SARPY COUNTY BUILDING AND PLANNING DEPARTMENT

SEWER CONNECTION FEE REGULATIONS

AUGUST 6, 2013

The attached fee schedule shall apply for the issuance of a permit to connect to the Sarpy County Interceptor Sewer, subject to the following rules of interpretations.

1. A structure or parcel of property acquires the right to connect to the Sarpy County Interceptor Sewer upon payment of the applicable fee, and the signing and approval of applicable agreements with the appropriate governmental entities. This right is subject to any specific conditions of the permit for such connection. The right to connect runs with the realty and/or the structure for which the permit is issued and fee paid. Fees may be due prior to the filing of the final plat, prior to issuance of the building permit, prior to physically connecting to the sewer, or any combination of these three events, as detailed in the attached schedules.
2. An additional fee shall be required for the expansion of existing facilities requiring a building permit for commercial, industrial and institutional properties if the expansion will take place outside the area that the original building permit connection fees were paid for, even if additional sewer connection is not required.
3. For existing development with existing structures, fees are payable only for actual connection with the Sarpy County Interceptor Sewer.
4. All payments shall be made through the Planning and Building Department of Sarpy County. The fees shall then be remitted either to Sarpy County or the appropriate governmental entity pursuant to any applicable interlocal agreements.
5. Commercial, industrial and institutional fees are paid on a per acre basis for the entire parcel. If applicant does not desire to pay a sewer fee on the entire parcel, said area may be replatted into smaller parcels, if done in a manner which complies with the then existing and applicable zoning and subdivision regulations. For parcels that are not platted, the entire sewer connection fee shall be due at the time of issuance of the permit.
6. Physical connection to the Sarpy County Interceptor Sewer, or to any sewer line that drains into the Sarpy County Interceptor Sewer, will not be allowed until: 1) the payment of any fees due to Sarpy County and/or any other governmental entity have been paid, and; 2) any and all required connection agreements have been signed by all parties. The required connection agreements may include waste water sewer agreements with Sarpy County, the

City of Omaha, and other applicable governmental entities. Any connection that violates this provision shall be subject to a penalty of 10% of the applicable fee, and will be disconnected until brought into compliance.

7. Connection to the Sarpy County Interceptor Sewer obligates the connecting party to pay ongoing flow charges for the treatment of the sewage entering the sewer, and for the ongoing maintenance of the Sarpy County Interceptor Sewer. Failure to pay flow charges on a timely basis shall subject the offending party to disconnection, as well as any other lawful remedies necessary to recover past due charges.
