

**BOARD OF COUNTY COMMISSIONERS
SARPY COUNTY, NEBRASKA**

**RESOLUTION GIVING THE GRANT COORDINATOR AND THE JUVENILE JUSTICE CENTER DIRECTOR
PERMISSION TO ELECTRONICALLY SUBMIT THE SHERWOOD FOUNDATION GRANT FOR THE TRUANCY
PROGRAM AND JUVENILE JUSTICE REPORTING CENTER**

WHEREAS, pursuant to Neb. Rev. Stat. §23-104(6) (Reissue 2007), the County has the power to do all acts in relation to the concerns of the County necessary to the exercise of its corporate powers; and,

WHEREAS, pursuant to Neb. Rev. Stat. §23-103 (Reissue 2007), the powers of the County as a body are exercised by the County Board; and,

WHEREAS, a Sherwood Foundation Grant is available to the Sarpy County Juvenile Justice Center; and,

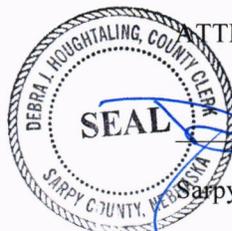

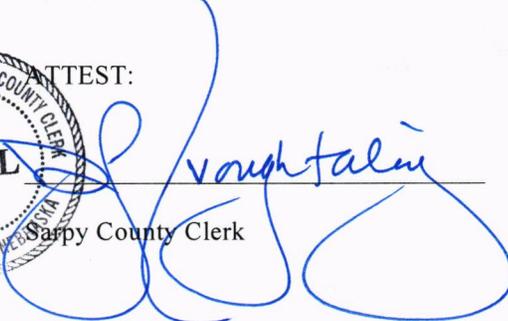

WHEREAS, Sarpy County is requesting funding for Truancy and Reporting Center Staff; and,

WHEREAS, Sarpy County is committed to and supports Truancy programming at the Juvenile Justice Center; and;

NOW, THEREFORE, BE IT RESOLVED, By the Sarpy County Board of Commissioners that Dick Shea and the Sarpy County Grant Coordinator are hereby authorized to electronically submit the Sherwood Foundation Grant application.

The above Resolution was approved by a vote of the Sarpy County Board of Commissioners at a public meeting duly held in accordance with applicable law on the 13th day of August, 2013.

MEMO

To: Sarpy County Board

From: Lisa A. Haire

Re: Sherwood Foundation Grant Application

On August 13, 2013, the County Board will be asked to give Lisa Haire, Grant Coordinator and Dick Shea, Juvenile Justice Center Director, permission to electronically submit the Sherwood Foundation Grant application on behalf of the Juvenile Justice Truancy Program.

The grant application must be submitted electronically through the Sherwood Foundation's website. Attached is a copy of the grant information. Sarpy County will request \$134,364 for three Staff. One FT Juvenile Services Officer for supervising the Day Reporting Center, one Teacher for the school year, and one PT Truancy Youth Attendant. There will be no County match required for this grant.

If you have any questions, please do not hesitate to contact Dick Shea at (402) 537-7021.

Organization's Mission Statement

Sarpy County's overall Mission Statement is to: Improve the quality of life here in Sarpy County by providing responsive, efficient and high quality public services that promote the self-sufficiency, well-being and prosperity of individuals, families, businesses and communities.

Sarpy County Juvenile Justice agencies developed the Comprehensive Juvenile Services Plan. The vision guiding this comprehensive plan is to reduce juvenile delinquency and enhance public safety in Sarpy County by (1) identifying the risk factors related to delinquency and abuse/neglect; (2) developing appropriate prevention and intervention programs for delinquency and abuse/neglect; and (3) fostering system communication and cooperation across agencies and with the public to strengthen system effectiveness.

Organization's Primary Goals, Major Programs or Services

The Patrick J. Thomas Juvenile Justice Center is a 36-bed, staff-secure housing center for juveniles. The center includes an educational center, youth assessment center, juvenile court suite, visitation area, alternative school, as well as administrative offices.

An evening reporting center is available for juveniles who are involved in the juvenile court system to report for daily supervision. The reporting center program includes tutors, alcohol abuse counseling, parenting classes and moral recognition therapy.

