Staff members work with youth in a two classroom area. The radio will increase communication among staff members during the Center’s operating hours.

Teachers and Juvenile Service workers are responsible for student safety, maintaining order, and communicating with Juvenile Justice Center staff. Section 3: Proposed Project

1. **Project Period:** (funds available July 1, 2012 – June 30, 2013)
From: July 1, 2012 To: June 30, 2013

Is the project only for the purchase of equipment? Yes No

If yes, only complete Category E – Equipment budget sheet and narrative providing detailed justification for the equipment needed. If no, complete the following questions.

2. Is the proposed program a model, best-practice, evidence based, or promising practice program?

Yes No

What evidence exists that the proposed program is evidence based and/effective?

According to OJJDP, “juvenile drug courts are intensive treatment programs established within and supervised by juvenile courts to provide specialized services for eligible youth and their families” (www.ojjdp.gov). OJJDP lists juvenile drug courts on the model programs guide as an intermediate sanction for youth with positive effects on adolescent substance abuse and delinquent behaviors. Drug testing is one of the ten key components of drug court. It is component number five that states “abstinence is monitored by frequent alcohol or other drug testing”. This comes from Defining Drug Courts: The Key Components, Bureau of Justice Assistance Drug Court Resource Series (1997 & 2004).

The Sarpy County Juvenile Reporting Center provides delinquency prevention, early and intermediate intervention services to juveniles. These services include classes such as The World of Difference class which is the designated program used by the Anti-Defamation League and used throughout the United States with youth, teachers, administrators, and community members. Through the programs offered at the Reporting Center, youth learn about commonly accepted positive social characteristics like honesty, integrity, responsibility, and positive modeling from adults.

3. Is this project an enhancement? Yes No

If yes, please explain.

The funding secured through this grant request will help Sarpy County to enhance services currently being provided. Sarpy County operates several programs that either divert youth from formal court processing, or provide an alternative to residential placements. As part of this priority, Sarpy County will focus on the continuation of existing programs as well as the enhancement of current projects. Efforts to enhance programs include securing funding that will enable the County to offer services to a changing and growing youth population.

Funding will assist in the enhancement of services provided by Juvenile Drug Court and the Juvenile Reporting Center which operate to serve the youth of Sarpy County. Funding will enhance services in Juvenile Drug Court by drug testing participants in order to hold youth accountable and keep youth in compliance with their program requirements. Funding will also assist Juvenile Drug Treatment Court with providing several pro-social, team-building activities for youth participants. These pro-social activities have been very successful in the past with promoting drug-free fun, demonstrating to parents and youth that a person can have a good time without needing to be under the influence of drugs or alcohol. This is an enhancement to current services provided by Juvenile Drug Treatment Court. These activities can be incorporated as positive reinforcement or a goal for youth to complete the program.

Additionally, funding will enhance the current youth services at the Juvenile Justice Reporting Center by assisting Reporting Center staff with appropriate communication equipment, increasing youth safety and

security while attending the Reporting Center. It is imperative staff have adequate communication in order to maintain order and provide quick, easy, and portable communication, preventing problems from escalating or responding to youth injuries and emergencies.

4. Is this project an expansion? Yes No

If yes, please explain.

5. How many youth will be served: 900+ youth are served by the Reporting Center/Drug Treatment Court

6. Explain how the program or activities will benefit current juvenile services within the county.

Securing funding from this grant will allow Sarpy County to continue drug testing juveniles participating in Drug Treatment Court. Drug testing is a deterrent from continued drug use; therefore frequent and random drug testing of youth involved in the Juvenile Drug Treatment Court forces participants to make appropriate choices if they wish to complete their program contract. Funding will also benefit participants in Juvenile Drug Treatment Court by providing pro-social activities as a goal or incentive to complete their program. Juvenile Drug Treatment Court has offered these activities in the past and participants have offered very positive feedback. Funding for Sarpy County Juvenile Drug Treatment Court activities has become an issue due to all the restrictions that have been placed on Court personnel. Receiving grant funding for these activities will greatly enhance juvenile services provided to youth participants of Drug Treatment Court. Without this grant funding, these pro-social activities for youth would not occur.

