Michael E. Behm, Executive Director  
Nebraska Crime Commission  
PO Box 94946  
Lincoln, NE. 68508

Dear Mr. Behm,

The Sarpy County Board of Commissioners fully supports the Juvenile Accountability Block Grant (JABG) application for programming at the Sarpy County Juvenile Reporting Center and Sarpy County Juvenile Diversion. The Juvenile Reporting Center provides much needed rehabilitative services to juvenile offenders in Sarpy County. The Juvenile Reporting Center allows for a less restrictive and less costly alternative to detention. In addition, Sarpy County Juvenile Diversion's drug testing program is an important tool which helps to hold youth accountable to their contracts.

Once again the Sarpy County Board of Commissioners supports this application and requests positive consideration from the Crime Commission.

Sincerely,

Jim Warren  
Chairman

Sarpy County Board of Commissioners

3. Improve system operation and coordination.
4. Improve collaboration among members of the community.
5. Expand and enhance existing programs for juveniles in Sarpy County.

**13. Federal Performance Measures:**

Describe the federal performance measures targeted by this application and methods of data collection. *[Limit 1 page]*

Federal Performance measures are intended to measure and assess the progress of programs toward their established goals. As part of Sarpy County's Juvenile Justice programming, the Reporting Center and Juvenile Intake/Diversion adopted outcome and output measures and rely on them to track progress towards goals.

The Federal Performance Measures targeted by this application are: Graduated Sanctions and Accountability. The Juvenile Reporting Center provides graduated sanctions for juvenile offenders through various levels of consequences which include mandatory Drug and Alcohol Classes, Wellness Classes, Tobacco Classes, Character Building Classes, and Connect the Dots Classes. Sarpy County Juvenile Diversion provides accountability through random drug testing of juveniles participating in the Program.

As a grantee, Sarpy County and the Juvenile Reporting Center realize they are accountable to the funder and must provide proof that grant awards are funding successful programming. Sarpy County and the Sarpy County Juvenile Reporting Center have developed a computerized database for data collection. The database can generate reports that allow Center staff to analyze program operation and success. Additionally, through the County's recent Juvenile Detention Alternatives Initiative (JDAI), database and data collection have been analyzed and are in the process of being updated in order to provide better, more accurate information in the future.

**14. Disproportionate Minority Contact [DMC] Information:**

Briefly discuss Disproportionate Minority Contact [DMC] issues impacting your community. Discuss current programming in your community that addresses DMC. Provide information on the 2010 RRI's.

According to the data above, a DMC issue exists at the point of arrest, cases diverted and cases referred to Court. Funding for this JABG project could have an impact at those contact points as youth may be involved in programming at the Juvenile Reporting Center or referred to Diversion programming.

In the past, the County collaborated on a grant request with Douglas and Lancaster Counties to hire a DMC Coordinator to assess DMC issues in Sarpy County and begin planning to mitigate those issues. The request was not approved. Sarpy County has collaborated with the State DMC Coordinator to take steps to address DMC issues. Sarpy County was recently given approval from the Annie E. Casey Foundation to begin a Juvenile Detention Alternative Initiative (JDAI). Sarpy County has also applied for a grant from the Crime Commission which would allow Sarpy County to continue to collaborate with the Annie E. Casey Foundation in addressing DMC issues through the JDAI (Juvenile Detention Alternative Initiative) project.

## CATEGORY A – PERSONNEL NARRATIVE

The Sarpy County Juvenile Reporting Center will provide tobacco prevention education classes and smoking cessation classes. The Tobacco Prevention Classes are taught by a Sarpy County employee (not currently part of the normal Reporting Center Staff) in addition to the employee's normal day to day duties and responsibilities with Sarpy County. The classes are conducted after normal County business hours, therefore JABG funds are not supplanting. The classes will be offered bi-monthly throughout the project period. The Center will offer the following classes:

### **Intervening with Teen Tobacco Users (TEG):**

This comprehensive educational program is for students in grades 7–12 who don't want to stop using tobacco. This may include teens that violate school policy or community ordinances on underage tobacco use. Many schools use Intervening With Teen Tobacco Users (TEG) as a positive alternative to suspension and juvenile courts as diversion.