In addition, alternative education programs are available for juveniles who have been expelled from school and who are currently involved in the juvenile court system. A court-ordered program called the Sarpy County Educational Program (SCEP) is available to them during normal school hours as well as a new Truancy Program which youth voluntarily participate. Upon successful completion of the Truancy Program, the youth's Truancy charge is dismissed.

Juveniles may be placed under a structured supervision program called C.A.R.E. (Children at Risk Education Program). C.A.R.E. is a home-based electronic monitoring system, which uses radio frequencies and global positioning systems (GPS) to assist staff members who monitor the activities of youths on the program. This facility and its programs offer a safe and structured environment for juvenile law offenders who are awaiting court ordered placement and/or court hearing.

Describe any major changes regarding your organization since you last applied.

Only previous grant recipients need respond.

N/A

What other organizations in your community do similar work? How are you unique, compared to these organizations?

State Legislation and LB800 defined Truancy as 20 days absent from school and must be referred to the County Attorney's office for evaluation. The Omaha Metro Superintendents of Schools implemented the GOALS Center to assist students and families in attending school and achieving academic success prior to the 20 day mark. This is a voluntary program and families are referred to community resources.

Sarpy County began a Truancy Pilot Program in August 2010. The goal was to implement a comprehensive plan which holds parents, students and schools accountable for school attendance by engaging students in the school culture, successfully developing strategies that reduce and prevent truancy and ultimately delinquency and the involvement of the Juvenile Courts.

The Sarpy County Truancy Program is unique within the Omaha Metro Area and is used to divert youth from entering the Juvenile Justice System. When all options implemented by the Schools, including GOALS, have not been successful and the youth exceeds 20 absences from school, he/she is referred to the County Attorney's Office. These cases are examined and a determination is made to place the youth on the Truancy Program instead of Court Intervention.

Collective Impact

We expect grantees to be active and positive contributors to recognized local and regional collaborative community change initiatives. Formal collective impact organizations have the ability to leverage federal funds and engage national foundations, as well as promote systems change through common data indicators, quality standards and best practices.

Examples of such initiatives include:

- ***Collective for Youth***
- ***Panhandle Partnership for Health and Human Services***
- ***Midlands Mentoring Partnership***
- ***Project Everlast***
- ***Northeast Regional Blueprint***
- ***Building Bright Futures***
- ***Domestic Violence Council***

- **Metropolitan Area Continuum of Care for the Homeless**
- **Live Well Omaha**

Explain your organization's participation in community change initiatives related to your mission.

Sarpy County has been approved by the Annie E. Casey Foundation as a Juvenile Detention Alternative Initiative (JDAI) site. Through JDAI, Sarpy County will collaborate with the Casey Foundation to analyze the ineffective and inefficient policies and practices within the juvenile justice systems in Sarpy County that result in inappropriate sanctions, disparities for minority youth, and unnecessary transfers to secure detention.

Research indicates that detaining low risk youth actually increase their likelihood of recidivism, is more expensive than alternatives to detention, and takes resources away from youth who need more intense supervision and services. A significant number of detained youth are low risk and would present little risk to the community if released to their own homes or a lesser level of supervision.

The Annie E. Casey Foundation's JDAI is a nationally renowned reform process that effectively: lowers detention populations, enhances public safety, saves tax payer money, reduces the overrepresentation of minority youth, and introduces overall juvenile justice system improvements. The Annie E. Casey Foundation's Juvenile Detention Alternatives Initiative (JDAI) is a model program under the OJJDP's DMC Reduction Best Practices Database: http://www2.dsgonline.com/mpg/dmc_default.aspx.

Establishing JDAI sites in Nebraska is a specific strategy identified in the State of Nebraska's approved Three Year Comprehensive Juvenile Justice Plan regarding Disproportionate Minority Contact (DMC). Additionally, engaging in the JDAI process will address the following priority issues identified by the State of Nebraska's approved Three Year Comprehensive Juvenile Justice Plan: the lack of alternatives to detention, the overrepresentation of minority youth in the juvenile justice system, and the need for systemic reform in regards to data collection, risk assessment and evaluations. Additionally, JDAI will address the following priorities in the Sarpy County Comprehensive Juvenile Services Plan: improve system operation and coordination, enhance existing programs and services for juvenile offenders, expand continuum of services and sanctions for youth in Sarpy County, and establish new programs for youth involved in the Sarpy County juvenile justice system. Through JDAI, Sarpy County will address these priorities by analyzing system inefficiency in order to implement new policies and improve current practices of detention alternatives for all Sarpy County juvenile offenders.