Providing drug testing for participants in the Sarpy County Juvenile Drug Treatment Court supports priority two of the 2009-2011 Comprehensive Juvenile Services Plan – *Enhance Existing Programs and Services for Juvenile Offenders* Sarpy County currently operates several programs that either divert youth from formal court processing, or provides an alternative to residential placements.

Funding provided through this grant request will allow the Juvenile Reporting Center staff to quickly and easily communicate with each other and other staff at the Juvenile Justice Center. Adequate communication is important not only for youth safety and security but also staff safety. The Juvenile Reporting Center is an alternative education area operating during the day and evening hours to serve Sarpy County youth. Staff members work with several youth in two separate classroom areas. Teachers and Juvenile Service workers are responsible for youth safety and security while at the Center. Staff are required to maintain order and communicate with Juvenile Justice Center Staff if problems should arise which require additional support. The digital radio will allow staff members to respond quickly to emergencies keeping both staff and youth safe.

7. Provide a brief description of the program or activities the project will provide.

Funds from this request will allow staff from the Juvenile Drug Treatment Court team to offer several pro-social events throughout the year to juveniles in Drug Treatment Court. Attending pro-social activities with youth and their parents is very beneficial because it provides opportunities for youth to participate in events in order to demonstrate that you can have fun and attend activities without being under the influence of drugs and alcohol. These events provide a time for bonding with parents as well as offer positive reinforcement for completing the program.

Funding secured will purchase drug testing supplies for Juvenile Drug Treatment Court. The Sarpy County Juvenile Drug Treatment Court provides drug testing to all youth involved in the program. Drug testing will be done on a random basis for the duration of involvement in Drug Court. Juveniles being drug tested will range from ages 14 to 18, male and female, and youth of all races that have been accepted into the Sarpy County Juvenile Drug Treatment Court. The 1,500 drug tests will allow the Juvenile Drug Court staff to perform drug testing on all juveniles in the Drug Court for a one year period. Drug testing holds youth accountable and responsible for their actions. Drug testing is a deterrent from continued drug use; therefore frequent and random drug testing of youth involved in the Juvenile Drug Treatment Court forces participants to make appropriate choices if they-wish to complete their program contract.

Funds from County Aid Enhancement will assist the Sarpy County Juvenile Reporting Center with purchasing equipment in order for staff members at the Juvenile Reporting Center to adequately communicate. This will assist with enhancing safety and security for all youth and staff during Reporting Center operating hours. The Juvenile Reporting Center provides a safe area for youth to attend programs and classes during the day and evening hours. It is important for staff members to communicate with each other and have a quick way to respond to problems if they arise. The Reporting Center is in a separate area from the Juvenile Justice Center and it is important to have a fast, safe, and portable way to call for assistance from other staff in the Reporting Center or the Juvenile Justice Center if needed.

Re: 2012 County Aid Enhancement Grant

On January 24, 2012 the County Board will be asked to authorize the Board Chairman to sign the 2012 County Aid Enhancement grant application, certifications, and assurances. This is a continuation grant offered through the Nebraska Crime Commission for the enhancement of juvenile services. Counties are eligible to apply for County Aid Enhancement funding if they apply for County Aid funding.

The grant application requests \$11,045 in funds. \$4,830 will be used to purchase a portable radio and related software for the Juvenile Reporting Center, \$500 will be used for pro-social activities for Juvenile Drug Treatment Court, and \$5,715 for drug testing supplies.

The County is required to provide \$7,364 in local match funds. The match will be met through the contracts with G4S and I-SecureTrac who provide electronic monitoring equipment for the Sarpy County Juvenile Justice System. The grant period is from July 1, 2012-June 30, 2013.