Based on Prochaska and DiClemente's stages of change, Intervening With Teen Tobacco Users (TEG) is designed to move teenage tobacco users from not wanting to quit to wanting to quit. Through videos, demonstrations, and cooperative learning, teenage tobacco users learn about the negative consequences of tobacco use. They gain the knowledge, motivation, and action steps to move toward a healthier, tobacco-free lifestyle. Participants are encouraged to reduce their tobacco use, quit on their own, or join a voluntary tobacco cessation program.

### **Helping Teens Stop Using Tobacco (TAP, 2nd Edition):**

A Step-by-Step, Voluntary Cessation Program for Teens

This award-winning program provides tobacco-using teens in grades 7–12 with the information, motivation, and support to successfully stop using cigarettes or spit tobacco. In an adult-led, support group setting, tobacco users are gently guided to a personally selected quit date and provided with specific strategies to remain tobacco-free. Facilitators and peers provide the cessation options, guidance, and social support for the choices participants make as they design their own approach to becoming tobacco-free.

**The total request for Tobacco Classes personnel is: \$1,204 (4 classes at \$301 per class).**

### **Character Building Classes**

This class will highlight activities on respect, cooperation, honesty, and character with lessons related to crime, violence, drug and alcohol, negative influences and peer pressure. Character Building will focus on responsibility and respect along with the building of social skills. Classes are offered from 6:00-8:00 p.m, outside the employee's normal working hours and day to day duties, therefore, funding is not supplanting. Employee is not currently part of the Reporting Center Staff and is employed by the County in a different capacity.

**Lesson content:**

**Building Skills Toward Kindness and Control**

**Growing in Values and Stability**

**Peer Pressure**

**School Bullying**

**Problem Solving**

**Decisions**

**Targets for Bad behavior**

**Conflict resolution**

**Character Strengths**

**The total request for Character Building Class personnel is: \$970 (5 classes at \$194 per class).**

### **Drug Testing**

Sarpy County Juvenile Intake/Juvenile Diversion provides drug testing to all youth involved in the program. Funds requested in this proposal will be used to purchase 710 drug tests at \$4.50 per test for a total cost of \$3,195. Drug testing supplies test for the presence of THC, Opiates, Cocaine, Methamphetamine, Amphetamine and Benzodiazepines.

Sarpy County Juvenile Intake/Diversion relies on grant dollars to help support the drug testing program due to cost increases in other areas of the department. In the past, the Nebraska Office of Highway Safety provided testing tubes for the breathalyzer machine in order to test juveniles for alcohol. This year, the Nebraska Office of Highway Safety will no longer provide testing tubes for the breathalyzer. This directly impacts supply costs as Juvenile Diversion must now provide additional funding out of the department budget for the tubes. Funding from this grant request will provide drug testing kits for Juvenile Diversion, therefore alleviating overall supply costs allowing Juvenile Diversion to use funds in the department budget for the testing tubes.

### **Juvenile Wellness Program Supplies**

The Juvenile Wellness Program will provide participants with jump ropes, wellness supplies, and incentives for a total of \$100.

### **Victim Empathy Supplies**

The Juvenile Reporting Center will provide participants with supplies in conjunction with the Victim Empathy Classes offered for a total of \$100.

### **MRT Books**

Moral Reconciliation Therapy  
\$10/book x 20 books = \$200

### **Navigator Books**

Books for Navigator Classes  
\$10.00/book x 20 books = \$200

**Total request for supplies: \$3,795**

## SECTION IV: PROBLEM STATEMENT

### 1. Juvenile Accountability Problems Identified:

The SAFE Committee developed and adopted the 2012-2015 Sarpy County Comprehensive Juvenile Services Plan in July 2012. The purpose of the Plan is to: reduce juvenile delinquency, and enhance public safety by 1) identifying the risk factors related to delinquency and abuse/neglect; 2) developing appropriate prevention and intervention programs for delinquency and abuse/neglect; and 3) fostering system communication, coordination, and cooperation across agencies and with the public to strengthen system effectiveness.