Proposal Information

Program/Project Title
Sarpy County Juvenile Justice Center Truancy Initiative

Program/Project summary description
Sarpy County Juvenile Justice Center is requesting funding for Truancy and Day Reporting Center personnel in order to expand both programs to meet the needs of youth in Sarpy County. School absenteeism and truancy contribute to students falling behind in schoolwork, failing grades and, dropping out of school resulting in an increase in criminal behavior, alcohol, and drug usage.

The Sarpy County Truancy Program is a comprehensive, individualized approach which develops strategies to reduce and prevent truancy. Critical components identified by the National Center for School Engagement are key elements of the Sarpy County Truancy Program. These critical components include; family involvement, a comprehensive approach focusing on prevention and intervention, use of incentives and sanctions, collaboration with the community, and support.

The student is referred to the County Truancy Program by the Juvenile Court or County Attorney. Staff members serve as a liaison with the schools and other appropriate individuals. Truancy staff makes contact with the family and arrange to meet in their home. Family involvement is one of the Critical Components identified by the National Center for School Engagement for successful truancy programs. Sarpy County has made it a priority to have the family involved in every step of the student's progress.

Daily check of youth's attendance takes place. Truancy staff maintain current information regarding progress. Youth provide a progress report signed by all teachers each week. Truancy staff provides the Juvenile Court, County Attorney and youth's attorney with a memorandum detailing youth's performance every two weeks.

**Sarpy County Truancy Program Initiative
Personnel Costs**

Position	Annual Salary	Subtotal	Benefits	TOTAL COSTS
Teacher	\$40,931	\$40,931	\$3,131	\$44,062
Juvenile Services Officer (FTE)	\$39,892	\$39,832	\$22,917	\$62,809
Youth Attendant (PTE)	\$23,888	\$23,888	\$3,605	\$27,493
TOTAL	\$104,711	\$104,711	\$29,653	\$134,364

PERSONNEL NARRATIVE

The Sarpy County Juvenile Justice Reporting Center is requesting funding for three (3) Reporting Center/Truancy Staff. Funding is requested for one (1) Teacher for the Reporting Center, one (1) FTE Juvenile Services Officer (JSO), and one (1) PTE Truancy Youth Attendant.

The Teacher will provide tutoring and coordination for recovery credit after the Youth Attendant has communicated with the school. Additionally, the teacher will also meet with home school teachers and counselors as needed.

Juvenile Services Officer (JSOs) responsibilities will include; supervising the Day Reporting Center and assist in property check-in, provide transportation to the Reporting Center as needed and assist the teacher as a Teacher's Aid for tutoring purposes.

Youth Attendants do personal checks with the youth and meet with parents for follow-up. The Youth Attendant will work closely with the student's home school and communicate with teachers and counselors on a regular basis. When a youth is initially placed on the program there is a minimum of 1.5 hours spent for intake which is conducted at the youth's residence. Case load is 25-30 youth per youth attendant.

List up to ten major funding sources and amounts pending, including city, state, and federal funding.

Format as: ABC Foundation-\$30,000; B Corporation-\$55,000

Sherwood Foundation, Omaha, Nebraska - Truancy/Reporting Center Initiative \$134,364

Explain how this proposal fits with the organization's mission and goals.

Sarpy County's purpose is to improve the quality of life here in Sarpy County by providing responsive, efficient and high quality public services that promote the self-sufficiency, well-being and prosperity of individuals, families, businesses and communities.

The Mission Statement for the Comprehensive Juvenile Services Plan is: Reduce juvenile delinquency, and enhance public safety by (1) identifying the risk factors related to delinquency and abuse/neglect; (2) developing appropriate prevention and intervention programs for delinquency and abuse/neglect; and (3) fostering system communication and cooperation across agencies and with the public to strengthen system effectiveness.

Through this initiative, the Juvenile Justice Center will assist youth through both the Truancy Program and the Reporting Center. The Truancy Program offers youth an alternative to formal court charges. If the youth successfully completes the Program, the Truancy charge is dismissed which effectively by-passes the traditional court process. Additionally, by expanding the Reporting Center hours, more youth will have access to tutoring and other programming options which otherwise would not be available to them. This initiative will help achieve Priority One of the Sarpy County Comprehensive Juvenile Services Plan.

