on them to track progress towards goals.

As a grantee, Sarpy County and the Juvenile Reporting Center realize they are accountable to the funder and must provide proof that grant awards are funding successful programming.

Sarpy County and the Sarpy County Juvenile Reporting Center have developed a computerized database for data collection. The database can generate reports that allow Center staff to analyze program operation and success.

13. Disproportionate Minority Contact [DMC] Information

Briefly discuss Disproportionate Minority Contact [DMC] issues impacting your community. Discuss current programming in your community that addresses DMC. Provide information on the 2009 RRI's.

Key:

- Results that are not statistically significant: Regular Font
- Group is less than 1% of the youth population: *
- Insufficient number of cases for analysis: **
- Missing data for some element of calculation: --

According to the data above, a DMC issue exists at the point of arrest; the Juvenile Justice Center Truancy Project could have an impact at that contact point as youth may be involved in the program as opposed to engaging in delinquent activities. Additionally, implementation of the program will positively impact the number of youth being referred to Juvenile Court.

In the past, the County collaborated on a grant request with Douglas and Lancaster Counties to hire a DMC Coordinator to assess DMC issues in Sarpy County and begin planning to mitigate those issues. The request was not approved. In the past year, Sarpy County collaborated with the State DMC Coordinator to take steps to address DMC issues. Sarpy County is looking at applying for the Title V grant which addresses DMC issues.

CATEGORY B - CONSULTANTS AND CONTRACTS NARRATIVE:

The Sarpy County Juvenile Reporting Center will contract with a facilitator to provide tobacco prevention education classes and smoking cessation classes. The classes will be offered bi-monthly throughout the project period. The Center will offer the following classes:

Intervening with Teen Tobacco Users (TEG):

This comprehensive educational program is for students in grades 7–12 who don't want to stop using tobacco. This may include teens who violate school policy or community ordinances on underage tobacco use. Many schools use Intervening With Teen Tobacco Users (TEG) as a positive alternative to suspension and juvenile courts as diversion.

Based on Prochaska and DiClemente's stages of change, Intervening With Teen Tobacco Users (TEG) is designed to move teenage tobacco users from not wanting to quit to wanting to quit. Through videos, demonstrations, and cooperative learning, teenage tobacco users learn about the negative consequences of tobacco use. They gain the knowledge, motivation, and action steps to move toward a healthier, tobacco-free lifestyle. Participants are encouraged to reduce their tobacco use, quit on their own, or join a voluntary tobacco cessation program.

TEG = 22.5 hours total (three 7.5 hour classes) X \$43 = \$967.50

Helping Teens Stop Using Tobacco (TAP, 2nd Edition):

A Step-by-Step, Voluntary Cessation Program for Teens

This award-winning program provides tobacco-using teens in grades 7–12 with the information, motivation, and support to successfully stop using cigarettes or spit tobacco. In an adult-led, support group setting, tobacco users are gently guided to a personally selected quit date and provided with specific strategies to remain tobacco-free. Facilitators and peers provide the cessation options, guidance, and social support for the choices participants make as they design their own approach to becoming tobacco-free.

TAP = 22.5 hours total (three 7.5 hour classes) X \$43 = \$967.50

The total request for this contract is \$1,935.

Recruiting Supplies and Rewards for Teen Court Explorer's Post

Juvenile Diversion's Teen Court program will purchase brochures, banners, pens and snacks to recruit volunteers through Explorer's post. Teen Court relies on volunteers to participate in the Teen Court process. Studies have shown that when teen offenders have their peers determine the consequences for their first offense, they are less likely to break the law again. The recidivism rate for our Teen Court varies between 7% and 8%. If the same offenders were handled in the legal system by adults, the recidivism rate would be 30%. Juvenile Diversion will utilize \$600 for recruiting supplies for Teen Court volunteers.

Year End Party and Prizes for Teen Court Volunteers

Juvenile Diversion's Teen Court program will purchase pizza, snacks and prizes for a year end party to reward teen volunteers who have given their time to assist with determining fair and just consequences to teen offenders. These teen volunteers faithfully give their personal time for the entire year and Diversion would like to reward them for their service to the Teen Court program. These young people are the reason Sarpy County has had success with this program and rewarding them for their service will also assist in recruiting others for the next year. Juvenile Diversion will utilize \$450 for the Teen Court year end party.

Juvenile Wellness Program Supplies

The Juvenile Wellness Program will provide participants with jump ropes, snacks, drinks, and incentives for a total of \$70.

CATEGORY F - OTHER COSTS NARRATIVE:

The Sarpy County Juvenile Drug Treatment Court will offer two or three pro-social activities for juvenile participants in Drug Court. These events provide youth the opportunity to attend activities to demonstrate ways to have fun without being under the influence of drugs or alcohol. Team members from the Juvenile Drug Treatment Court attend the activities with the youth. Parents are also invited to attend which helps to demonstrate to the parents as well as the youth that they do not need to be under the influence of drugs or alcohol to participate in activities with their children. The response to these activities has been extremely positive for both parents and youth fostering increased communication and bonding.