The Plan identifies five prioritized needs: 1) Establish alternatives to detention for juveniles in Sarpy County; 2) Reduce Disproportionate Minority Contact (DMC) issues throughout the Sarpy County Juvenile Justice System; 3) Improve system operation and coordination; 4) Improve collaboration among members of the community; and 5) Expand and enhance existing programs for juveniles in Sarpy County. In addition to these priorities that create new programs and services, it is an established priority of Sarpy County to continue existing programs. It is imperative that current programming be maintained to ensure proper service provision to Sarpy County youth and their families.

The top three priority problems include:

1. Establishing alternatives to detention for juveniles is a high priority for the Sarpy County Juvenile Justice System. This will be accomplished by implementing the Juvenile Detention Alternatives Initiative (JDAI) in Sarpy County. Sarpy County has been approved by the Annie E. Casey Foundation as a JDAI site. Through the JDAI process, Sarpy County will collaborate with the Casey Foundation to analyze the ineffective and inefficient policies and practices within the juvenile justice systems in Sarpy County that result in inappropriate sanctions, disparities for minority youth, and unnecessary detention both secure and staff secure.
2. Expand and enhance existing programs for juveniles in Sarpy County. Sarpy County currently operates several programs that either divert youth from formal court processing or provide an alternative to residential placements. As part of this priority, Sarpy County will focus on the continuation of existing programs as well as enhancement. Efforts to continue programs will include securing funding that enables them to operate at their current level of service.
3. Improve system operation and coordination by developing an integrated information sharing system. The integration of agency information is crucial to assisting youth and their families in receiving the help they need. Increased coordination among agencies and the development of an information management system are vital in overcoming the current duplication of services occurring in the Sarpy County juvenile justice system. In addition, enhancements to system information collection and sharing will lead to a greater understanding of the trends and profile of juvenile offender service requirements.

**2A.** The problem to be addressed by this proposed grant application is: as the juvenile population and juvenile crime in Sarpy County continue to increase, alternative programming is required in an effort to divert youth from detention in the Sarpy County Juvenile Justice Center. This effort to place juveniles in a lesser level of care creates the need for the continuation and enhancement of existing alternative programs and services for juvenile offenders in Sarpy County.

**2B. Description of the Problem or Problems:** Sarpy County is the fastest growing county in Nebraska. From 2009 to 2010, there was a 6.5% increase in juveniles (ages 0-17) in Sarpy County. Approximately one-third of the total population in the county is made up of juveniles between the ages of 0-17. The juvenile population in Sarpy County is projected to grow by over 3% per year through 2020. In the three (3) years between 2009 and 2011, the juvenile population in Sarpy County increased 7.7%. This rapid increase in

population has placed a strain on the current juvenile justice systems' ability to keep up with the demand for alternative programming and services.

An increase in the juvenile population of Sarpy County, combined with unlimited and unstructured time after school, on weekends, and in the summer, has factored into the increase of crime in the County. The results of youth participating in risky behavior such as substance abuse, gang activity, assaults, and other criminal mischief has also contributed to youth involvement in the juvenile justice system. The types of crimes committed by juveniles in Sarpy County is changing and increasing. For the year 2011, in addition to numerous charges for drug, alcohol, and shoplifting, there were seven (7) burglary charges, six (6) sexual assault charges, fourteen (14) charges of terroristic threats, six (6) robbery charges, and one (1) murder charge. In 2012, there were eight (8) burglary charges, (106) criminal mischief charges, fifteen (15) sexual assault charges, and fifteen (15) charges for terroristic threats.