Priority One of the current plan is to: Establish Alternatives to Detention for juveniles in Sarpy County. The Sarpy County Truancy Program and the Juvenile Reporting Center have both been recognized by the Annie E. Casey Foundation as alternative programs for youth in Sarpy County. Additionally, the Sarpy County Juvenile Reporting Center was nominated by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) as a model program.

Describe the social issue or opportunity to be addressed, including:

- Demographic and geographic information about the population served
- Recent research/evidence related to this issue

Sarpy County is the fastest growing county in Nebraska. Approximately one-third of the total population in the County is made up of juveniles between the ages of 0-17. The juvenile population in Sarpy County is projected to grow by 2% per year through 2020. This rapid increase in population has placed a strain on the current juvenile justice system's ability to keep up with the demand for services and to provide the necessary services youth need.

An increase in the juvenile population of Sarpy County combined with unstructured time outside of school has factored into an increase of youth crimes in the County. Initial encounters with law enforcement often begin with status offenses such as running away and truancy. The results of school absenteeism and truancy have been shown to increase youth participation in risky behaviors such as: substance abuse, gang activity, assaults, and other criminal mischief.

According to the Office of Juvenile Justice and Delinquency Prevention (OJJDP), "Truancy may be the beginning of a lifetime of problems for students who routinely skip school" (<http://www2.ed.gov>). A low commitment to school is linked to all problem behaviors during the adolescent years. Truant behavior as an adolescent has been shown to have a direct connection to problems in adulthood such as: violence, marital troubles, job problems, criminal behavior, and incarceration.

There has been a significant increase of school absenteeism and truancy in Sarpy County. During 2009, the County Attorney received 78 referrals for truancy and filed on 66. In 2010, the County Attorney received 196 referrals for truancy and filed on 107. In 2011, the Sarpy County Attorney's Office received 665 truancy cases and filed on 224 which was an increase of 109% from 2010.

In 2008, 27 juveniles in Probation were identified as truant with eight placed at the Office of Juvenile Services (OJS). In 2009, Probation identified 21 juveniles as truant with two (2) being placed at OJS. In 2010, Probation identified 41 juveniles as truant with five (5) being placed at OJS. From 2009 to 2010, the number of juveniles placed on Probation for truancy increased 95%.

How is your program/project a response to this issue or opportunity?

Sarpy County developed and adopted the 2012-2015 Sarpy County Comprehensive Juvenile Services Plan. The purpose of the Plan is to: reduce juvenile delinquency, and enhance public safety by 1) identifying the risk factors related to delinquency and abuse/neglect; 2) developing appropriate prevention and intervention programs for delinquency and abuse/neglect; and 3) fostering system communication, coordination, and cooperation across agencies and with the public to strengthen system effectiveness.

The Plan identifies five prioritized needs: 1) Establish alternatives to detention for juveniles in Sarpy County; 2) Reduce DMC issues throughout the Sarpy County Juvenile Justice System; 3) Improve system operation and coordination; 4) Improve collaboration among members of the community; 5) Expand and enhance existing programs for juveniles in Sarpy County. It is imperative that programming be continued and enhanced to ensure

proper service provision to Sarpy County youth and their families.

Sarpy County currently operates several programs that either divert youth from formal court processing or provide an alternative to residential placements. As part of this priority, Sarpy County will focus on the continuation of existing programs as well as enhancement. Efforts to continue programs will include securing funding that enables them to expand the level of service. Using the balanced mission and restorative justice framework, Sarpy County is working to interrupt the cycle of isolation and disconnectedness youth experience. Efforts to enhance programs and implement new projects will provide Sarpy County youth and their families with necessary resources and programming to meet their needs at all levels of service.

Describe previous accomplishments in this area and lessons learned that have led to the proposed program/project model.

Sarpy County's Juvenile Justice Center, began researching Truancy Programs in 2009. After a year of research staff at the Juvenile Justice Center implemented a Truancy Pilot Program in August 2010. The goal of the Sarpy County Truancy Pilot was to implement a comprehensive plan which holds parents, students, and schools accountable for school attendance by engaging students in the school culture, successfully developing strategies that will reduce and prevent truancy and ultimately delinquency and involvement of the Juvenile Courts. Due to the passage of LB800, truancy statistics in Sarpy County showed a significant increase in youth referred to the County Attorney's Office for truancy.