Activities to include: University of Nebraska at Omaha Hockey game and Omaha Storm Chasers Baseball Game.

The total request for Drug Court Pro-Social Activities: \$1,174

SECTION IV. PROBLEM STATEMENT

1. Juvenile Accountability Problems Identified by the Coalition:

The SAFE Committee developed and adopted the 2009-2011 Sarpy County Comprehensive Juvenile Services Plan in September 2008. The purpose of the Plan is to: reduce juvenile delinquency, and enhance public safety by 1) identifying the risk factors related to delinquency and abuse/neglect; 2) developing appropriate prevention and intervention programs for delinquency and abuse/neglect; and 3) fostering system communication, coordination, and cooperation across agencies and with the public to strengthen system effectiveness.

The Plan identifies four prioritized needs: 1) Improve system operation and coordination; 2) Enhance existing programs and services for juvenile offenders; 3) Expand continuum of services and sanctions; and 4) Establish new programs for youth involved in the Sarpy County Juvenile Justice System. In addition to these priorities that create or enhance new programs and service, it is an established priority of Sarpy County to continue existing programs. It is imperative that current programming be maintained to ensure proper service provision to Sarpy County youth and their families.

The top three priority problems include:

1. Improve system operation and coordination by developing an integrated information sharing system. The integration of agency information is crucial to assisting youth and their families in receiving the help they need. Increased coordination among agencies and the development of an information management system are vital in overcoming the current duplication of services occurring in the Sarpy County juvenile justice system. In addition, enhancements to system information collection and sharing will lead to a greater understanding of the trends and profile of juvenile offender service requirements.
2. Enhance existing programs and services for juvenile offenders. Sarpy County currently operates several programs that either divert youth from formal court processing or provide an alternative to residential placements. As part of this priority, Sarpy County will focus on the continuation of existing programs as well as enhancement. Efforts to continue programs will include securing funding that enables them to operate at their current level of service.
3. Expand continuum of services and sanctions by expanding drug and alcohol treatment programs and prevention/intervention programs will also provide Sarpy County youth and their families with necessary resources and programming.

2A. The problem to be addressed by this proposed grant application is that a portion of juvenile offenders are being detained at the Sarpy County Juvenile Justice Center rather than being placed in a lesser level of care. Therefore, creating the need to enhance existing programs and services for those juvenile offenders being detained and improve current system operations.

2B. Description of the Problem or Problems: Sarpy County is the fastest growing county in Nebraska. Approximately one-third of the total population in the county is made up of juveniles between the ages of 0-17. The juvenile population in Sarpy County is projected to grow by 2% per year through 2020. This rapid increase in population has placed a strain on the current juvenile justice systems' ability to keep up with the demand for services.

By the time a youth is sent to detention, he or she has usually committed multiple law offenses. Initial encounters with law enforcement often begin with status offenses such as running away, truancy, or minor in possession of alcohol, tobacco or other drugs, and escalate to violations that are more serious.

The Sarpy County Sheriff's Department operates the 36 bed Juvenile Justice Center. A trend analysis of the facility showed the average daily population in staff secure detention increased 50% per year between FY97/98 and FY 03/04, going from 4 youth in FY97/98, to 16 youth by FY03/04. The average length of stay in the Juvenile Justice Center increased by 29% per year during the same time period, going from 2.5 days to almost 7 days by the end of FY03/04. (Chinn Study 2004).

An increase in the juvenile population of Sarpy County, combined with unlimited and unstructured time after school, on weekends, and in the summer, has factored into the increase of crime in the County. The results of youth participating in risky behavior such as substance abuse, gang activity, assaults, and other criminal mischief has also contributed to youth involvement in the juvenile justice system.

There has been a continuous population of juvenile offenders charged with drug and alcohol violations within the county, which significantly influences juvenile crime. From July 1, 2006 to June 30, 2009 the District #2 (formally District #5) Probation Office tested 601 youth for substance use during their predisposition investigation and found that 30% of youth tested positive for either marijuana use, cocaine use, or methamphetamine use. Specifically, 26% tested positive for marijuana, 1% for cocaine, and 3% tested positive for methamphetamine use. Additionally, from January 1, 2010 to December 31, 2010, the District #2 Probation Office tested 117 youth for substance use during their predisposition investigation with 103 (88%) testing positive for marijuana, cocaine or methamphetamine.

