- The applications submitted request approval of Preliminary and Final Plat of a subdivision to be known as Hawkins Addition proposing a three lot subdivision but, do to personal issues, the applicant now wishes to amend his plat and propose a two lot subdivision. - This request does not require a change of zone.

➤ **Background and Analysis:**

- A detailed staff report for this submittal was presented to the Planning Commission at their January 21, 2014 meeting and is attached for your review.

- As requested by Sarpy County Public Works, 50 feet of right-of-way has been dedicated along 234th Street.

Dusty,

Thank you for your letter advising us of your situation and requesting another extension.

As we discussed on the phone last week, there is no guarantee that the Planning Commission will grant another extension. This will be the fifth time they have been asked to consider an extension for you. The plats that they approve do not even get that many extensions!

I will forward your request to the Planning Commission Members as you submitted. I might suggest that if you are serious about the extension, I would encourage you to be present at the meeting and address the Commission in person with your request. Please note that even if you are present, they may not grant another extension.

Respectfully,

Donna Lynam

RE: HAWKINS ADDITION SUBMITTAL

The application for a Preliminary and Final Plat for “Hawkins Addition ” has been reviewed by the Planning Department staff and we have the following comments:

Preliminary Plat:

- Please identify the location of the project on the Vicinity Map
- Existing and Proposed Utilities (well and septic for each lot)
- Dedicated Right-of-Way for 237th Street will be required to be 50 feet. This dedication must be shown on the plat and is not included in the total lot acreage. Acreage size is calculated as that area within the property lines of each parcel.
- With the dedication of right-of-way along 237th Street as required by Sarpy County Public Works, parcels will not be large enough to meet the AGD Zoning District minimum lot size of 10 acres.
- Proposed lot lines will need to be adjusted to allow for a minimum of 10 acres per parcel or application for a Change of Zone will be required before this application can move forward.

Final Plat:

- Identify lots and square footage of each
- Dedicated Right-of-Way as noted with Preliminary Plat comments

We would like to have the above issues resolved at your earliest convenience so that we can submit corrected documents with Planning Commission Packets. Please forward your response and or corrected documents to dlynam@sarpy.com.

Please contact Bruce Fountain, Planning Director, or myself at 402-593-1555 if you have any questions.