In 2011, Sarpy County applied for and received funding from the Nebraska Crime Commission to further implement the Truancy Program. Funding was awarded for two part-time Truancy staff that would be housed at the Juvenile Justice Reporting Center. During the first six months of grant funding, the Truancy Program worked with fifteen (15) juveniles.

From July 2011 to June 2012, the Sarpy County Truancy Program served a total of 58 youth and their families, 30 completed the program successful in May 2012.

In the summer of 2012, Truancy Program staff attended meetings with the Sarpy County Attorney's Office and Juvenile Diversion. The Truancy Program now works with all referred truancy cases that flow through the County Attorney's Juvenile Diversion Program. The Truancy Program served 50 youth and families in the short time from July 2012-November 2012 and served over 90 youth in 2012.

How is your proposed program/project backed by research/evidence or promising practice? Sarpy County researched various evidence based and model programs. In this research, Sarpy County concluded, "programs are more likely to survive and thrive when they exist in a supportive context working with the current system rather than against a system or in isolation" (Truancy Prevention in Action: Best Practices and Model Truancy Programs, National Center for School Engagement. July 2005). In 2010, Sarpy County implemented a pilot program which included components from several model programs.

This project diverts youth from entering the Juvenile Court System which results in placement at the Juvenile Justice Center and/or the CARE Program. Critical components

identified by the National Center for School Engagement (NCSE) are key elements of the Sarpy County Truancy Program. These components include; school-community collaboration, family involvement, comprehensive approach, use of incentives and sanctions, and a supportive context.

According to OJJDP, "because truancy often indicates bigger problems in a child's life, many communities are designing truancy reduction programs that involve schools, law enforcement, families, businesses, judicial and social service agencies, and community and youth service organizations" -- OJJDP, (http://www2.ed.gov/admins/lead/safety/training/truancy_pg3.html).

Truancy is an indication youth may be headed for problems including, isolation, educational failure, and dropping out of school. Research shows that approximately 80% of dropouts were truant the year before leaving school (www2.ed.gov). An increased dropout rate impacts the community as these young people lack the skills to find and maintain employment successfully which can contribute to delinquency due to unstructured time and an increase in welfare dependency.

How is your proposed program/project responsive to diverse client needs (i.e. race, socio-economic status, etc.)?

Although Sarpy County is an affluent county compared to others in Nebraska, there are a substantial number of youth experiencing risk factors for delinquency. These factors include, but are not limited to, poverty, mental illness, alcohol/substance abuse, school truancy/dropout, family/living instability, child abuse and neglect, family conflict, and learning disorders.

One of the priorities in the Comprehensive Juvenile Services Plan is to address Disproportionate Minority Contact (DMC) issues in Sarpy County. Sarpy County juvenile justice agencies recognize the need to provide better access to services for minority populations. It is imperative that the juvenile justice system assess the gaps in service and access by holding minority community forums and other information gathering sessions.

In 2010, the Sarpy County held a meeting in which the State DMC Coordinator presented DMC statistics for Sarpy County. It was determined at the meeting that there are some existing issues which need to be addressed. The Sarpy County SAFE Policy Committee, the JDAI Site Coordinator, and Sarpy County agencies will identify priorities specific to the different minority populations the system serves. The committee will develop partnerships with local agencies also providing services to these populations in an effort to establish comprehensive services to all juvenile residents of Sarpy County and their families. Additionally, Sarpy County will seek funding to assist in addressing Disproportionate Minority Contact issues that are identified in the JDAI analysis. Sarpy County is currently working with the JDAI Site Coordinator and the State DMC Coordinator to take steps to address DMC issues.

Use this space if you would like to share any additional information.

In addition, Sarpy County has been approached by Key Stakeholders in Douglas County to assist with creating a similar but unique Truancy Program for juveniles in Douglas County. The Douglas County JDAI Coordinator has been very impressed with the success Sarpy County has experienced in the two years it has been operational and has asked Sarpy County Truancy Personnel for help in replicating the Program for the youth in Douglas

KEY STAFF AND RESPONSIBILITIES

Michelle Siders, Program Coordinator – Michelle is responsible for the Truancy Program as well as the Evening and Day Reporting Center which work with the Truancy Program. Michelle reviews referrals to the Truancy Program and manages Program Staff.