SECTION V. PROJECT OPERATION

Explain how your proposed project will work from beginning to end. *[Limit 2 pages]*

It is the goal of the Sarpy County Board of Commissioners and SAFE Committee to work with key agencies and stakeholders of the juvenile justice system to improve and enhance the current system. A study of the Sarpy County juvenile justice system conducted by Chinn Planning determined that a gap in the current continuum of services existed in the area of a Juvenile Reporting Center (Center). Therefore, the Sarpy County Board of Commissioners and SAFE Committee will continue collaborating to operate a highly structured Juvenile Reporting Center that addresses the additional rehabilitative needs in the current continuum of service. The Center functions as an alternative to detention by providing a less restrictive level of care that allows youth to remain in the community, reduces detention costs, and keeps families intact.

The project has been operational since November 2006. The Center began serving youth in February 2007. In 2007, the Center served 391 youth in programming for a total of 1,995 service hours and 19 in supervision for a total of 2,142 service hours. In 2008, the Center served 699 youth in programming for a total of 3,395 service hours and 58 in supervision for a total of 2,328 service hours. In 2009, the Center served 873 youth in programming for a total of 4,088 service hours and 77 in supervision for a total of 1,576 service hours. In 2010, the Center served 816 youth in programming for a total of 3,568 service hours and 39 in supervision for a total of 1,181 service hours.

The Center operates at the Sarpy County Juvenile Justice Center (JJC) Monday through Thursday from 3:00 to 9:00 pm and Saturday from 8:00 am to 12:00 pm. Additionally, the Center alters the summer hours to better serve the needs of working families. The summer schedule will cover hours that youth are not in summer school. The Center collaborates with the Sarpy County Education Program (SCEP) to provide class room/meeting room space for the program.

The Center works in partnership with the Sarpy County Separate Juvenile Court, Juvenile Drug Treatment Program (DTP), District 2 Probation, the CARE program, and other juvenile justice agencies for intake referrals. The target population includes four categories of youth offenders ages 12-18. The first category is offenders ordered by a Juvenile Court Judge as part of their disposition or detention order. The second category is offenders referred to the Center as a sanction for a program violation. These youth will report for an amount of time agreed upon by the Center Coordinator and the referring agency. The third category is youth ordered to participate in educational classes offered at the Center. Youth participating in classes participate through the duration of the class they have been ordered to attend. Youth sign an individualized program agreement detailing their level of participation needed to successfully complete their program commitment. Finally, the fourth category is offenders who are referred to the Center by Juvenile Justice Agencies for supervision. Supervision allows youth to remain at home and in school while still providing evening and weekend supervision, rather than placing them in detention.

A full-time Supervisor was hired as the Center Coordinator in November 2006 to oversee the day-to-day operation of the Center. The Coordinator collaborates with community agencies to maintain and expand the educational component of the Center, provides supervision, and performs administrative duties.

Educational workshops consist of, but are not limited to, GED, life/social skills education, Moral Reconciliation Therapy, Navigator Abstinence Program, Adolescent Anger Management, Character Education, Decision Making classes, Victim Empathy classes, Wellness classes, AA meetings, substance abuse education/prevention, Common Sense Parenting education for parents of youth participating in the Center, and guest speakers that present on a variety of topics. Youth are also involved in the Sarpy County Youth as Resources program to design and implement youth led service-learning projects in the community. In addition, homework assistance and tutoring is provided.

The average number of daily participants in Center programming will be 10-15. It is estimated that 80 youth will be ordered for supervision during the project period. Juveniles sent to the Center for supervision as a result of detention orders, sanctions, or as part of their CARE contract who have not had a prior assessment are evaluated by the Reporting Center. The Center will always administer the YLS/CMI to determine individual case management plans, and may administer the SSI, Maysi-2, Suicide Risk Inventory, Strength Based Questionnaire, Health Screening, and Education Screening to determine individual risk needs. Assessments conducted by referring juvenile justice agencies will be available to the Coordinator. Juveniles at the Center are not reassessed unless needed due to a change in their status or circumstance. Programming youth are not assessed at the Center.

Parent/guardian involvement includes attendance in Common Sense Parenting Classes, attendance at some educational workshops, and meetings with the Center staff when needed. As the curriculum is further developed, classes involving communication and relationship building between youth and parents may be offered.

Youth exit the program when they have completed all of the requirements of their individualized program contracts or mandated sanction. The Center notifies the Juvenile Court or referring program of the youth's successful completion. Youth also exit the program if they unsuccessfully complete the goals of their contracts, commit additional law violations, or are placed in an out of home placement by the Juvenile Court System. These juveniles are referred back to Juvenile Court for further disposition. This grant request will fund programming and programming supplies at the Sarpy County Juvenile Reporting Center.