By the time a youth is sent to detention, he or she has usually committed multiple law offenses. Initial encounters with law enforcement often begin with status offenses such as running away, truancy, or minor in possession of alcohol, tobacco or other drugs, and escalate to violations that are more serious. Additionally, there has been a continuous population of juvenile offenders charged with drug and alcohol violations within the county, which significantly influences juvenile crime. Between January 1, 2012 and December 31, 2012, a total of 678 youth were referred to the Juvenile Diversion Programs with 157 of those being involved in drug and alcohol abuse.

**3. Statistical Documentation of the Problem:**

Total number of Juvenile Theft by Shoplifting charges in Sarpy County	152	149	204	+34.2%

\*Source of data: Sarpy County database system, Sarpy County Information Systems

The above reported statistics reflect activity on a calendar year basis. Brief explanation of statistics provided:

- Sarpy County continues to see an increase in the juvenile population. Although the above statistics only show two years of juvenile population data (2012 population numbers were not available on the OJJDP website) in the time frame from 2009 to 2011, the juvenile population increased 7.7% from 42,924 to 46,259.
- The number of juvenile criminal charges increased 1.25% from 2,237 in 2010 to 2,265 in 2012.
- The number of youth involved in the Sarpy County Juvenile Drug Court has remained unchanged.
- Sarpy County experienced a 25.6% increase in the number of juveniles in Sarpy County Diversion involved in drug and alcohol abuse.
- Sarpy County experienced a 27.9% increase in cases referred to Juvenile Diversion.
- Although the total number of juvenile charges, the total number of youth in Juvenile Diversion, and youth in the Juvenile Reporting Center has increased; the number of youth involved in the Sarpy County CARE program, Juvenile Probation, and youth detained at the JJC has decreased. This indicates that alternative programming options are having a significant effect in Sarpy County.
- In addition to Sarpy County experiencing an increase in juveniles charged with drug and alcohol violations, the number of juveniles charged with Juvenile Assault, Juvenile Criminal Mischief, Juvenile Sexual Assault, Juvenile Terroristic Threats, and Juvenile Theft by Shoplifting have also increased in the three years from 2010-2012.

## **SECTION V: PROJECT OPERATION**

It is the goal of the SAFE Committee to work with key agencies and stakeholders of the juvenile justice system to improve and enhance the current system. A study of the Sarpy County juvenile justice system determined that a gap in the current continuum of services existed in the area of a Juvenile Reporting Center (Center). Therefore, the SAFE Committee will continue collaborating to operate a highly structured Juvenile Reporting Center that addresses the additional rehabilitative needs in the current continuum of service. The Center functions as an alternative to detention by providing a less restrictive level of care that allows youth to remain in the community, reduces detention costs, and keeps families intact.

The Center began serving youth in February 2007. In 2007, the Center served 391 youth in programming for a total of 1,995 service hours and 19 in supervision for a total of 2,142 service hours. In 2008, the Center served 699 youth in programming for a total of 3,395 service hours and 58 in supervision for a total of 2,328 service hours. In 2009, the Center served 873 youth in programming for a total of 4,088 service hours and 77 in supervision for a total of 1,576 service hours. In 2010, the Center served 816 youth in programming for a total of 3,568 service hours and 39 in supervision for a total of 1,181 service hours. During 2011, the Center served 847 youth in the Juvenile Reporting Center for a total of 4,574 service hours. For 2012, the Center served 817 youth for a total of 4,908 service hours.

The Center operates at the Sarpy County Juvenile Justice Center (JJC) Monday through Thursday from 3:00 to 9:00 pm and Saturday from 8:00 am to 12:00 pm. Additionally, the Center alters the summer hours to better serve the needs of working families. The summer schedule will cover hours that youth are not in summer school. The Center collaborates with the Sarpy County Education Program (SCEP) to provide classroom/meeting room space for the program.