William (Bill) York, Supervisor- Bill is directly responsible for the day to day operations of the Truancy Program. Bill assists Michelle in reviewing referrals to the Truancy Program. Bill sets up the initial meetings with youth and their families. In addition, Bill is responsible for writing Court updates for each youth in the Program and coordinating with staff on home visits and school progress.

Barb VanWassenhoven, Teacher – Barb oversees the Educational Programs for juveniles held in detention. Barb has been very instrumental in the development of the Truancy Program and will work with the Teaching Staff on the Program.

Darlene Harris-Hogan, School Liaison - Darlene is responsible for taking daily school attendance, checking on grades, picking up homework, and transporting truant youth to school or Reporting Center as necessary.

Marlo Wolford and Amanda Rucker, Truancy Officers – Marlo and Amanda are responsible for making the weekly home checks on each youth on the program. They are also responsible for transporting youth as needed to and from the Evening Reporting.

County. Sarpy County Truancy personnel are interested in assisting Douglas County and will work closely with the Douglas County JDAI Coordinator to create a program that will work for youth in Douglas County.

Additionally, opening up the Reporting Center during the hours of 8:00-3:00 will not only assist those students that are in the Truancy Program but also those students that have been suspended from their home school or are having problems and need additional assistance with school work.

If you operate with partners through a Memo of Understanding on efforts related to this program/project, please attach.

Evaluation Information

Measurable Goal #1

You are required to complete these fields for two measurable goals.

Describe the success indicator for this goal.

75% of those students failing courses during the first four (4) weeks after entrance into the program will successfully bring grades to passing within the timeline of the program.

How will you measure progress on this goal?

- A. Implement a plan of identification of eligible students
- B. Develop an individual learning plan

Describe activities designed to achieve this goal.

Monitor homework completion and test grades in each class. Contact teachers in student's classes where progress is not being achieved to understand why progress is not being made. Develop resources for student to improve progress, including, tutoring, extra time for assignments, retaking or redoing work, etc... Information sharing will take place between all stakeholders involved in the youth's education, including, parents, home school, home school district, school counselors, teachers, school psychologist and any other service providers. Monitoring of student's progress while in the program will be ongoing and daily. Weekly progress reports will be sent to parents and school.

Measurable Goal #2

You are required to complete these fields for two measurable goals.

Describe the success indicator for this goal.
Implement transition plan back to home school for student.

How will you measure progress on this goal?
A. Include transition in the individual learning plan.
B. Include strategies that include the home school's involvement.

Describe activities designed to achieve this goal.
Staff will meet with home school representatives before the student returns to school. Meetings will take place with student and school representative to monitor student progress.

Measurable Goal #3

Describe the success indicator for this goal.
Address behavior and social needs of the student

How will you measure progress on this goal?
A. Meet with family regularly to determine issues that family wants to be addressed.
B. Exit interview with the student and family upon completion of the program.