This grant request will also fund drug testing supplies and supplies for Juvenile Diversion's Teen Court program. Sarpy County Teen Court is an important tool in decreasing youth recidivism rates. The recidivism rate for Teen Court varies between 7% and 8%. If the same offenders were handled in the legal system by adults, the recidivism rate would be 30%. An estimated 300 duplicated teen volunteers will assist with Teen Court by either being a jury member, prosecutor or defense attorney. An estimated 100 Diversion clients will appear in court to have consequences given to them for the offense they committed. Teen Court is available to juveniles who are cited for offenses such as shoplifting, criminal mischief, theft, MIP, mutual assault and trespassing. Participation in Teen Court is on a voluntary basis for minors who admit responsibility for the offense and choose to go before their peers to receive the consequences of their actions. The juveniles who successfully complete Teen Court do not have a conviction on their record. Drug testing supplies help assist Sarpy County Diversion in holding youth accountable to their contracts.

Additionally, Sarpy County Juvenile Drug Court will coordinate pro-social events for the juvenile participants in the Sarpy County Juvenile Drug Court. Team members will demonstrate to the youth that there are events and activities which they can participate in without being under the influence of drugs or alcohol. Parents of the youth are invited and Team members from the Juvenile Drug Treatment Court attend these activities alongside youth and parents. This is designed to be a teaching moment for the parents and the youth that they do not need to be under the influence of drugs or alcohol to have a good time together. \$1,174 will be used to fund these pro-social events for the juvenile participants in the Sarpy County Juvenile Drug Court.

The County match is \$2,119 which will include expenses involved in detaining Sarpy County youth who are inappropriate for detention at the Sarpy County Juvenile Justice Center. Various secure juvenile detention facilities in the area will be used. Staff will make every effort to place juveniles in the closest facility to Sarpy County. Placements can be at Douglas County Youth Center, Lancaster County Detention or Madison County Detention. These contracts will be funded with match dollars that will be taken from the Sarpy County General Fund.

B. Describe the impact of the project on the community, agency, and client/family.

JABG funds allow youth to attend programming classes at no cost to them or their families. Classes are available to all youth within the Sarpy County Juvenile Court System. Youth may be ordered to attend a specific class or multiple classes by Juvenile Court, referred by Juvenile Probation, Diversion, Teen Court, Department of Health and Human Services, Juvenile Truancy Program, CARE Program, parents of youth, or youth who wish to participate on their own. Funding provide a large variety of educational classes that assist youth with understanding who they are, how they can make a positive difference by making better choices, how the choices they make impact others, and provide them the information needed to make choices which will keep themselves and others safe and healthy. Youth also learn important skills needed to be successful in school, at home, and on their own which will ultimately help to decrease recidivism rates.

Funding through this proposal also allows Juvenile Drug Court to provide fun, pro-social activities to youth participants. These activities have helped youth realize that a person can have fun without the use of alcohol or drugs. Youth have the opportunity to attend these events with their parents which has increased communication between parents and youth strengthening the family bond and demonstrating opportunities to have fun without drugs and alcohol.

C. Provide a success story about the project.

A success story about classes offered at the Reporting Center has been the high participation level and smiles on the faces of youth that have attended the World of Difference Program. This class assists youth in developing tolerance and understanding of diversity in daily life. Several youth have stated after the class that they would recommend the class to their friends. Comments have been made to Reporting Center staff by youth that consist of: "I never realized comments I made hurt someone's feelings just like my feelings have been hurt." "I did not realize that when I made jokes about some ones sexuality how much it could impact another person." "I felt comfortable talking about how people make me feel when they come to my house and see the amount of religious decorations my mom has, and I understand that we are all people with feelings no matter what we look like." This class has really helped to deter and counteract hate-motivated criminal activity, thus allowing youth to better understand the pluralism of our society.

In January 2011, The Sarpy County Juvenile Drug Treatment Court used funds from the JABG to attend a University of Nebraska at Omaha hockey game. The game was attended by 21 participants along with a majority of the parents and members of the Drug Court Team. This event provided family entertainment, showing both the participant and family members that it is possible to have fun without being under the influence of some type of substance. Sarpy County Juvenile Drug Court had a very positive response from both parents and youth attending the hockey game. One parent expressed that this was "a lot of fun," also stating that she enjoyed the time spent at the game. Both parents and youth explained how this event helped them to bond with each other. Sarpy County Juvenile Drug Treatment Court will continue to use JABG funds to provide pro-social activities for participants and parents to demonstrate the benefits of quality, substance-free time with their children.

D. Describe any unanticipated challenges in implementation or operation of the project. How were these challenges addressed?

The Reporting Center is researching new programs to offer youth in the community. The Center developed a small class that assisted youth with basic life skills; however this class only touched on the basic skills needed for youth to succeed. The Instructor and the Program Supervisor felt that more information was required on the topics in order to provide youth a strong foundation for future success on their own. Therefore, a new program is being developed that will operate once a week and work with groups and individually on the skills needed to be successful. The plan is to continue researching and developing criteria to implement a more individualized life skills program that will begin in 2011.