The Center works in partnership with the Sarpy County Separate Juvenile Court, Juvenile Drug Treatment Court (JDTC), District 2 Probation, the CARE program, and other juvenile justice agencies for intake referrals. The target population includes four categories of youth offenders ages 12-18. The first category is offenders ordered by a Juvenile Court Judge as part of their disposition or detention order. The second category is offenders referred to the Center as a sanction for a program violation. These youth will report for an amount of time agreed upon by the Center Coordinator and the referring agency. The third category is youth ordered to participate in educational classes offered at the Center. Youth participating in classes participate through the duration of the class they have been ordered to attend. Youth sign an individualized program agreement detailing their level of participation needed to successfully complete their program commitment. Finally, the fourth category is offenders who are referred to the Center by Juvenile Justice Agencies for supervision. Supervision allows youth to remain at home and in school while still providing evening and weekend supervision, rather than placing them in detention.

A full-time Supervisor was hired as the Center Coordinator in November 2006 to oversee the day-to-day operation of the Center. The Coordinator collaborates with community agencies to maintain and expand the educational component of the Center, provides supervision, and performs administrative duties.

Educational workshops consist of, but are not limited to, GED, life/social skills education, Moral Reconciliation Therapy, Navigator Abstinence Program, Adolescent Anger Management, Character Education, Decision Making classes, Victim Empathy classes, Wellness classes, AA meetings, substance abuse education/prevention, Common Sense Parenting education for parents of youth participating in the Center, and guest speakers that present on a variety of topics. Youth are also involved as resources to design and implement youth led service-learning projects in the community. In addition, homework assistance and tutoring is provided.

The average number of daily participants in Center programming will be 10-15. It is estimated that 80 youth will be ordered for supervision during the project period. Juveniles sent to the Center for supervision as a result of detention orders, sanctions, or as part of their CARE contract who have not had a prior assessment are evaluated by the Reporting Center. The Center will always administer the YLS/CMI to determine individual case management plans, and may administer the SSI, Maysi-2, Suicide Risk Inventory, Strength Based Questionnaire, Health Screening, and Education Screening to determine individual risk needs. Assessments conducted by referring juvenile justice agencies will be available to the Coordinator. Juveniles at the Center are not reassessed unless needed due to a change in their status or circumstance. Programming youth are not assessed at the Center.

Parent/guardian involvement includes attendance in Common Sense Parenting Classes, attendance at some educational workshops, and meetings with the Center staff when needed. As the curriculum is further developed, classes involving communication and relationship building between youth and parents may be offered.

Youth exit the program when they have completed all of the requirements of their individualized program contracts or mandated sanction. The Center notifies the Juvenile Court or referring program of the youth's successful completion. Youth also exit the program if they unsuccessfully complete the goals of their contracts, commit additional law violations, or are placed in an out of home placement by the Juvenile Court System. These juveniles are referred back to Juvenile Court for further disposition. This grant request will fund programming and programming supplies at the Sarpy County Juvenile Reporting Center.

This grant request will also fund drug testing supplies for Sarpy County Juvenile Diversion Program. In 1979, the Sarpy County Attorney's Office implemented the Juvenile Diversion Program. Since its inception, over 8,000 youth and their families have participated in the Diversion program. Between January 1, 2011 and December 31, 2011, a total 195 youth were referred to the Sarpy County Juvenile Diversion Program for alcohol or substance abuse violations and between January 1, 2012 and December 31, 2012, 157 youth were referred to the Sarpy County Juvenile Diversion Program for alcohol or substance abuse violations. Sarpy County Juvenile Diversion drug testing supplies test for the presence of THC, Opiates, Cocaine, Methamphetamine, Amphetamine and Benzodiazepines.

The County match is \$1,385 which will include expenses involved in detaining Sarpy County youth who are inappropriate for detention at the Sarpy County Juvenile Justice Center. Various secure juvenile detention facilities in the area will be used. Staff will make every effort to place juveniles in the closest facility to Sarpy County. Placements can be at Douglas County Youth Center, Lancaster County Detention or Madison County Detention. These contracts will be funded with match dollars that will be taken from the Sarpy County General Fund.