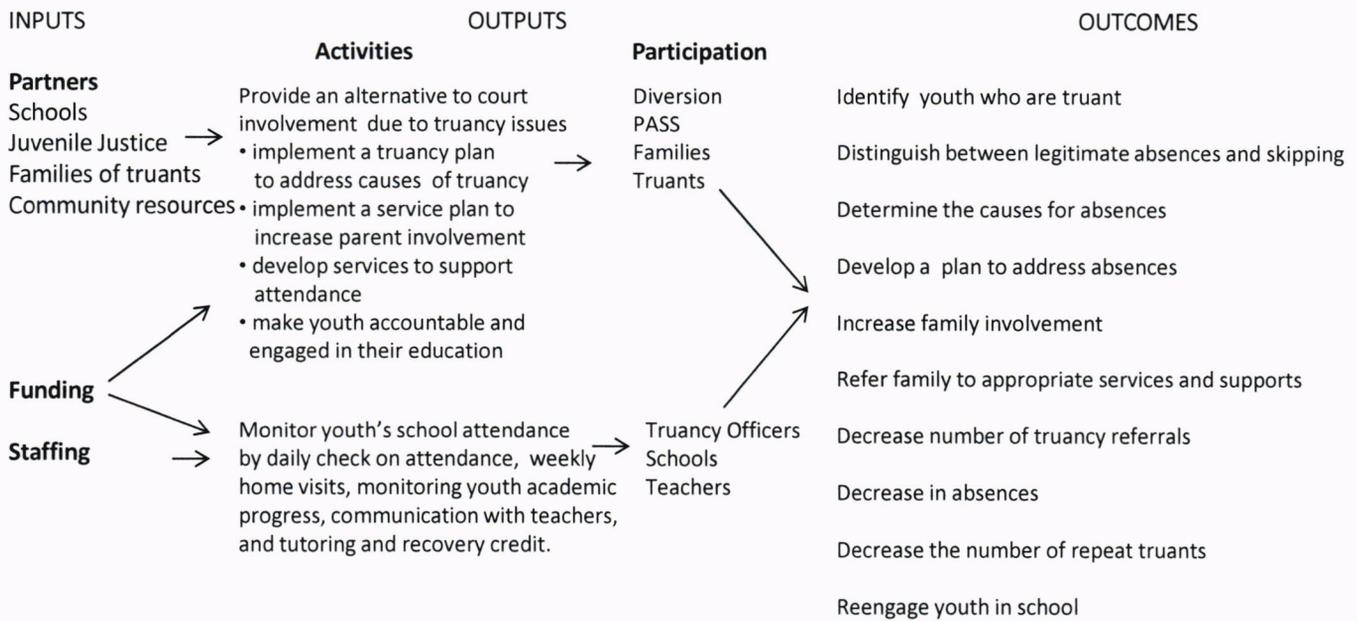

Describe activities designed to achieve this goal.
Provide a safe environment, emotionally and physically in the Day Reporting Center. Involve family as appropriate, create a structured learning environment, and provide consistency for the student.

How will you address program sustainability and future funding needs? Include if you plan to use future Sherwood funds to maintain this work.
The Sarpy County Truancy Program has the support of Sarpy County and the Sarpy County Education Program (SCEP) Board which consists of Superintendants from the five area school districts, the Sarpy County Sheriff, Sarpy County Attorney's Office, Sarpy County Probation, Sarpy County SAFE Chairman, and non-voting members which include the Sarpy County Juvenile Justice Center (JJC) Director, Sarpy County JJC Programs Supervisor, Sarpy County JJC Head Teacher and the SCEP Program Head Teacher. The SCEP Board has committed to support the program on a long term basis through funding secured from

Quantitative Data			
Has attendance improved while on the Program?	Pre-program attendance Attendance while on the program Attendance semester after program	School Records	Attendance records Truancy Checks
Have grades improved while on the Program	Mid-quarter grade, quarter grades semester grades	Youth, Parents School Records	Grade reports Truancy Checks
What was the success rate of the Program?	Total number of youth in Program Number of youth completed successfully	School Records Academic Records Truancy Records	Truancy records
Qualitative Data			
What parts of the program were most beneficial?	Parent and youth input on program	Youth, Parents	Survey/Questionnaire

Prevention Achieves School Success (PASS): Provide a structure to reduce truancy and reestablish a pattern of school attendance and success.

revenue generated in the Traffic Program.

The SCEP Board has indicated full support for the Program. The Sarpy County Sheriff's Office fully supports the Sarpy County Juvenile Justice Truancy Program. The Sarpy County Sheriff's Office, Sarpy County Juvenile Court, Sarpy County Attorney's Office, and the SCEP Board understand that juvenile crime will ultimately be reduced with the implementation of a successful Truancy Program. Research from the National Center for School Engagement (NCSE) shows that successful Truancy Programs operate within a supportive context which includes: an umbrella agency, neighborhoods, schools, and laws and policies.

Sarpy County has a successful record of sustaining programs which were initially awarded with start-up grant funding. The Juvenile Justice Reporting Center, Juvenile Justice Center Assessment Center, Pre-trial Juvenile Assessment Center, and The CARE Program are all examples of programs which were implemented with funding from the Nebraska Crime Commission and are currently being sustained by Sarpy County. With full support from the Sarpy County Sheriff's Office, Sarpy County Juvenile Court, Sarpy County Attorney's Office, and the SCEP Board, the Sarpy County Truancy Program will continue to operate to serve the youth of Sarpy County. In addition, various funding options will be researched on an annual basis to ensure continuation and possible expansion of the program.

Identify any internal or external risks that could impact the success of the program/project.

Internal Risks:

Loss of Funding

Loss of Staff

External Risks:

Lack of parental involvement or support

Family financial, social, and medical pressures that cause youth to stay home to help the family

Low school attachment

Poor academic performance

Poor school climate

Unmet mental/physical needs

Chemical dependency

Negative peer influences