B. Describe the impact of the project on the community, agency, and client/family.

JABG funds allow youth to attend programming classes at no cost to them or their families. Classes are available to all youth within the Sarpy County Juvenile Court System. Youth may be ordered to attend a specific class or multiple classes by Juvenile Court, referred by Juvenile Probation, Diversion, Teen Court, Department of Health and Human Services, Juvenile Truancy Program, CARE Program, parents of youth, or youth who wish to participate on their own. Funding provides a large variety of educational classes that assist youth with understanding who they are, how they can make a positive difference by making better choices, how the choices they make impact others, and provide them the information needed to make choices which will keep themselves and others safe and healthy. Youth also learn important skills needed to be successful in school, at home, and on their own which will ultimately help to decrease recidivism rates. In addition, funding awarded through this proposal will help Juvenile Diversion purchase drug testing kits in order to hold youth accountable to their Diversion contracts.

C. Provide a success story about the project.

The new Character Building Class has operated very well. The instructor has agreed to teach the class several times throughout the grant year. All agencies that refer youth to the Reporting Center have utilized the class and continue to send new referrals. Youth whom attend the class appear in good spirits and have stated that they really did not want to attend a class in the beginning. However, since they were required to attend, as part of the contract or maybe even punishment, they are content with having taken the class. Youth have stated they learned more about who they are and how to handle issues and others around them better. All youth who successfully complete the Character Building Class are issued a certificate of completion.

A young teen girl was in Juvenile Diversion in late 2011. As part of her contract she was asked to be a part of the Teen Court program and serve on the Jury for Diversion cases. The young teen really hesitated and was extremely shy and unsure of being a part of something new and meeting new people. She volunteered four times as part of her contract. After she was finished with Diversion, she asked if she could stay on as a regular volunteer. This particular youth has now moved from jury member to Teen Court Attorney. She is confident, responsible, brings friends from school to watch in hopes they will volunteer. She mentors new Attorneys who are just starting out and she is only 14. She has made many friends while volunteering and is definitely considered a leader within the program.

D. Describe any unanticipated challenges in implementation or operation of the project. How were these challenges addressed?

The Reporting Center has operated well this year. However, one of the challenges that many families have faced is transportation to the programs and services. Families are having financial difficulties and some rely on one automobile. Sarpy County does not have public transportation such as busses. This challenge will continue to be an issue that the Center and families will endure. This past year, the Truancy and CARE Programs have assisted many families with their transportation struggle which has allowed many youth to receive services they otherwise would not have been able to attend.

RE: Juvenile Accountability Block Grant for Sarpy County Juvenile Day/Evening Reporting Center programming

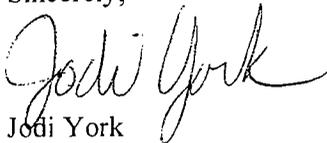

To Whom It May Concern:

Please accept this letter of support for the accompanying funding request for the Sarpy County Juvenile Day/Evening Reporting Center. A study of the Sarpy County juvenile justice system conducted by Chinn Planning in 2004 determined that a gap in the current continuum of juvenile justice services existed in the area of a Juvenile Day/Evening Reporting Center. Subsequent involvement with the Annie E. Casey Foundation's Juvenile Detention Alternatives Initiative has also highlighted the need for expanded services in a reporting center setting. District 2 Probation supports the center as a haven for juveniles involved in the justice system who require skill building assistance, programming, and additional structured supervision.

I feel this center is a good compliment to the supervision we are already providing through Nebraska State probation. We continue to partner with their staff and make referrals for specific services available on their menu. We would certainly like to see an expansion of services to provide more supervision opportunities and enhance the continuum of care available to youth in the juvenile justice system. We are hopeful that the County's participation in the Annie E. Casey Foundation's Juvenile Detention Alternatives Initiative will also provide incentive to pursue additional offerings at the Reporting Center.

District 2 Probation fully supports this request for funding assistance. Please do not hesitate to contact me if you have questions or suggestions. Thank you for your time and consideration.

Sincerely,
